Goya Robert Hughes, 2012-05-23 Robert Hughes who has stunned us with comprehensive works on subjects as sweeping and complex as the history of Australia The Fatal Shore the modern art movement The Shock of the New the nature of American art American Visions and the nature of America itself as seen through its art The Culture of Complaint now turns his renowned critical eye to one of art history's most compelling enigmatic and important figures Francisco Jos de Goya y Lucientes With characteristic critical fervor and sure eyed insight Hughes brings us the story of an artist whose life and work bridged the transition from the eighteenth century reign of the old masters to the early days of the nineteenth century moderns With his salient passion for the artist and the art Hughes brings Goya vividly to life through dazzling analysis of a vast breadth of his work Building upon the historical evidence that exists Hughes tracks Goya's development as man and artist without missing a beat from the early works commissioned by the Church through his long productive and tempestuous career at court to the darkly sinister and cryptic work he did at the end of his life In a work that is at once interpretive biography and cultural epic Hughes grounds Goya firmly in the context of his time taking us on a wild romp through Spanish history from the brutality and easy violence of street life to the fiery terrors of the Holy Inquisition to the grave realities of war Hughes shows us in vibrant detail the cultural forces that shaped Goya's work Underlying the exhaustive critical analysis and the rich historical background is Hughes's own intimately personal relationship to his subject This is a book informed not only by lifelong love and study but by his own recent experiences of mortality and death As such this is a uniquely moving and human book with the same relentless and fearless intelligence he has brought to every subject he has ever tackled Hughes here transcends biography to bring us a rich and fiercely brave book about art and life love and rage impotence and death This is one genius writing at full capacity about another and the result is truly spectacular **Appleby's Other Story**

A Picture Book of Hell and Other Landscapes Thomas McConnell,2005 A young girl delicately chastises her uncle returned from World War I You could have written about home I don t know Remembering About missing the things at home about missing Early in Thomas McConnell s story collection A Picture Book of Hell and Other Landscapes the work s overarching theme announces itself in such moments of minimalist dialogue a theme reworked replayed and reinterpreted through a group of loosely connected vignettes that come together convincingly within the context of the book that of longing of yearning of the not always reconcilable importance and impermanence of human connection Charleston Post CourierAll humans are in some sense exiled Hugh KennerImagine Chaucer s pilgrims without a Canterbury Across a landscape devoid of monumental shrines they would wander still having no more alternative than the planet swimming in its system just as they would continue to talk the stories of their lives Such pilgrims are the characters inhabiting A Picture Book of Hell In stories and situations that chime against one another like variations on musical themes the quiet wanderers in this collection seem all entrained on the pointless quest for the questless point as one narrator concludes Two old friends repeatedly fail to rendezvous save in the last connection of a suicide note A reluctant bank teller abandons his life and his rented house to take the place of a dead vagabond The volume s title novella discloses a veteran of the First World War struggling to reconcile the two worlds he s come to know too well neither of which seems to fit his frame From Ireland to the New South whether exiled from home or

homeland from others or their own retreating selves these characters rustle through their days rather like the series of small and vulnerable creatures that scurry and flee through the landscapes of these allusive and elliptical stories
