missionaries has been minimal Their story enhances our understanding of Melanesia and adds new and significant material to the comparison of Oceanic cultures and societies In the course of her fieldwork with them Goodale recognized that everything of importance to the Kaulong every event every relationship every transaction was rooted in their constant quest for recognition as human beings She addresses here questions central to Kaulong society What is it that makes an individual human How is humanity or personhood achieved and maintained In their consuming concern with their status as human beings the Kaulong mark progress on a continuum from nonhuman animal like to the most respected level of humanity the political Big Men and Big Women Knowledge is the key to movement along the continuum and acquiring displaying and defending knowledge are at the heart of social interaction At all night singsings individuals compete through song in their knowledge of people places and many other aspects of their forested world The sacrifice of pigs and distribution of pork to guests completes the ceremonial display and defense of knowledge and personhood While To Sing with Pigs will be welcomed by anthropologists and area specialists it will appeal on a broader level to anyone interested in this still remote part of the world Goodale s analysis of songs and their ritual context adds unusual depth to the ethnography Fascinating field photographs and readable text prove again that anthropology can be both scholarly and lively Axelrod & Cooper's Concise Guide to Writing Rise B.
