Gieryn,2018-05-22 We may not realize it but truth and place are inextricably linked For ancient Greeks temples and statues clustered on the side of Mount Parnassus affirmed their belief that predictions from the oracle at Delphi were accurate The trust we have in Thoreau s wisdom depends in part on how skillfully he made Walden Pond into a perfect place for discerning timeless truths about the universe Courthouses and laboratories are designed and built to exacting specifications so that their architectural conditions legitimate the rendering of justice and discovery of natural fact The on site commemoration of the struggle for civil rights Seneca Selma and Stonewall reminds people of slow but significant political progress and of unfinished business What do all these places have in common Thomas F Gieryn calls these locations truth spots places that lend credibility to beliefs and claims about natural and social reality about the past and future and about identity and the transcendent In *Truth Spots* Gieryn gives readers an elegant rigorous rendering of the provenance of ideas uncovering the geographic location where they are found or made a spot built up with material stuff and endowed with cultural meaning and value These kinds of places including botanical gardens naturalists field sites Henry Ford s open air historical museum and churches and chapels along the pilgrimage way to Santiago de Compostela in Spain would seem at first to have little in common But each is a truth spot a place that makes people believe Truth may well be the daughter of time Gieryn argues but it is also the son of place *Modern Spain* Enrique

Ávila López, 2015-12-07 Fulfilling the need for English source material on contemporary Spain this book supplies readers with an in depth interdisciplinary guide to the country of Spain and its intricate diverse culture Far from a usual reference book Modern Spain takes the reader through the country's history economy and politics as well as topics that address Spain's popular culture such as food sports and sexuality Because of the interdisciplinary nature of its content this book differs from the average typical English manuals that very rarely cover in depth the whole array of interesting issues that define Spain in the 21st century The vast amount of information makes this book the perfect companion for any reader wishing to learn more about Spain Packed with current facts and statistics this book offers an unbiased view of a modern country making it an ideal source for undergraduate students and scholars
