Diane Smith, 2004-03-30 Diane Smith's acclaimed novels feature strong heroines, memorable characters, surprising revelations from the natural sciences, and an original perspective on the American West. Set in 1876, right after the Battle of Little Big Horn, her new novel tells of Eleanor Peterson, a scientific illustrator in her late thirties, and her friend and mentor Augustus Starwood, an aging portrait painter with a passion for Shakespeare, who join a diverse band of adventurers heading west to Montana to work on a dinosaur fossil dig. Told through Eleanor's remembrances, years later, the story recounts the experiences of this ambitious and at times contentious field crew as they argue over prevailing theories of evolution, contend with rival scientists, and worry about Indians moving north after their defeat of Custer. A vivid portrait of both the natural environment and the issues and ideas of the time, Smith's novel is ultimately a story of personal discovery, revealing the redemptive power of the land and its rivers.

Imagination Sabine Wilke, 2015-03-20 Thinking about and relating to the environment, what the Germans call Umwelt, i.e. the world that surrounds us in the way that we do today, has a long tradition within modern German culture. German scientists were among the many European explorers that left Europe in the late eighteenth century on voyages of discovery to then unknown parts of the world. For some explorers, discovery meant the fundamental confirmation of their own superiority vis-à-vis primitive peoples and primitive natures; for others, it resulted in a shake-up of their belief in the superiority of European civilization in the face of the achievements of other civilizations or in the face of spectacular nature scenes that outperformed the temperate European landscapes in terms of scale, sublimity, and grandeur. The documents that contain these stories of discovery left an important impression not only on German culture but on European civilization at large, defining it vis-à-vis other civilizations and other natures. Europe today is the product of these encounters, including the way we conceive of our Umwelt, the environment that surrounds us. The story told in this book is the story of the rise of the modern German environmental imagination, with particular emphasis on its narrative and visual components, complementing and expanding Barbara Stafford's important work in her seminal study of the illustrated travel account from 1984. Chapters on Georg Forster, Alexander von Humboldt, Albert Bierstadt, Leni Riefenstahl, and Werner Herzog unfold the key stages in a process that constitutes the unfolding of the modern German environmental imagination.

famous and obscure whose provocative pictures document the people and places of the nineteenth century American West. The artists depicted in these pages represent a variety of personalities and artistic styles. According to Tyler, each of them responded in unique ways to the compelling and exotic drama that unfolded in the West during the nineteenth century, an age of exploration, surveying, pleasure travel, and scientific discovery. In eloquent and engaging prose, Tyler unveils a fascinating cast of characters, including the little-known German-Russian artist Louis Choris, who served as a draftsman on the second Russian circumnavigation of the globe; the exacting and precise Swiss artist Karl Bodmer, who accompanied Prince Maximilian of Wied on his sojourn up the Missouri River; and the young American Alfred Jacob Miller, whose seemingly frivolous and romantic depictions of western mountain men and American Indians remained largely unknown until the mid-twentieth century. Other artists showcased in this volume are John James Audubon, George Caleb Bingham, Alfred E. Mathews, and finally Frederic Remington, who famously sought to capture the last glimmers of the old frontier. A common thread throughout *Western Art: Western History* is the important role that technology, especially the development of lithography, played in the dissemination of images. As the author emphasizes, many works by western artists are valuable not only as illustrations but as scientific documents imbued with cultural meaning. By placing works of western art within these broader contexts, Tyler enhances our understanding of their history and significance.

Pictures From An Expedition Early Views Of The American West: Bestsellers in 2023 The year 2023 has witnessed a remarkable surge in literary brilliance, with numerous compelling novels enthralling the hearts of readers worldwide. Lets delve into the realm of bestselling books, exploring the captivating narratives that have captivated audiences this year.

Pictures From An Expedition Early Views Of The American West : Colleen Hoover's "It Ends with Us" This touching tale of love, loss, and resilience has captivated readers with its raw and emotional exploration of domestic abuse. Hoover expertly weaves a story of hope and healing, reminding us that even in the darkest of times, the human spirit can triumph.

Uncover the Best : Taylor Jenkins Reid's "The Seven Husbands of Evelyn Hugo" This captivating historical fiction novel unravels the life of Evelyn Hugo, a Hollywood icon who defies expectations and societal norms to pursue her dreams. Reid's compelling storytelling and compelling characters transport readers to a bygone era, immersing them in a world of glamour, ambition, and self-discovery.

Discover the Magic : Delia Owens' "Where the Crawdads Sing" This evocative coming-of-age story follows Kya Clark, a young woman who grows up alone in the marshes of North Carolina. Owens spins a tale of resilience, survival, and the transformative power of nature, captivating readers with its evocative prose and mesmerizing setting.

These top-selling novels represent just a fraction of the literary treasures that have emerged in 2023. Whether you seek tales of romance, adventure, or personal growth, the world of literature offers an abundance of compelling stories waiting to be discovered.

The novel begins with Richard Papen, a bright but troubled young man, arriving at Hampden College. Richard is immediately drawn to the group of students who call themselves the Classics Club. The club is led by Henry Winter, a brilliant and charismatic young man. Henry is obsessed with Greek mythology and philosophy, and he quickly draws Richard into his world. The other members of the Classics Club are equally as fascinating. Bunny Corcoran is a wealthy and spoiled young man who is always looking for a good time. Charles Tavis is a quiet and reserved young man who is deeply in love with Henry. Camilla Macaulay is a beautiful and intelligent young woman who is drawn to the power and danger of the Classics Club. The students are all deeply in love with Morrow, and they are willing to do anything to please him. Morrow is a complex and mysterious figure, and he seems to be manipulating the students for his own purposes. As the students become more involved with Morrow, they begin to commit increasingly dangerous acts.

The Secret History is an exceptional and suspenseful novel that will keep you wondering until the very end. The novel is a cautionary tale about the dangers of obsession and the power of evil.
