*Postcolonial Nostalgias* Dennis Walder, 2010-11-17 This book offers an original and informed critique of a widespread yet often misunderstood condition nostalgia a pervasive human emotion connecting people across national and historical as well as personal boundaries Often seen as merely escapist nostalgia also offers solace and self understanding for those displaced by the larger movements of our time Walder analyses the writings of some of those entangled in the aftermath of empire tracing the hidden connections underlying their yearnings for a common identity and a homeland and their struggles to recover their histories Through a series of comparative reflections upon the representation in literary and related cultural forms of memory he shows how admitting the past into the present through nostalgia enables former colonial or diasporic subjects to gain a deeper understanding of the networks of power within which they are caught in the modern world and beyond which it may yet be possible to move Considering authors as varied as V S Naipaul J G Ballard Doris Lessing W G Sebald and Chimamanda Ngozi Adichie as well as versions of Bushman song Walder pursues the often wayward ambiguous paths of nostalgia as it has been represented beyond but also within Europe so as to identify some of those processes of communal and individual experience that constitute the present and by implication the future **Writings on Love in the**

**English Middle Ages** H. Cooney, 2006-09-02 This is a set of essays from many of the leading scholars in the world of medieval studies which addresses a wide diversity of texts and genres and their diverse perspectives on love Attention is given to interaction between English writings and putative continental and international influences with particular emphasis on the works of Chaucer *A Study in Greene* Bernard Bergonzi, 2006-09-07 Bernard Bergonzi has been reading Graham Greene for many years he still possesses the original edition of *The End of the Affair* that he bought when it was published in 1951 After so much recent attention to Greene s life he believes it is time to return to his writings in this critical study Bergonzi makes a close examination of the language and structure of Greene s novels and traces the obsessive motifs that recur throughout his long career Most earlier criticism was written while Greene was still alive and working and was to some extent provisional as the final shape of his work was not yet apparent In this book Bergonzi is able to take a view of Greene s whole career as a novelist which extended from 1929 to 1988 He believes that Greene s earlier work was his best combining melodrama realism and poetry with *Brighton Rock* published in 1938 a moral fable that draws on crime fiction and Jacobean tragedy as the masterpiece The novels that Greene published after the 1950s were very professional examples of skilful story telling but represented a decline from this high level of achievement Bergonzi challenges assumptions about the nature of Greene s debt to cinema and attempts to clarify the complexities and contradictions of his religious ideas Although this book engages with questions that arise in academic discussions of Greene it is written with general readers in mind *William Faulkner* Richard Godden, 2009-01-10 In *William Faulkner* Richard Godden traces how the novelist s late fiction echoes the economic and racial traumas of the South s delayed modernization in the mid twentieth century As the New Deal rapidly

accelerated the long term shift from tenant farming to modern agriculture many African Americans were driven from the land and forced to migrate north At the same time white landowners exchanged dependency on black labor for dependency on northern capital Combining powerful close readings of *The Hamlet Go Down Moses* and *A Fable* with an examination of southern economic history from the 1930s to the 1950s Godden shows how the novels literary complexities from their narrative structures down to their smallest verbal emphases reflect and refract the period s economic complexities By demonstrating the interrelation of literary forms and economic systems the book describes in effect the poetics of an economy Original in the way it brings together close reading and historical context William Faulkner offers innovative interpretations of late Faulkner and makes a unique contribution to the understanding of the relation between literature and history

*Philosophy Outside-In* Christopher

Norris,2013-08-23 Christopher Norris raises some basic questions about the way that analytic philosophy has been conducted over the past 25 years In doing so he offers an alternative to what he sees as an over specialisation of a lot of recent academic work Arguing that analytic philosophy has led to a narrowing of sights to the point where other approaches that might be more productive are blocked from view he goes against the grain to claim that Continental philosophy holds the resources for a creative renewal of analytic thought      Concerning E. M. Forster Frank Kermode,2010-02-15 A major reassessment of the great English novelist This impressive new book by the celebrated British critic Frank Kermode examines hitherto neglected aspects of the novelist E M Forster s life and work Kermode is interested to see how it was that this apparently shy reclusive man should have claimed and kept such a central position in the English writing of his time even though for decades he composed no fiction and he was not close to any of his great contemporaries Henry James Ford Madox Ford Joseph Conrad James Joyce Concerning E M Forster has at its core the Clark Lectures that Kermode gave at Cambridge University in 2007 on the subject of Forster eighty years after Forster himself gave those lectures which became Aspects of the Novel Kermode reappraised the influence and meaning of that great work assessed the significance of Forster s profound musicality Britten thought him the most musical of all writers and offered a brilliant interpretation of Forster s greatest work A Passage to India But there is more to Concerning E M Forster than that Thinking about Forster vis vis other great modern writers noting his interest in Proust and Gide and his lack of curiosity about American fiction and observing that Forster was closest to the people who shared not his literary interests or artistic vocation but rather his homosexuality Kermode s book offers a wise original and persuasive new portrait not just of Forster but of twentieth century English letters      Achieving Autobiographical Form Nicholas Meihuizen,2016-01-27 In Achieving Autobiographical Form Nicholas Meihuizen argues that significant autobiographies achieve significant forms peculiar to themselves alone Form he argues is not accidental or merely functional The author arrives at a form through a careful negotiation between the self s immersion in its world and its ability to distance itself from this world The quality of the resultant self scrutiny enables the author to transform everyday reflex into the act of attention that results in formal achievement a uniquely crafted structure Meihuizen s book helps demonstrate how each piece of autobiographical writing under consideration in it works by Yeats Conrad Martin Amis Frank Kermode Andrew Motion Roy Campbell Richard Murphy and J M Coetzee discovers a unique form      **Issues on My Mind** George P.
