McIntyre,2016-10-05 Written in a clear accessible and lively style *Souvenirs of the Old South* will be the foundational work for subsequent scholars and readers interested in tourism in the New South W Fitzhugh Brundage author of *The Southern Past A Clash of Race and Memory* This study of southern images offers readers a glimpse of how history culture race and class came together in the tourist imagination If the South emerged from the Civil War a distinctive place Rebecca McIntyre would remind us that s because distinctiveness sells Richard Starnes author of *Creating the Land of the Sky Tourism and Society in Western North Carolina* Less than a decade after the conclusion of the Civil War northern promoters began pushing images of a mythic South to boost tourism By creating a hierarchical relationship based on region and race in which northerners were always superior promoters saw tourist dollars begin flowing southward but this cultural construction was damaging to southerners particularly African Americans Rebecca McIntyre focuses on the years between 1870 and 1920 a period framed by the war and the growth of automobile tourism These years were critical in the creation of the South s modern identity and she reveals that tourism images created by northerners for northerners had as much effect on making the South southern as did the most ardent proponents of the Lost Cause She also demonstrates how northern tourism contributed to the worsening of race relations in the late nineteenth and early twentieth centuries      *Treasure island. **Hand** Edward Everett Hale,1888 **Truth** ,1888 Narrating the Landscape Matthew N. Johnston,2016-04-14 The American nineteenth century saw a largely rural nation confined to the Eastern Seaboard conquer a continent and spawn increasingly dense commercial metropolises This time of unprecedented territorial and economic growth has long been thought to find its most sweeping visual equivalent in the period's landscape paintings But as Matthew N Johnston shows the age's defining features were just as clearly captured in and motivated by visual material mass produced through innovations in printing technology Illustrated railroad and steamboat guidebooks tourist literature reports of geological surveys ethnographic studies all of these new print vehicles brought new meanings to the interplay of time space and place as American continental expansion peaked Instrumental to that project of national and industrial growth these commercial and scientific publications introduced readers travelers and citizens to a changing North American landscape made more accessible by new travel routes blazed between 1825 and 1875 More fundamentally as Johnston shows in his nuanced analysis by simulating new temporal frameworks through their presentation of landscape these print materials established new models of consumption and new kinds of knowledge critical to expansion Johnston relates these sources to traditional art historical subjects the landscapes of the Hudson River school luminist paintings by John Kensett and William Trost Richards Native portraits painted by George Catlin and photographs by Timothy O Sullivan to show how key discourses associated with expansion shifted away from picturesque strategies pairing imagery and narrative toward entirely new forms that gave temporal structure to viewers experience of an emerging modernity Revealing the crucial role of print and visual culture in shaping the nineteenth century United States Narrating the Landscape offers fresh insight into the landscapes Americans beheld and imagined in this formative era Athenaeum and Literary Chronicle ,1890 **Official Bulletin of the Novelties Exhibition** ,1885 *The Athenaeum* ,1894
