**John Loengard**

## **Pictures Under Discussion:**

*Pictures Under Discussion* John Loengard, 1987 American Photographer magazine hailed John Loengard as Life's most influential photographer. His graphically bold but subtly surprising studies of personalities have established his pre-eminence as a portraitist. In his first book *Pictures Under Discussion* previously unpublished landscapes and still lifes are combined with these powerful portraits to attest to the penetration of his eye and to give new dimension to his photographic achievement. **Pictures Under Discussion** John Loengard, 1987 Gathers portraits of writers, painters, sculptors, musicians, politicians, workers, and children and shares the photographer's comments on each picture. **Bio-pics** Ellen Cheshire, 2014-12-16 Bio pics A Life in Pictures offers a series of case studies which throw light on this most unique of genres. Is the bio pic a genre in its own right? Or are such films merely footnotes in other more traditional genres such as the western or costume drama depending on the historical figure under scrutiny? Unlike other genre forms, bio pics seemingly share no familiar iconography codes or conventions. They can be set anywhere and at any time. What links them is quite simply that the films depict the life of an important person. Through a carefully selected range of thematically linked English language bio pics released since 1990, this book explores key issues surrounding their resurgence: narrative structure, production, subject representation, or misrepresentation, and critical response. The films under discussion are grouped around a profession: writers, singers, politicians, sportsmen, criminals, artists, allowing for comparisons to be drawn in approaches to similar subject matter. *Life Photographers* John Loengard, 1998 A collection of interviews and 270 photographs traces the work, experiences, and careers of the original staff photographers of LIFE magazine, documenting how they pioneered the picture story and the photographic essay. 15,000 first printing.

**Reasoned and Unreasoned Images** Josh Ellenbogen, 2012 Examines three projects in late nineteenth-century scientific photography: the endeavors of Alphonse Bertillon, Francis Galton, and Etienne Jules Marey. Develops new theoretical perspectives on the history of photographic technology as well as the history of scientific imaging more generally. **As I See It** John Loengard, 2005-10-18 Loengard enlarges our understanding and deepens our appreciation of his photography with insightful commentaries on each of the pictures reproduced in the book. Who knew that the term silhouette was the name of Louis XV's budget-conscious finance minister? Just as each photograph is the product of Loengard's vision, these vivid texts give us a glimpse of the mind behind the photographer's eye.

BOOK JACKET **Material World** Peter Menzel, Charles C. Mann, 1994 A photo journey through the homes and lives of 30 families, revealing culture and economic levels around the world. **Picture Perfect Practice** Roberto Valenzuela, 2012 The author presents his advice and practice routines for composing and capturing photographs of people, illustrated with examples from his own practice sessions and from his extensive work photographing weddings around the world.

**The Untold Civil War** James I. Robertson, 2011 132 untold stories and 475 rare illustrations offer a completely new perspective on the Civil War. *There Is a Tribe of Kids* Lane Smith, 2016-05-03 Winner of the Kate Greenaway Medal. When a young boy

embarks on a journey alone he trails a colony of penguins undulates in a smack of jellyfish clasps hands with a constellation of stars naps for a night in a bed of clams and follows a trail of shells home to his tribe of friends If Lane Smith's *Caldecott Honor Book Grandpa Green* was an homage to aging and the end of life *There Is a Tribe of Kids* is a meditation on childhood and life's beginning Smith's vibrant sponge paint illustrations and use of unusual collective nouns such as smack and unkindness bring the book to life Whimsical expressive and perfectly paced this story plays with language as much as it embodies imagination and was awarded the 2017 Kate Greenaway Medal This title has Common Core connections

*Reading Picture Books with Children* Megan Dowd Lambert, 2015-11-03 A new interactive approach to storytime The Whole Book Approach was developed in conjunction with the Eric Carle Museum of Picture Book Art and expert author Megan Dowd Lambert's graduate work in children's literature at Simmons College offering a practical guide for reshaping storytime and getting kids to think with their eyes Traditional storytime often offers a passive experience for kids but the Whole Book approach asks the youngest of readers to ponder all aspects of a picture book and to use their critical thinking skills Using classic examples Megan asks kids to think about why the trim size of Ludwig Bemelman's *Madeline* is so generous or why the typeset in David Wiesner's Caldecott winner *The Three Pigs* appears to twist around the page or why books like Chris Van Allsburg's *The Polar Express* and Eric Carle's *The Very Hungry Caterpillar* are printed landscape instead of portrait The dynamic discussions that result from this shared reading style range from the profound to the hilarious and will inspire adults to make children's responses to text art and design an essential part of storytime **Georgia O'Keeffe at Ghost Ranch** John Loengard, 1998 Yet the pictures offer a clear connection between the austere poetry of the landscape and O'Keeffe's own self-created outer and inner worlds her artistic imagination being filtered by the bleached bones and infinite emptiness of the desert which as she said herself knows no kindness with all its beauty **How**

**Picturebooks Work** Maria Nikolajeva, Carole Scott, 2013-02-01 *How Picturebooks Work* is an innovative and engaging look at the interplay between text and image in picturebooks The authors explore picturebooks as a specific medium or genre in literature and culture one that prepares children for other media of communication and they argue that picturebooks may be the most influential media of all in the socialization and representation of children Spanning an international range of children's books this book examines such favorites as *Curious George* and *Frog and Toad Are Friends* along with the works of authors and illustrators including Maurice Sendak and Tove Jansson among others With 116 illustrations *How Picturebooks Work* offers the student of children's literature a new methodology new theories and a new set of critical tools for examining the picturebook form **The Revealing Image** Joy Schaverien, 2021-11-18 Schaverien painstakingly describes and defines processes which have so far only been intuitively known to art therapists p6 by introducing and elaborating the psychoanalytical concepts of transference and countertransference in relation to the use of visual art objects The authors stated intention in this book is to attempt to bridge the perceived gap between the practice of art therapy and analytical

forms of psychotherapy p 229 The epistemological base of this venture includes the fields of philosophy anthropology and aesthetics as well as psychoanalysis Schaverien suggests that analytical art psychotherapy is a way of working analytically with patients who are unsuitable or unready for psychotherapy giving examples of psychotic and borderline patients children and patients in psychiatric settings This is primarily a book about an analytical approach within art therapy which may be of interest in itself The material also raises issues of interest to analysts and psychotherapists whether or not they work with art in the clinical setting The book clarifies areas of similarity between the disciplines and also makes areas of difference apparent For example most analysts would agree that visual art like dream material and other non verbal representations of the inner world can at times articulate and communicate meanings which for one reason or another cannot be verbally articulated at the time and that this can be pertinent to the aim of analysis However I think few analysts would include facilities in their consulting rooms for the kind of art processes described in the book When the analyst is working with materials in this form the book will be extremely helpful in sorting out the complexity of the transference situation and the role of interpretation The book is so strongly grounded in experiences emerging in the presence of actual art processes and objects that I think it will be of most interest to those who are interested in the specific clinical issues involved in relating to the making and use of actual art objects within the setting Schaverien not only describes the processes involved in detail but also presents technical approaches to the making and handling of art objects within the setting which will inform the capacity of those who are not trained as art therapists to relate to this kind of material in the consulting room

Getting the Picture Jason E. Hill, Vanessa R. Schwartz, 2020-09-08 Powerful and often controversial news pictures promise to make the world at once immediate and knowable Yet while many great writers and thinkers have evaluated photographs of atrocity and crisis few have sought to set these images in a broader context by defining the rich and diverse history of news pictures in their many forms For the first time this volume defines what counts as a news picture how pictures are selected and distributed where they are seen and how we critique and value them Presenting the best new thinking on this fascinating topic this book considers the news picture over time from the dawn of the illustrated press in the nineteenth century through photojournalism's heyday and the rise of broadcast news and newsreels in the twentieth century and into today's digital platforms It examines the many kinds of images sport fashion society celebrity war catastrophe and exoticism and many mediums including photography painting wood engraving film and video Packed with the best research and full colour illustrations throughout this book will appeal to students and readers interested in how news and history are key sources of our rich visual culture

Conversations on Conflict Photography Lauren Walsh, 2019-10-03 In today's image saturated culture the visual documentation of suffering around the world is more prevalent than ever Yet instead of always deepening the knowledge or compassion of viewers conflict photography can result in fatigue or even inspire apathy Given this tension between the genre's ostensible goals and its effects what is the purpose behind taking and showing images of war and crisis

Conversations on Conflict Photography invites readers to think through these issues via conversations with award winning photographers as well as leading photo editors and key representatives of the major human rights and humanitarian organizations Framed by critical historical essays these dialogues explore the complexities and ethical dilemmas of this line of work The practitioners relate the struggles of their craft from brushes with death on the frontlines to the battles for space resources and attention in our media driven culture Despite these obstacles they remain true to a purpose one that is palpable as they celebrate remarkable success stories from changing the life of a single individual to raising broad awareness about human rights issues Opening with an insightful foreword by the renowned Sebastian Junger and richly illustrated with challenging painful and sometimes beautiful images Conversations offers a uniquely rounded examination of the value of conflict photography in today s world     Photographers on Photography Henry Carroll,2022-02-10 Through a carefully curated selection of quotations images and interviews Photographers on Photography reveals what matters most to the masters With enlightening text by Henry Carroll author of the internationally bestselling Read This If You Want To Take Great Photographs series you ll discover how the giants of the genres developed their distinctive visual styles the core ideas that underpin their practice and most importantly what photography means to you     Art Baltimore City Public Schools,1928     **Kokka** ,1911     **Overseas Information Programs of the United States** United States.
