Until now China has been scarcely represented in the burgeoning comparative literature on pilgrimage
This volume remedies that omission discussing the interaction between pilgrims and sacred sites from the tenth century to the present

The history and underlying ideology of pilgrimage examined from prehistory to the middle ages **On Foot** Joseph Amato, 2004-11-01
A sweeping social history on walking from humanity's first steps to modern urban pavement pounders
I have met with but one or two persons in the course of my life who understand the art of Walking that is of taking walks who had a genius so to speak for sauntering
Henry David Thoreau 1817-1862
Everything is within walking distance if you have the time
Stephen Wright 1955
For approximately six million years humans have walked the earth
This is the story of how why and to what effect we put one foot in front of the other
Walking has been the primary mode of locomotion for humans until very recent times when we began to sit and ride first on horses and in carriages then trains and bicycles and finally cars trucks buses and airplanes rather than go on foot
The particular way we saunter clomp meander shuffle plod along jaunt tramp and wander on foot conveys a wealth of information about our identity condition and destination
In this fast stepping social history Joseph A. Amato takes us on a journey of walking from the first human migrations to marching Roman legions and ancient Greeks who considered man a featherless biped from trekking medieval pilgrims to strolling courtiers from urban pavement pounders to ambling window shoppers to suburban mall walkers
Concentrating on walking in Europe and North America and with particular focus on how walking differed according to social class Amato distinguishes how where when who what and under which conditions people moved on foot
He identifies crucial transformations in the history of walking including the adoption of the horse by the mounted warrior the rise of public display among European nobility and the building of roads and transportation systems which led to the inevitable ascent of the wheel over the foot Pilgrims and Beggars David Biespiel, 2002-09-01 **Mahabharata Quiz Book** Rajendra Pratap Singh, 2020-01-01
In reading the history of nations we find that like individuals they have their whims and their peculiarities their seasons of excitement and recklessness when they care not what they do
We find that whole

communities suddenly fix their minds upon one object and go mad in its pursuit that millions of people become simultaneously impressed with one delusion and run after it till their attention is caught by some new folly more captivating than the first We see one nation suddenly seized from its highest to its lowest members with a fierce desire of military glory another as suddenly becoming crazed upon a religious scruple and neither of them recovering its senses until it has shed rivers of blood and sowed a harvest of groans and tears to be reaped by its posterity At an early age in the annals of Europe its population lost their wits about the sepulchre of Jesus and crowded in frenzied multitudes to the Holy Land another age went mad for fear of the devil and offered up hundreds of thousands of victims to the delusion of witchcraft Preface

Extraordinary Popular Delusions Charles Mackay, 2015-10-22 Today as in the time of the South Sea Bubble human nature is drawn like a moth to a flame by the speculative fads of the marketplace The excitement of new glamour issues in electronics or medical technology and the general euphoria over a rising market can lure even the most experienced investors Their optimism overcomes their better judgment They abandon critical analysis of the investment's fundamental value Like gamblers in a casino they play against the odds paying inflated prices and dreaming of quick profit from the foreword by John Marks Templeton Mackay's classic first published in 1841 studies the psychology of crowds and mass mania throughout history including accounts of classic scams grand scale madness and deceptions Some of these include the Mississippi scheme that swept France in 1720 the South Sea Bubble that ruined thousands in England simultaneously and the tulip mania of Holland when fortunes were made and lost on single tulip bulbs Other chapters deal with fads and delusions that often spring from good ideas or causes many of which still have their followers today alchemy and the philosopher's stone the prophecies of Nostradamus the coming of comets and judgment day the Rosicrucians and astrology Time and again we can avoid disastrous pitfalls and learn to profit by seeing how history repeats itself Fascinating mesmerizing strikingly strange and amazingly wise this book will never be forgotten and cannot be ignored **Lancashire**
