Kane and E. T. Donaldson** William Langland, 1975 *Piers Plowman* William Langland, 1988 **Piers Plowman** Mícheál F. Vaughan, 2011-08-15 The fourteenth century *Piers Plowman* is one of the most influential poems from the Age of Chaucer Following the character Will on his quest for the true Christian life the three dream

narratives that make up this work address a number of pressing political social moral and educational issues of the late Middle Ages. M. C. F. Vaughan presents a fresh edition of the A version, an earlier and shorter version of this great work. Unlike the B and C versions, there is no modern affordable edition of the A version available. For the first time in decades, students and scholars of medieval literature now have access to this important work. Vaughan's clean, uncluttered text is accompanied by ample glossing of difficult Middle English words. An expansive introduction, which includes a narrative summary of the poem, textual notes, detailed endnotes, and a select bibliography, frames the text, making this edition ideal for classroom use. This is the first classroom edition of the A version since Thomas A. Knott and David C. Fowler's celebrated 1952 publication. Based on an early fifteenth-century manuscript from the University of Oxford's Bodleian Library, Vaughan's text offers a unique rendition of the poem, and it is the first modern edition not to attribute the poem to William Langland. By conservatively editing one important witness of *Piers Plowman*, Vaughan takes a new generation of students to an early version of this great medieval poem. *Piers Ploughman* William Langland, 1842 *Piers Plowman* Priscilla Martin, 1979

The Vision of William Concerning Piers the Plowman William Langland, 1923 *Reconstructing Alliterative Verse* Ian Cornelius, 2017-07-20 The poetry we call alliterative is recorded in English from the seventh century until the sixteenth and includes Caedmon's Hymn, Beowulf, Sir Gawain and the Green Knight, and *Piers Plowman*. These are some of the most admired works of medieval English literature and also among the most enigmatic. The formal practice of alliterative poets exceeded the conceptual grasp of medieval literary theory; theorists are still playing catch up today. This book explains the distinctive nature of alliterative meter, explores its differences from subsequent accentual-syllabic forms, and advances a reformed understanding of medieval English literary history. The startling formal variety of *Piers Plowman* and other Middle English alliterative poems comes into sharper focus when viewed in diachronic perspective: the meter was in transition to understand it, we need to know where it came from and where it was headed at the moment it died out. ***Piers Plowman: The B***

Version William Langland, 1975 ***Piers Plowman--the Three Versions: B version: Will's visions of Piers Plowman, do-well, do-better, and do-best*** William Langland, 1988 *Piers Plowman* William Langland, 2011-08-15 By conservatively editing one important witness of *Piers Plowman*, Vaughan takes a new generation of students to an early version of this great medieval poem. ***William Langland's Piers Plowman*** Kathleen M. Hewett-Smith, 2001 William Langland's chief work, *Piers Plowman*, is regarded as the greatest Middle English poem prior to Chaucer's *Canterbury Tales*. Both a social satire and a vision of simple Christian life, it has much to contribute to contemporary debates over such issues as gender, dissent, representation, and popular religion and culture, and it has recently enjoyed renewed critical attention. This volume tackles some of the central questions within *Piers Plowman* studies. Its essays, ranging from source study to critical historicism and queer theory, demonstrate the variety of critical tools presently brought to bear upon medieval texts, but they also share a common interest in social context and meaning. What all of the contributors insist upon is the need for a fundamental

reconfiguring of our most basic understandings of Piers Plowman of its author and audience the order of its texts the power of its poetry its understanding of women of the poor of allegory of history itself and its relation to fourteenth century culture and ideology

The Book of the Incipit D. Vance Smith, Smith offers a theoretical understanding of beginning that departs from the structuralisms of Edward Said the traditional formalisms of A D Nuttall and most medievalist and modernist treatments of closure Instead he views a work s beginning as a figure of the beginning of the work itself and the inception of language as the problem of beginning to which we continually return BOOK JACKET

Medieval literary voices Louise D'Arcens, Sif Ríkharrðsdóttir, 2022-07-05 Voice is a fleeting physical phenomenon that leaves behind traces of its existence Medieval literary voices offers a wide reaching approach to the concept of literary voices both the vanished authorial ones and the implicit textual ones Its impressive lineup deepens our understanding of how literary voices evoke the elusive voices lurking beyond the text capturing the absent authorial voice the traces of scribal voices and the soundscape of the uttered text It explores multiple dimensions of medieval voice and vocalisations and the interactions between literary voices and their authorial scribal and socio political settings It contends that through the theorizing of literary voices we can begin to understand the ways in which medieval voices mediate or proclaim an embodied selfhood or material presence how they dictate or contest moral conventions and how they create and sustain narrative soundscapes

Poetics of the Incarnation Cristina Maria Cervone, 2013-02-11 The Gospel of John describes the Incarnation of Christ as the Word made flesh an intriguing phrase that uses the logic of metaphor but is not traditionally understood as merely symbolic Thus the conceptual puzzle of the Incarnation also draws attention to language and form what is the Word how is it related to language how can the Word become flesh Such theological questions haunt the material imagery engaged by medieval writers the structural forms that give their writing shape and even their ideas about language itself In Poetics of the Incarnation Cristina Maria Cervone examines the work of fourteenth century writers who rather than approaching the mystery of the Incarnation through affective identification with the Passion elected to ponder the intellectual implications of the Incarnation in poetical and rhetorical forms Cervone argues that a poetics of the Incarnation becomes the grounds for working through the philosophical and theological implications of language at a point in time when Middle English was emerging as a legitimate if contested medium for theological expression In brief lyrics and complex narratives late medieval English writers including William Langland Julian of Norwich Walter Hilton and the anonymous author of the Charters of Christ took the relationship between God and humanity as a jumping off point for their meditations on the nature of language and thought the elision between the concrete and the abstract the complex relationship between acting and being the work done by poetry itself in and through time and the meaning latent within poetical forms Where Passion devoted writing would focus on the vulnerability and suffering of the fleshly body these texts took imaginative leaps such as when they depict the body of Christ as a lily or the written word Their Incarnational poetics repeatedly call attention to the fact that in theology as in poetics

form matters *English Medieval Narrative in the Thirteenth and Fourteenth Centuries* Piero Boitani, 1986-07-31 In this detailed study of English narrative verse the author describes and analyses the undisputed masterpieces of narrative such as the works of the Gawain poet Langland Gower and Chaucer as well as anonymous romances and specimens of religious and comic narrative which form the background to more well known poems
