Picturing Description And Illusion In The Nineteenth Century Novel:

Picturing Michael Irwin, 2016-07-28 First published in 1979 Most of the great nineteenth century novelists strove to render in words the people and places that they invented and most readers of fiction picture in their imagination these characters and scenes This book investigates both types of picturing exploring the principles and problems concerned and sheds light on the workings of fiction reassessing a number of famous novels in the process By so doing this work relates the academic study of the novel to the writing and reading of fiction and the teaching of creative writing This book will appeal to students of literature

The Nineteenth-Century English Novel J. Kilroy, 2007-04-02 Through analysis of eight English novels of the Nineteenth century this work explores the ways in which the novel contributes to the formation of ideology regarding the family and conversely the ways in which changing attitudes toward the family shape and reshape the novel

The Visual Arts, Pictorialism, and the Novel Marianna Torgovnick, 2014-07-14 Marianna Torgovnick maintains that it is worthwhile to think about novels in terms of the visual arts in part because major novelists like James Lawrence and Woolf did so and did so fruitfully as they were influenced by their perceptions of artistic movements Originally published in 1985 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905

Anti-Portraits: Poetics of the Face in Modern English, Polish and Russian Literature (1835-1965) Kamila Pawlikowska, 2015-10-05 Anti Portraits Poetics of the Face in Modern English Polish and Russian Literature 1835 1965 is a study of a physiognomic descriptions of the face It demonstrates that writers such as George Eliot Leo Tolstoy Edgar Allan Poe Nicolay Gogol Virginia Woolf and Witold Gombrowicz vigorously resisted the belief that facial features reflect character While other studies tend to focus on descriptions which affirm physiognomy this book examines portraits which question popular face reading systems and contravene their common premise the surface depth principle Such portraits reveal that physiognomic formula is a cultural construct invented to abridge organise and regulate legibility of the human face Most importantly strange and unreadable fictional faces frequently expose the connection between physiognomic judgement and stereotyping prejudice and racism

The Lady of Shalott in the Victorian Novel Jennifer Gribble, 1983-12-01 **The Victorian Parlour** Thad Logan, 2001-07-05 The parlour was the centre of the Victorian home and as Thad Logan shows the place where contemporary conflicts about domesticity and gender relations were frequently played out In *The Victorian Parlour A Cultural Study* Logan uses an interdisciplinary approach that combines the perspectives of art history social history and literary theory to describe and analyse the parlour as a cultural artefact She offers a detailed investigation of specific objects in the parlour and argues that these things articulated social meaning and

could present symbolic resolutions to disturbances in the social field The book concludes with a discussion of how representations of the parlour in literature and art reveal the pleasures and anxieties associated with Victorian domestic life

The Supporting Cast David Galef, 2010-11 For every Hamlet there is a supporting cast for every Mrs Dalloway an entire realm of subordinate portraits Yet if literary criticism cares at all about significant detail emergent patterns and the subtleties in narrative flat and minor characters are crucial to an understanding of the fictional process itself Beginning with E M Forster's landmark study of flat and round characters this book is both a critical and writerly examination of the species Why are certain minor characters so salient in readers' minds and why are flat characters often so comic Is a name enough to create a character and if so what is the vanishing point of characterization The walking allegory the narrator the disrupter the doppelgänger how are they used and to what effect *The Supporting Cast* first explores the theoretical limits of character from structuralist taxonomies to reader response concerns with examples culled from a wide range of literature The author then applies these concepts in chapters of sustained analysis to works of Conrad Forster and Woolf The work also provides comments on flat and minor characters in other media and a full scale character index of Woolf's *Jacob's Room* **Thomas Hardy**

Harold Bloom, 2010 A complex critical portrait of one of the most influential writers in the world Bibliographic information that directs readers to additional resources for further study A useful chronology of the writer's life An introductory essay by Harold Bloom *All is True* Lilian R. Furst, 1995 All is true realist writers would say of their work to which critics now respond All is art and artifice Offering a new approach to reading nineteenth century realist fiction Lilian R Furst seeks to reconcile these contradictory claims In doing so she clarifies the deceptions appropriations intentions and ultimately the power of literary realism In close textual analyses of works ranging across European and American literature including paradigmatic texts by Balzac Flaubert George Eliot Zola Henry James and Thomas Mann Furst shows how the handling of time the presentation of place and certain narrational strategies have served the realists' claim She demonstrates how readers today like those a hundred years ago are convinced of the authenticity of the created illusion by such means as framing voice perspective and the slippage from metonymy to metaphor Further Furst reveals the pains the realists took to conceal these devices and thus to protect their claim to be employing a simple form Taking into account both the claims and the covert strategies of these writers *All Is True* puts forward an alternative to the conventional polarized reading of the realist text which emerges here as neither strictly an imitation of an extraneous model nor simply a web of words but a brilliantly complex imbrication of the two A major statement on one of the most enduring forms in cultural history this book promises to alter not only our view of realist fiction but our understanding of how we read it **English Novel in History, 1895-1920**

David Trotter, 2003-10 Written especially for students and assuming no prior knowledge of the subject this book aims to provide a comprehensive introduction to early 20th century fiction **English Novel Hist 1895-1920** David

Trotter, 2022-02-22 First Published in 1993 Written specifically for students and assuming no prior knowledge of the subject

David Trotter's *The English Novel in History 1895-1920* provides the first detailed and fully comprehensive analysis of early twentieth century English fiction. Whereas all previous studies have been rigorously selective, Trotter looks at over 140 novelists across the whole spectrum of fiction, from the innovations of Joyce's *Ulysses* through to popular mass market genres such as detective stories and spy thrillers. By examining the novels in both stylistic and historical terms, David Trotter looks at the ways in which writers responded to contemporary preoccupations such as the spectacle of consumption and the growth of suburbia, or to anxieties about the decline of Empire, racial degeneration and sexual anarchy. He also challenges the view that literature of the period can be interpreted as a neat procession from realism to Modernism. *Wuthering Heights* - Ed. Heywood Emily Brontë, 2001-12-14 Critics often comment on the importance of landscape in *Wuthering Heights* and in this edition Christopher Heywood locates the text more precisely than previous editions, amid Yorkshire's limestone north and moorland south, drawing out the importance of the region's slaveholding society. Heywood also makes an important contribution to scholarship, arguing persuasively for a restructuring of the chapter and section breaks. Finally, this edition includes a variety of appendices that help to illuminate the novel's historical background. **The Rhetoric of Fiction** Wayne C. Booth, 2010-05-15 The first edition of *The Rhetoric of Fiction* transformed the criticism of fiction and soon became a classic in the field. One of the most widely used texts in fiction courses, it is a standard reference point in advanced discussions of how fictional form works, how authors make novels accessible, and how readers recreate texts and its concepts and terms such as the implied author, the postulated reader, and the unreliable narrator have become part of the standard critical lexicon. For this new edition, Wayne C. Booth has written an extensive Afterword in which he clarifies misunderstandings, corrects what he now views as errors, and sets forth his own recent thinking about the rhetoric of fiction. The other new feature is a Supplementary Bibliography prepared by James Phelan in consultation with the author, which lists the important critical works of the past twenty years, two decades that Booth describes as the richest in the history of the subject. **Thomas Hardy** P. Mallett, 2002-10-23 In *Thomas Hardy: Texts and Contexts*, distinguished critics from Canada, Japan, the USA, and the UK offer fresh and challenging readings of Hardy's works. They also raise far wider and far reaching questions about Hardy's attitude to his art, his relation to such contemporary forms as melodrama, and his response to the ongoing scientific debates from Darwin to Einstein about sexuality, personal identity, the meaning of suicide, and the nature of time. Unsettled Accounts Simon J. James, 2003-12-17 Simon J. James examines how Gissing's work reveals an unhappy accommodation with money's underwriting of human existence and culture, and how daily life in all its forms, moral, intellectual, familial, and erotic, is transcended or made irrelevant by its commodification. Visualizing the Text Lauren Beck, Christina Ionescu, 2017-06-01 This volume presents in depth and contextualized analyses of a wealth of visual materials. These documents provide viewers with a mesmerizing and informative glimpse into how the early modern world was interpreted by image makers and presented to viewers during a period that spans from manuscript culture to the age of

caricature The premise of this collection responds to a fundamental question how are early modern texts objects and systems of knowledge imaged and consumed through bimodal hybrid or intermedial products that rely on both words and pictures to convey meaning The twelve contributors to this collection go beyond traditional lines of inquiry into word and image interaction to deconstruct visual dynamics and politics to show how images were shaped manipulated displayed and distributed to represent the material world to propagate official and commercial messages to support religious practice and ideology or to embody relations of power These chapters are anchored in various theoretical and disciplinary points of departure such as the history of collections and collecting literary theory and criticism the histories of science art history and visual culture word and image studies as well as print culture and book illustration Authors draw upon a wide range of visual material hitherto insufficiently explored and placed in context in some cases hidden in museums and archives or previously assessed only from a disciplinary standpoint that favored either the image or the text but not both in relation to each other They include manuscript illuminations representing compilers and collections frontispieces and other accompanying plates published in catalogues and museographies astronomical diagrams mixed pictographic alphabetic accounting documents Spanish baroque paintings illustrative frontispieces or series inspired by or designed for single novels or anthologies anatomical drawings featured in encyclopedic publications visual patterns of volcanic formations engravings representing the New World that accompany non fictional travelogues commonplace books that interlace text and images and graphic satire Geographically the collection covers imperial centers Great Britain France the Netherlands and Spain as well as their colonial periphery New France Mexico Central America South America in particular Brazil parts of Africa and the island of Ceylon Emblematic and thought provoking these images are only fragments of the multifaceted and comprehensive visual mosaic created during the early modern period but their consideration has far reaching implications

Victorian Literature and the Victorian Visual Imagination Carol T. Christ, John O. Jordan, 2024-03-29 Nineteenth century British culture frequently represented the eye as the preeminent organ of truth These essays explore the relationship between the verbal and the visual in the Victorian imagination They range broadly over topics that include the relationship of optical devices to the visual imagination the role of photography in changing the conception of evidence and truth the changing partnership between illustrator and novelist and the ways in which literary texts represent the visual Together they begin to construct a history of seeing in the Victorian period This title is part of UC Press s Voices Revived program which commemorates University of California Press s mission to seek out and cultivate the brightest minds and give them voice reach and impact Drawing on a backlist dating to 1893 Voices Revived makes high quality peer reviewed scholarship accessible once again using print on demand technology This title was originally published in 1995

Recollecting John Fowles / Wiedererinnerungen an John Fowles Guido Isekenmeier, Gerd Bayer, 2018 More than a decade after his death in 2005 this collection of essays celebrates the memory of John Fowles one of the champions of early postmodernist literature in England As the first

publication of the German John Fowles Society founded in 2015 the book brings together a collector a translator and a handful of scholars who pay tribute to one of the most important voices in English fiction after World War II Their contributions which address *The Magus* *The French Lieutenant's Woman* *The Ebony Tower* *Daniel Martin* and the unpublished *Tesserae* bear testimony to Fowles's lasting fascination Mehr als ein Jahrzehnt nach seinem Tod im Jahr 2005 erfährt die Erinnerung an John Fowles einen der wenigen frühen englischen Vertreter einer postmodernistischen Poetik durch diese Aufsatzsammlung neue Impulse Die Beiträge in diesem Band der ersten Veröffentlichung der 2015 gegründeten Deutschen John Fowles Gesellschaft behandeln einige seiner wichtigsten Texte *Der Magus* *Die Geliebte des französischen Leutnants* *Der Ebenholzturm* *Daniel Martin* sowie die unveröffentlichten Mosaiksteine aus der Perspektive eines Sammlers eines Übersetzers und einer Handvoll Literaturwissenschaftler und zollen der andauernden Faszination seiner Texte Tribut

Literary Visualities Ronja Bodola, Guido Isekenmeier, 2017-06-26 This book challenges the focus on pictoriality as central constituent of visual culture from the perspective of literary studies which in the wake of an intermedial turn so far focused on the ways texts relate to pictures and visual media either in praesentia e.g. word and image studies or in absentia e.g. ekphrasis Instead it emphasizes literature's participation in visual culture at large and focuses on three areas of investigation 1 the depiction of for instance visual perceptions in the literary mode of description which is paramount to formatting the mental aspect of visual culture 2 the readerly practice of visualising situations and events of the fictional world which mediates between those mentefacts and techniques of writing 3 textual visibilities which are grounded in materiality The volume explores these three areas from a systematically integrated perspective and the essays include in depth treatments of seminal examples taken from Western literatures primarily English and German but also French and American literature from early modern times to the present This book's aim is to work out literature's active role in shaping visual culture thus demonstrating its relevance for image studies *Physiognomy in the European Novel* Graeme Tytler, 2014-07-14 After discussing Lavater's place in eighteenth century German letters and his importance in the history of Western physiognomy Dr Tytler examines the literary portrait in the modern novel and suggests that the development of techniques of character description and the growth of observational powers of narrators and characters alike as manifest in fiction from the 1790s onward may be more fully appreciated when considered in the light of the physiognomical background previously delineated Originally published in 1982 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905
