Matisse Pierre Schneider, 1984 to devote my life to the essential thing the thing for which I am made and which can bring a little happiness to the great family the greatest spiritual family Matisse to Andre Rouveyre September 4 1942 Of all the artists of this century Henri Matisse is one of the greatest and most beloved His influence on modern art both during his lifetime and today has never stopped growing in the eyes of the world he is the French painter par excellence Henri Matisse is all the more cherished because his work celebrates the positive aspects of life as evidenced by the titles of many of his major paintings Luxe Calme et Volupte La Joie de Vivre La Danse Musique to mention but a few His explosions and juxtapositions of color and pattern inspire pure delight in the beholder and his mastery of line volume and form are perhaps unequaled in the art of our time The vitality energy and life enhancing qualities that radiate from his art represent distillation of all that is affirmative in the human condition and are given immortality through that rare and indefinable quality known as genius The art of Matisse describes a trajectory leading from realism to abstraction from darkness to light from the cold of the north to the heat of the south a route marked off by such revolutionary innovations as the burst of color found in Fauvism or the invention of his cut outs Matisse was still creating at a time in his life when many artists are content to rest on their laurels Since its original publication in 1984 this book by Pierre Schneider stands alone as the bible on the art of Matisse The author spent fourteen years amassing a prodigious amount of information on the artist and includes his own personal and original views on the work Including over nine hundred illustrations this is the most substantial reference of the works of Matisse ever published The reader will discover Matisse watercolorist draftsman ceramist and the architect and unquestionably one of the greatest artists of the twentieth century

in the modern master's bold paintings, drawings and cut outs and influencing the development of his work in sculpture. Matisse's objects formed a secret history hiding in plain sight. Works that span the artist's entire career are presented here alongside the objects that inspired them from Asian vases and African masks to intricate textiles from the Islamic world. With lush illustrations and archival images, *Matisse in the Studio* provides exceptional insights into the world of the artist at work.

Matisse and Picasso Yve-Alain Bois, Kimbell Art Museum, 1998 As Joachim Pissarro points out in the foreword of this volume, Matisse and Picasso's dense plot and rich narrative make this work read more like a suspense novel than a traditional art history treatise. Bois's thoroughly researched historical demonstration is supported by striking visual juxtapositions of works by the two artists brought together here for the first time, making this long-awaited study a major contribution to the history of twentieth-century art. **BOOK JACKET** **Matisse - Bonnard** Felix Kramer, 2017-11-21 In this beautifully illustrated book, the forty-year friendship between Henri Matisse and Pierre Bonnard becomes a platform for new perspectives on the development of the European avant-garde. Long live painting! With this rallying cry, Henri Matisse greeted his colleague Pierre Bonnard on a 1925 postcard from Amsterdam. Widely considered two of the greatest painters of French modernism, they were united by a forty-year-long friendship and a keen appreciation of each other's work. This catalogue offers fascinating insights into their artistic dialogue. Focusing throughout on their creative exchanges, it highlights their respective contributions to the development of modern art from the beginning of the twentieth century to the end of the Second World War. Comprising over 100 paintings, sculptures, drawings and prints, the book makes palpable the many intersections between their artistic visions and investigates their shared interest in subjects such as interiors, still life, landscape and the nude. Scholarly essays and thematic introductions to their oeuvres provide a wealth of information on the two colleagues and friends, gained from their writings and correspondence as well as archival material. Another highlight is a series of iconic photographs taken by Henri Cartier-Bresson who visited both Matisse and Bonnard at their much-fabled houses in the South of France. *The Steins Collect* Janet C. Toward Modern Art Palazzo Grassi, 2002 This catalogue of the major exhibition at the Palazzo Grassi in Venice presents a groundbreaking interpretation of the birth of modern art. Serge Lemoine, curator of the exhibition and director of the Musée d'Orsay, proposes that modern art does not descend as is commonly thought from Manet and Impressionism but from the
