Picturing Cultural Values In Postmodern America:

Picturing Cultural Values in Postmodern America William G. Doty, 1995 Looking to poetry novels myths painting and cinematic images this interdisciplinary collection of essays examines cultural significance and value in America's postmodern society Exploring the Next Frontier Matthew Wilhelm Kapell, 2016-02-19 The 1960s and early 70s saw the evolution of Frontier Myths even as scholars were renouncing the interpretive value of myths themselves Works like Joe Haldeman's *The Forever War* exemplified that rejection using his experiences during the Vietnam War to illustrate the problematic consequences of simple mythic idealism Simultaneously Americans were playing with expanded and revised versions of familiar Frontier Myths though in a contemporary context through NASA's lunar missions *Star Trek* and Gerard K O'Neill's *High Frontier* This book examines the reasons behind the exclusion of Frontier Myths to the periphery of scholarly discourse and endeavors to build a new model for understanding their enduring significance This model connects NASA's failed attempts to recycle earlier myths wholesale to *Star Trek*'s revision of those myths and rejection of the idea of a frontier paradise to O'Neill's desire to realize such a paradise in Earth's orbit This new synthesis defies the negative connotations of Frontier Myths during the 1960s and 70s and attempts to resuscitate them for relevance in the modern academic context

Jung's Reception of Picasso and Abstract Art Lucinda Hill, 2022-03-31 This book explores the nature of Jung's understanding of modern art in particular his reception to the work of Picasso and his striking prejudice shown in his controversial essay of 1932 Offering an important contribution towards understanding Jung's attitudes towards Picasso and modern art the book addresses the impact that Jung's unwillingness to engage in a deeper exploration of modern artforms had on the development of his psychological ideas It explores and uncovers the reasons for Jung's derogatory view of Picasso and abstract art more generally revealing how Jung was unable to remain objective due to his own complex and equally fascinating relationship with art and the psychology of image making The book argues that modern art parallels Jung's interests by embracing the spirit of experimentation and using new imagery to challenge creative conceptions which makes Jung's attitudes towards modern art all the more surprising Jung's Reception of Picasso and Abstract Art will be of great interest to researchers academics and those interested in analytical psychology Jungian studies art history and modernism aesthetics and psychoanalysis

Media and Middle Class Moms Lara J. Descartes, Conrad Kottak, 2010-04-02 Written by nationally recognized anthropologists Conrad Kottak and Lara Descartes this ethnography of largely white middle class families in a town in the midwest explores the role that the media play in influencing how those families cope with everyday work family issues The book insightfully reports that families struggle with and make work family decisions based largely on the images and ideas they receive from media sources though they strongly deny being so influenced An ideal book for teaching undergraduate family media and methods courses

Postmodernism, Twenty-First Century Culture, and American Fiction Matt Graham, 2024-07-19 Postmodernism's end is a complex and contentious topic Yet one overarching consensus emerges the postmodern has been surpassed This book poses a thought experiment challenging this position what if postmodernism persists within the twenty first century Rather than designate a new epoch or coherent movement this book interrogates the fragmented contradictory and counterintuitive endurance of postmodern aesthetics within post Cold War America An alternative use of postmodern aesthetics becomes possible when they are decoupled from their twentieth century historical location Collectively these repetitions posit a postmodern continuum contrasting the widely called for succession of postmodernism via this decoupling When postmodern aesthetics are no longer unconsciously repeated within their cultural

moment this emergent shift within a period after postmodernism presents an alternative historical positioning and use After their cultural vanguard postmodern aesthetics become a confrontation of the chaotic realism of an inescapable post Cold War capitalism tapping into this cultural zeitgeist through literature
