Preschool in Three Cultures Revisited Joseph Tobin, Yeh Hsueh, Mayumi Karasawa, 2009-08-15 Published twenty years ago the original *Preschool in Three Cultures* was a landmark in the study of education a profoundly enlightening exploration of the different ways preschoolers are taught in China Japan and the United States Here lead author Joseph Tobin along with new collaborators Yeh Hsueh and Mayumi Karasawa revisits his

original research to discover how two decades of globalization and sweeping social transformation have affected the way these three cultures educate and care for their youngest pupils Putting their subjects responses into historical perspective Tobin Hsueh and Karasawa analyze the pressures put on schools to evolve and to stay the same discuss how the teachers adapt to these demands and examine the patterns and processes of continuity and change in each country Featuring nearly one hundred stills from the videotapes *Preschool in Three Cultures Revisited* artfully and insightfully illustrates the surprising illuminating and at times entertaining experiences of four year olds and their teachers on both sides of the Pacific

Children Crossing Borders Joseph Tobin, Jennifer Keys Adair, Angela Arzubiaga, 2013-10-31 In many school districts in America the majority of students in preschools are children of recent immigrants For both immigrant families and educators the changing composition of preschool classes presents new and sometimes divisive questions about educational instruction cultural norms and academic priorities Drawing from an innovative study of preschools across the nation *Children Crossing Borders* provides the first systematic comparison of the beliefs and perspectives of immigrant parents and the preschool teachers to whom they entrust their children *Children Crossing Borders* presents valuable evidence from the U S portion of a landmark five country study on the intersection of early education and immigration The volume shows that immigrant parents and early childhood educators often have differing notions of what should happen in preschool Most immigrant parents want preschool teachers to teach English prepare their children academically and help them adjust to life in the United States Many said it was unrealistic to expect a preschool to play a major role in helping children retain their cultural and religious values The authors examine the different ways that language and cultural differences prevent immigrant parents and school administrations from working together to achieve educational goals For their part many early education teachers who work with immigrant children find themselves caught between two core beliefs on one hand the desire to be culturally sensitive and responsive to parents and on the other hand adhering to their core professional codes of best practice While immigrant parents generally prefer traditional methods of academic instruction many teachers use play based curricula that give children opportunities to be creative and construct their own knowledge Worryingly most preschool teachers say they have received little to no training in working with immigrant children who are still learning English For most young children of recent immigrants preschools are the first and most profound context in which they confront the conflicts between their home culture and the United States Policymakers and educators however are still struggling with how best to serve these children and their parents *Children Crossing Borders* provides valuable research on these questions and on the ways schools can effectively and sensitively incorporate new immigrants into the social fabric
