significant and interesting architectural sites in Liverpool **Inside The Wicker Man** Allan Brown, 2012-02-15 Inside The
Wicker Man is a treat for all cinemagoers exhaustively researched and achieving a near perfect balance between history
trivia and serious analysis Allan Brown describes the filming and distribution of the cult masterpiece as a textbook example
of How Things Should Never Be Done The omens were bad from the start and proceeded to get much much worse with fake
blossom on trees to simulate spring actors chomping on ice cubes to prevent their breath showing on film and verbal and
physical confrontations involving both cast and crew The studio hated it and hardly bothered to distribute it but today it finds
favour with critics and fans alike as a serious if flawed piece of cinema Brown expertly guides readers through the film s
convoluted history attempting along the way to explain its enduring fascination and providing interviews with the key figures
many of whom still have an axe to grind and some of whom still harbour plans for a sequel *Pictures* Tim Walker, 2008

Consuming the Entrepreneurial City Anne Cronin, Kevin Hetherington, 2008-04-07 This collection offers a global
perspective on the changing character of cities and the increasing importance that consumer culture plays in defining their
symbolic economies Increasingly forms of spectacle have come to shape how cities are imagined and to influence their
character and the practices through which we know them from advertising and the selling of real estate to youth cultural
consumption practices and forms of entrepreneurship to the regeneration of urban areas under the guise of the heritage
industry and the development of a WiFi landscape Using examples of cities such as New York Sydney Atlantic City Barcelona
Rio de Janeiro Douala Liverpool San Juan Berlin and Harbin this book illustrates how image and practice have become
entangled in the performance of the symbolic economy It also argues that it is not just how the urban present is being shaped

in this way that is significant to the development of cities but also that a prominent feature of their development has been the spectacular imagining of the past as heritage and through regeneration Yet the ghosts that this conjures up in practice offer us a possible form of political unsettlement and alternative ways of viewing cities that is only just beginning to be explored Through this important collection by some of the leading analysts of consumption cities and space Consuming the Entrepreneurial City offers a cutting edge analysis of the ways in which cities are developing and the implications this has for their future It is essential reading for students of Urban Studies Geography Sociology Cultural Studies Heritage Studies and Anthropology

The Making of John Lennon Francis Kenny, 2018-07-11 Despite the nearly universal fame of the Beatles many people only know the fairytale version of the iconic group's rise to fame Drawing on his extensive knowledge of Liverpool Francis Kenny reveals the real John Lennon who preceded the legend showing how his childhood shaped his personality creative process and path to success and how it also destroyed his mental health leading to the downfall of one of the most confident and brilliant musicians of the past century The Making of John Lennon is a must read for any Beatles fan It explains how Lennon's turbulent family background affected his relationships why the true inspiration for Strawberry Fields could not be revealed how Pete Best's college connection led to his removal from the group and why class backgrounds were the real reason for the breakup of the legendary band Offering a complex portrait of Lennon's early life The Making of John Lennon tells the true story behind the rise of the legendary icon

The Greening of the City Carole A. O'Reilly, 2019-05-17 Urban parks are a much loved feature of the city environment However our knowledge of the true scale of their impact remains uneven Much work has been done on their origins and design features but this book aims to extend this beyond the nineteenth century examining the fuller flowering of these valuable spaces in the early decades of the twentieth century Encompassing themes such as social and political usage parks as employers and the dangers posed by such freely accessible spaces the book examines a range of parks in cities such as Manchester Salford Liverpool Leeds Preston Hull and Cardiff and challenges the prevailing myths about their meaning for their users This study's timeframe spans almost 100 years of unprecedented social cultural political and economic changes and allows for the consideration of the expansion and commercialisation of leisure opportunities for the public Urban parks played a significant role in this the book places parks firmly in the context of the evolving city and examines the importance of green space to the urban citizen during this most fascinating of historical periods
