sitting others retired received much condemnation whether welcomed or resented When taken together surely les affaires now approximate in political significance if not in noise or invective those of the Dreyfus or Panama scandals a century ago Yet the author argues this is not so Today treason has vanished and is slowly giving way to a transgression different in kind but equivalent in gravamen the crime against humanity Corruption is far from disappearing yet now it inspires resignation rather than indignation and as such it has lost its power to scandalize Jankowski claims that such transformations tell a tale The state that once aspired to pre eminence as the sole magnet of loyalty touchstone of probity and guarantor of right has yielded significant ground to the individual who is now more likely to elevate his own dignity and cry scandal on his own behalf In these times Individualism is de politicizing the group and ultimately diluting the mystique of France the nation state par excellence
