Gardening as a Sacred Art Jeremy

Naydler,2021-04-28 This beautifully illustrated book presents a history of our relationship with nature beginning with the civilisations of ancient Egypt and Mesopotamia when gardens served as the dwelling place of the gods Tracing this history through subsequent epochs the author shows how human awareness of the divine presence in nature was gradually eclipsed As nature came to be viewed primarily as a physical resource to be controlled and exploited by us this was reflected in the ordered rational designs imposed on such gardens as Versailles More recently gardening has come to be seen less as an instrument of control than as an art in its own right enhancing nature s inherent beauty Jeremy Naydler suggests that the future of gardening lies not simply in its being regarded as an art but as a sacred art which once again honours and works with the spiritual dimension intrinsic to nature This thoughtful book challenges the gardener in us to work as an artist and

experience the sacred presence around us by becoming creatively engaged with the hidden formative forces of Nature

Network Review The main thrust of this profound and inspiring volume is to remind us that gardens are essentially sacred spaces in which we may work together with Nature in order that we may help her and ourselves in the process express more fully the divine presence hidden within the heart of her outward beauty

Resurgence An exceptionally well referenced delightfully illustrated and informative work

New View In his beautifully illustrated book Naydler re sounds the call of the garden as a necessary counterbalance and corrective It s a welcome message towards re sanctifying our world

Nexus Magazine Gardeners will love this book Occasionally you look down the garden you have worked all day and you have that peace that sense of the numinous that cannot be understood except by somehow knowing that it is vital Our author has been so kind as to declare it for us gardening is a sacred art

The Garden and the Fire Nerina Rustomji, 2013-10-01 Islamic conceptions of heaven and hell began in the seventh century as an early doctrinal innovation but by the twelfth century these notions had evolved into a highly formalized ideal of perfection In tracking this transformation Nerina Rustomji reveals the distinct material culture and aesthetic vocabulary Muslims developed to understand heaven and hell and identifies the communities and strategies of defense that took shape around the promise of a future world Ideas of the afterworld profoundly influenced daily behaviors in Islamic society and gave rise to a code of ethics that encouraged abstinence from sumptuous objects such as silver vessels and silk so they could be appreciated later in heaven Rustomji conducts a

meticulous study of texts and images and carefully connects the landscape and social dynamics of the afterworld with earthly models and expectations Male servants and female companions become otherworldly objects in the afterlife and stories of rewards and punishment helped preachers promote religious reform By employing material culture as a method of historical inquiry Rustomji points to the reflections discussions and constructions that actively influenced Muslims picture of the afterworld culminating in a distinct religious aesthetic
