Adventures of a
Westerner in Japan

John David Morley

"Fascinating...
Travel literature
at its best.
Morley is one
of those rare
travelers who
manages truly
to enter the
heart of a
foreign country.
Rarer still is
his ability to
take the rest
of us along
with him."

Gabriel, 2016-10-04 This anthology on otherness and the media first published in 1993 was prompted by the proliferation of writings centring on issues of difference diversity multiculturalism representation and postcolonial discourses Such issues and discourses question existing canons of criticism theory and cultural practice but also because they suggest a new sense of direction in theorisation of difference and representation

Asia/Pacific as Space of Cultural Production Rob Wilson, Arif Dirlik, 1995 Although the Asia Pacific region occupies a prominent place in geopolitical thinking little is available to readers concerning the resistant communities and cultures of Pacific and Asian peoples This book fills that gap by documenting the efforts of diverse indigenous cultures to claim and reimagine Asia Pacific as a space for their own cultural production by presenting essays poems and memoirs by prominent Asia Pacific writers that resist appropriation by transnational capitalism through the articulation of autonomous local identities and counter histories of place and community In addition cultural critics spanning several locations and disciplines deconstruct representations particularly those on film and in novels that perpetuate Asia Pacific as a realm of EuroAmerican fantasy This collection offers a new perception of the Asia Pacific region by presenting the Pacific not as a paradise or vast emptiness but as a place where living struggling peoples have constructed contemporary identities out of a long history of hegemony and resistance back cover

to postindustrial development and erasing their past presence The author explores Yokohama's memoryscapes in the aftermath of displacement through embodied knowledge engaging her senses and ethics as a colonizer researcher as she navigates the elusive past through traces that remain in the present She examines the city's built environment official historical narratives films and photographic works With few brothels and workers remaining Yoshimizu fills the gap with her own interactions encounters and imaginings Yoshimizu also writes through the imagery of water in ways that are informed by the local usage and imaginations the ocean flowing rivers swamps humidity alcohol the fluidity of relationships and transient lives The water also offers a way to sense the ghost or the displaced lives and the effects of displacement that like humid air stick to those who occupy or inhabit the site of displacement today This interdisciplinary work makes a valuable contribution to sensory studies memory studies migration studies and Asian studies

Nightwork Anne Allison, 2009-02-25 In *Nightwork* Anne Allison opens a window onto Japanese corporate culture and gender identities Allison performed the ritualized tasks of a hostess in one of Tokyo's many hostess clubs pouring drinks lighting cigarettes and making flattering or titillating conversation with the businessmen who came there on company expense accounts Her book critically examines how such establishments create bonds among white collar men and forge a masculine identity that suits the needs of their corporations Allison describes in detail a typical company outing to such a club what the men do how they interact with the hostesses the role the hostess is expected to play and the extent to which all of this involves play rather than work Unlike previous books on Japanese nightlife Allison's ethnography of one specific hostess club here referred to as Bijo views the general phenomenon from the eyes of a woman hostess and feminist anthropologist Observing that clubs like Bijo further a kind of masculinity dependent on the gestures and labors of women Allison seeks to uncover connections between such behavior and other social economic sexual and gendered relations She argues that Japanese corporate nightlife enables and institutionalizes a particular form of ritualized male dominance in paying for this entertainment Japanese corporations not only give their male workers a self image as phallic man but also develop relationships to work that are unconditional and unbreakable This is a book that will appeal to anyone interested in gender roles or in contemporary Japanese society

Pictures from the Water Trade John David Morley, 1986 **Area Bibliography of Japan** Ria Koopmans-de Bruijn, 1998 Provides a general overview of literature relating to Japan and covers a broad range of subject matter from art feminism and linguistics to corporate culture history and medicine Includes books published since 1980 that are related to the geographical area of Japan and to Japanese culture within that area **Masking Selves, Making Subjects** Associate Professor of English and Associate Professor of English Taise Yamamoto, 1999-01-06 This sophisticated and comprehensive study is the first to situate Japanese American women's writing within theoretical contexts that provide a means of articulating the complex relationships between language and the body gender and agency nationalism and identity Through an examination of post World War II autobiographical writings fiction and poetry Taise Yamamoto argues that these writers have employed the trope of masking textually and psychologically as a strategy to create an alternative discursive practice and to protect the self as subject Yamamoto's range is broad and her interdisciplinary approach yields richly textured in depth readings of a number of genres including film and travel narrative Looking at how the West has sexualized infantilized and feminized Japanese culture for over a century she examines contemporary Japanese American women's struggle with this orientalist fantasy Analyzing the various constraints and possibilities that these writers negotiate in order to articulate their differences she shows how masking serves as a self affirming discourse that dynamically interacts with mainstream culture's racial and sexual projections *The Ophelia Paradox* Mortimer R. Kadish, 2018-04-17 In Shakespeare's Hamlet when Ophelia tells King Claudius Lord we know what we are but know not what we may be she implies more than that we can never know what will happen next that we have no grounds on which to make significant decisions in the conduct of our lives She herself had done little or nothing to bring about her present state Now she is quite mad Claudius too could never have guessed where he would end Yet the rest of us although not significantly more knowing than they profess to think we can actually make decisions which genuinely good reasons will support Experience seems to have convinced us that deficient in self knowledge though we may be sometimes the arrow of decision reaches its mark Kadish examines how decisions in the conduct of our lives are possible how they may be justified and what the limits of that justification might be for a self that defines itself in a context of social change Although the need for self justification tends to be regarded as a weakness this book suggests that it may also be regarded as the inevitable outcome of the desire to make justifiable decisions those for which on reflection one can approve oneself The prime problem of the conduct of life according to Kadish is to say when one can and when one cannot justify oneself for one's conduct not to others but to oneself He proposes that through self judgment individuals develop that very self interest in virtue of which they endeavor to choose one course of action rather than another He proposes also that they justify and form themselves through their self identification as members of communities in conflict and in process of transformation From this difficult social and human condition the basic problems of

ethical and social theory together with the possibility of a theory of good reasons are held to arise In the present time of discontent and emphasis on change hi social economic and political life The Ophelia Paradox has a particular pertinence to the prospects for resolving the basic issues of conduct It should be of interest to philosophers sociologists and psychologists and of special relevance to anyone concerned with the interrelationships of ethics art and law *Pictures from the Water Trade* John David Morley,1995 The author describes his experiences as a student in Japan and offers an inside look at the nightclubs and geisha bars of Tokyo *Time Frames* Scott Nygren,2007 *Books on Japan in Western Languages Recently Acquired by the National Diet Library* Kokuritsu Kokkai Toshokan,1990 *Crossing Cultures* Henry W. Knepler,1994 Too often it is difficult to find an anthology that offers high interest readings that stress cultural differences Readers will have to look no more with the fifth edition of this highly successful book of readings Crossing Cultures introduces readers to a wide variety of cultures in the United States Because we need to look at other cultures to define our own one complete section emphasizes cultures elsewhere Each selection has been chosen because it is a good read with an engaging subject and style Each chapter begins with a short personal reading moves to more difficult pieces and ends with a poem Ideal for those seeking a multicultural anthology for their libraries **The Oxford Handbook of World Philosophy** Jay L. Garfield,William Edelglass,2011-06-09 This volume provides the advanced student or scholar a set of introductions to each of the world s major non European philosophical traditions Sections on Chinese philosophy Indian philosophy Buddhist philosophy East Asian philosophy African philosophy and trends in global philosophy are all edited by an expert **Creating Race** LeiLani Linda Nishime,1997
