The Victorian Painting of Modern Life Pamela Fletcher,2024-12-30 This text offers a comprehensive and tightly focused account of the emergence and flourishing of British modern life paintings at midcentury Contemporary subjects were new and risky in the late 1840s and early 1850s immensely popular and much debated by 1858 and already falling out of fashion by the mid 1860s The book follows this story chronologically moving from the anxious attempts by young artists such as William Powell Frith and William Holman Hunt to capture modern life in a visual language that conveyed both the literal and emotional truths of contemporary

science informed art at a crucial moment in the history of the development of the modern world Together they explore topics in geology meteorology medicine anatomy evolution and zoology as well as a range of media from photography to oil painting They remind us that science and art are not tightly compartmentalized separate influences Rather these are fields that share forms manifest as waves layers lines or geometries that invest in the idea of the evolution of form and that generate surprisingly kindred responses such as pain pleasure empathy and sympathy

"The Art-Journal and Fine Art Publishing in Victorian England, 1850-1880" Katherine Haskins, 2017-07-05 Focusing on an era that both inherited and irretrievably altered the form and the content of earlier art production The Art Journal and Fine Art Publishing in Victorian England 1850 1880 argues that fine art practices and the audiences and markets for them were influenced by the media culture of art publishing and journalism in substantial and formative ways perhaps more than at any other time in the history of English art The study centers on forms of Victorian picture making and the art knowledge systems defining them and draws on the histories of art literature journalism and publishing The historical example employed in the book is that of the more than 800 steel plate prints after paintings published in the London based Art Journal between 1850 and 1880 The cultural phenomenon of the Art Journal print is shown to be a key connector in mid Victorian art appreciation by drawing out specific tropes of likeness This study also examines the important links between paint and print the aesthetic values and domestic aspirations of the Victorian middle class and the inextricable intertwining of fine art and trade publishing

Victorian Culture and Classical Antiquity Simon Goldhill, 2011-07-18 How did the Victorians engage with the ancient world Victorian Culture and Classical Antiquity is a brilliant exploration of how the ancient worlds of Greece and Rome influenced Victorian culture Through Victorian art opera and novels Simon Goldhill examines how sexuality and desire the

politics of culture and the role of religion in society were considered and debated through the Victorian obsession with antiquity Looking at Victorian art Goldhill demonstrates how desire and sexuality particularly anxieties about male desire were represented and communicated through classical imagery Probing into operas of the period Goldhill addresses ideas of citizenship nationalism and cultural politics And through fiction specifically nineteenth century novels about the Roman Empire he discusses religion and the fierce battles over the church as Christianity began to lose dominance over the progressive stance of Victorian science and investigation Rediscovering some great forgotten works and reframing some more familiar ones the book offers extraordinary insights into how the Victorian sense of antiquity and our sense of the Victorians came into being With a wide range of examples and stories Victorian Culture and Classical Antiquity demonstrates how interest in the classical past shaped nineteenth century self expression giving antiquity a unique place in Victorian culture
