Library of Congress,1953 **The Mushroom at the End of the World** Anna Lowenhaupt Tsing,2021-06-08 A tale of diversity within our damaged landscapes The Mushroom at the End of the World follows one of the strangest commodity chains of our times to explore the unexpected corners of capitalism Here we witness the varied and peculiar worlds of matsutake commerce the worlds of Japanese gourmets capitalist traders Hmong jungle fighters industrial forests Yi Chinese goat herders Finnish nature guides and more These companions also lead us into fungal ecologies and forest histories to better understand the promise of cohabitation in a time of massive human destruction Publisher s description **National Union Catalog** ,1961 Includes entries for maps and atlases *The Death of Authentic Primitive Art* Shelly Errington,2023-09-01 In this lucid witty and forceful book Shelly Errington argues that Primitive Art was invented as a new type of art object at the beginning of the twentieth century but that now at the century s end it has died a double but contradictory death Authenticity and primitivism both attacked by cultural critics have died as concepts At the same time the penetration of nation states the tourist industry and transnational corporations into regions that formerly produced these artifacts has severely reduced supplies of primitive art bringing about a second death Errington argues that the construction of the primitive in the nineteenth and twentieth centuries and the kinds of objects chosen to exemplify it must be understood as a product of discourses of progress from the nineteenth century European narrative of technological progress to the twentieth century narrative of modernism to the late twentieth century narrative of the triumph of the free market In Part One she charts a provocative argument ranging through the worlds of museums art theorists mail order catalogs boutiques tourism and world events tracing a loosely historical account of the transformations of meanings of primitive art in this century In Part Two she explores an eclectic collection of public sites in Mexico and Indonesia a national museum of anthropology a cultural theme park an airport and a ninth century Buddhist monument newly refurbished to show how the idea of the primitive can be used in the interests of promoting nationalism and economic development Errington s dissection of discourses about progress and primitivism in the contemporary world is both a lively introduction to anthropological studies of art institutions and a dramatic new contribution to the growing field of cultural studies **The Silence of Animals** John Gray,2013-06-04 A searching captivating look at the persistence of myth in our modern world By nature volatile and discordant the human animal looks to silence for relief from being itself while other creatures enjoy silence as their birthright In a book by turns chilling and beautiful John Gray continues the thinking that made his *Straw Dogs* such a cult classic Gray draws on an extraordinary array of memoirs poems fiction and philosophy to re imagine our place in the world Writers as varied as Ballard Borges Conrad and Freud have been mesmerized by forms of human extremity experiences that are on the outer edge of the possible or that tip into fantasy and myth What happens to us when we starve when we fight when we are imprisoned And how do our imaginations leap into worlds way beyond our real experiences The Silence of Animals is consistently fascinating filled with unforgettable images and a delight in the conundrum of human

existence an existence that we decorate with countless myths and ideas where we twist and turn to avoid acknowledging that we too are animals separated from the others perhaps only by our self conceit In the Babel we have created for ourselves it is the silence of animals that both reproaches and bewitches us *Dictionary Catalog of the University Library, 1919-1962*
