Pillars Of Faith American Congregations And Their Partners:

Pillars of Faith Nancy Tatom Ammerman, 2005-04-04 This book will be a classic in the field It does something no other book has done it shows with one of the most impressive sets of data I have ever seen what congregations do and how they go about doing it Michael Emerson author of *Divided by Faith* Ammerman demonstrates rare mastery in a book that is brimming with original research and original thinking The material is well organized and the author has an eye for the well turned phrase This is a book of great importance that gives us an unprecedented picture of lived American religion while challenging stereotypes and conventional wisdom James Wind President of the Alban Institute author of *Finding a New Voice* The Public Role of Mainline Protestantism **Sister Churches** Janel Kragt Bakker, 2014 In *Sister Churches* Janel Bakker draws on extensive fieldwork and interviews with participants in congregation to congregation partnerships between Western churches and churches in the global South to explore the sister church movement and in particular its effects on American churches **Congregations in America** Mark Chaves, 2009-07-01 This book provides a comprehensive overview of the most significant form of collective religious expression in America local congregations Among its more surprising findings the book reveals that despite media focus on the political and social activities of religious groups the arts are far more central to the workings of congregations **Partners, Sisters, and Twins** Danny Hunter, 2023-07-27 Congregations are increasingly developing partnerships as a way of engaging directly in global missions One of the most common ways they do this is forming relationships with congregations in other parts of the world This book looks at the reasons that churches seek out missions partners how the partnership phenomenon developed and what beliefs concepts structures and practices inform the healthiest mission partnerships With insights drawn from a survey of churches from across the country and around the world this book provides data driven insights to guide the practice of international congregational partnerships **American Religion** Mark A. A. Chaves, 2017-08-29 The most authoritative resource on religious trends in America now fully updated Most Americans say they believe in God and more than a third say they attend religious services every week Yet studies show that people do not really go to church as often as they claim and it is not always clear what they mean when they tell pollsters they believe in God or pray *American Religion* presents the best and most up to date information about religious trends in the United States in a succinct and accessible manner This sourcebook provides essential information about key developments in American religion since 1972 and is the first major resource of its kind to appear in more than two decades Mark Chaves looks at trends in diversity belief involvement congregational life leadership liberal Protestant decline and polarization He draws on two important surveys the General Social Survey an ongoing survey of Americans changing attitudes and behaviors begun in 1972 and the National Congregations Study a survey of American religious congregations across the religious spectrum Chaves finds that American religious life has seen much continuity in recent decades but also much change He challenges the popular notion that religion is witnessing a resurgence in the United States in fact

traditional belief and practice is either stable or declining Chaves examines why the decline in liberal Protestant denominations has been accompanied by the spread of liberal Protestant attitudes about religious and social tolerance how confidence in religious institutions has declined more than confidence in secular institutions and a host of other crucial trends Now with updated data and a new preface by the author this revised edition provides essential information about key developments in American religion since 1972 plainly showing that religiosity is declining in America *Handbook of Community Movements and Local Organizations* Ram A. Cnaan, Carl Milofsky, 2007-12-18 Although the way associations and the organization of local social life are intertwined is one of the oldest approaches to community study the way citizens and residents come together informally to act and solve problems has rarely been a primary focus Associations are central to important and developing areas of social theory and social action This handbook takes voluntary associations as the starting point for making sense of communities It offers a new perspective on voluntary organizations and gives an integrated yet diverse theoretical understanding of this important aspect of community life *Congregations in Europe* Christophe Monnot, Jörg Stolz, 2018-05-14 This volume describes and maps congregations of Christian confessions and denominations as well as groups with Jewish Buddhist Muslim Hindu and various other spiritual faiths in different European countries Consisting of three parts it presents concrete sociological studies addressing how established and not established old and new congregations of various faiths create a new kind of religious diversity at the country level how religious congregations are challenged and thrive in large cities and how religious congregations change in the 21st century The book enlightens by its descriptive analysis and the theoretical questions it raises concerning the religious transformations happening all over Europe It addresses issues of religious diversity in the cities of Europe by presenting large studies conducted in cities such as Barcelona in Spain and Aarhus in Denmark By means of large scale censuses taken in areas such as North Rhine Westphalia in Germany and in countries like Switzerland and Italy the book shows how the historically established churches restructure their congregations and activities It clarifies for the new gatherers where and how a new diversity of religious congregations is in the process of being established Finally the book covers two important topical issues pluralisation and secularisation It provides new data on religious diversity painting a new picture of secularisation the impact and structural consequences of the long term decrease of membership in the established churches *Religion and Politics in America* Robert Booth Fowler, 2018-05-04 this book focuses on religion and politics and the dynamic interactions between them It helps to understand the politics of religion in the United States and to appreciate the strategic choices that politicians and religious participants make when they participate in politics *Faith Communities and the Fight for Racial Justice* Robert Wuthnow, 2023-11-14 The communities congregations and faith based coalitions that have been working for racial justice over the past fifty years Have progressive religious organizations been missing in action in recent struggles for racial justice In *Faith Communities and the Fight for Racial Justice* Robert Wuthnow shows that contrary to activists accusations of

complacency Black and White faith leaders have fought steadily for racial and social justice since the end of the Civil Rights movement of the 1950s and 1960s Wuthnow introduces us to the communities congregations and faith based coalitions that have worked on fair housing school desegregation affirmative action criminal justice and other issues over many years Often overshadowed by the Religious Right these progressive faith based racial justice advocates kept up the fight even as media attention shifted elsewhere Wuthnow tells the stories of the faith based affordable housing project in St Louis that sparked controversy in the Nixon White House a pastor s lawsuit in North Carolina that launched the nation s first busing program for school desegregation the faith outreach initiative for Barack Obama s presidential campaign and church mobilized protests following the deaths of Trayvon Martin Freddie Gray and George Floyd Drawing on extensive materials from denominations journalists and social scientists Wuthnow offers a detailed and frank discussion of both the achievements and the limitations of faith leaders roles He focuses on different issues that emerged at different times tracing the efforts of Black and White faith leaders who sometimes worked cooperatively and more often tackled problems in complementary ways Taken together these stories provide lessons in what faith communities have done and how they can better advocate for racial justice in the years ahead

Sacred Stories, Spiritual Tribes Nancy Tatom Ammerman, 2014 Nancy Tatom Ammerman examines the stories Americans tell of their everyday lives from dinner table to office and shopping mall to doctor s office about the things that matter most to them and the routines they take for granted and the times and places where the everyday and ordinary meet the spiritual In addition to interviews and observation Ammerman bases her findings on a photo elicitation exercise and oral diaries offering a window into the presence and absence of religion and spirituality in ordinary lives and in ordinary physical and social spaces The stories come from a diverse array of ninety five Americans both conservative and liberal Protestants African American Protestants Catholics Jews Mormons Wiccans and people who claim no religious or spiritual proclivities across a range that stretches from committed religious believers to the spiritually neutral Ammerman surveys how these people talk about what spirituality is how they seek and find experiences they deem spiritual and whether and how religious traditions and institutions are part of their spiritual lives

Evangelicals and Democracy in America Steven G. Brint, Jean Reith Schroedel, Steven Brint, 2011-09 By the end of the nineteenth century the vast majority of U S churches were evangelical in outlook and practice America s turn toward modernism and embrace of science in the early twentieth century threatened evangelicalism s cultural prominence But as confidence in modern secularism wavered in the 1960s and 1970s evangelicalism had another great awakening The two volumes of Evangelicals and Democracy in America trace the development and current role of evangelicalism in American social and political life Volume I focuses on who evangelicals are today how they relate to other groups and what role they play in U S social institutions Part I of Religion and Society examines evangelicals identity and activism Contributor Robert Wuthnow explores the identity built around the centrality of Jesus church and community service and the born again experience Philip Gorski explores the features of American

evangelicalism and society that explain the recurring mobilization of conservative Protestants in American history Part II looks at how evangelicals relate to other key groups in American society Individual chapters delve into evangelicals relationship to other conservative religious groups women and gays African Americans and mainline Protestants These chapters show sources of both solidarity and dissension within the traditionalist alliance and the hidden strengths of mainline Protestants moral discourse Part III examines religious conservatives influence on American social institutions outside of politics W Bradford Wilcox David Sikkink Gabriel Rossman and Rogers Smith investigate evangelicals influence on families schools popular culture and the courts respectively What emerges is a picture of American society as a consumer marketplace with a secular legal structure and an arena of pluralistic competition interpreting what constitutes the public good These chapters show that religious conservatives have been shaped by these realities more than they have been able to shape them Evangelicals and Democracy in America Volume I is one of the most comprehensive examinations ever of this important current in American life and serves as a corrective to erroneous popular representations These meticulously balanced studies not only clarify the religious and social origins of evangelical mobilization but also detail both the scope and limits of evangelicals influence in our society This volume is the perfect complement to its companion in this landmark series Evangelicals and Democracy in America Volume II Religion and Politics Religion and the Public Conscience Randi J. Walker, 2012 The book explores the nature of public conscience the influence of the generation that came of age in the Progressive Era on the modern civil rights movements the nature of women s leadership the dynamics of civil rights in a multi racial context and the way in which religion plays a role in broader social movements These two ecumenical groups can be credited with contributing to Seattle s relatively peaceful engagement with the civil rights movement compared to other cities in the United States during the 1960s **Passing on the Faith** James L. Heft, 2009-08-25 From the beginning the Abrahamic faiths Judaism Christianity and Islam have stressed the importance of transmitting religious identity from one generation to the next Today that sustaining mission has never been more challenged Will young people have a faith to guide them How can faith traditions anchor religious attachments in this secular skeptical culture The fruit of a historic gathering of scholars and religious leaders across three faiths and many disciplines this important book reports on the religious lives of young people in today s world It s also a unique inventory of creative and thoughtful responses from churches synagogues and mosques working to keep religion a significant force in those lives The essays are grouped thematically Opening the book Melchor Sanchez de Toca and Nancy Ammerman explore fundamental issues that have an impact on religion from the cultural effects of global consumerism and personal technology to pluralism and individualism In Part Two leading investigators present three leading studies of religiosity among young people and college students in the United States illuminating the gap between personal values and organized religion and the emergence of new different forms of spirituality and faith How religious institutions deal with these challenges forms the heart of the book in portraits of best practices

developed to revitalize traditional institutions from a synagogue in New York City and a Muslim youth camp in California to the famed French Catholic community of the late Brother John of Taiz. Finally Jack Miles and Diane Winston weave the findings into a broader perspective of the future of religious belief practice and feeling in a changing world. Filled with real world wisdom, *Passing the Faith* will be an essential resource for anyone seeking to understand what religions must and can do to inspire a vigorous faith in the next generation.

Land of Stark Contrasts Manuel Mejido Costoya, 2021-04-06 An important new volume showcasing a wide range of faith based responses to one of today's most pressing social issues, challenging us to expand our ways of understanding. *Land of Stark Contrasts* brings together the work of social scientists, ethicists and theologians exploring the profound role of religion in understanding and responding to homelessness and housing insecurity in all corners of the United States, from Seattle, San Francisco and Silicon Valley to Dallas and San Antonio to Washington D.C. and Boston. Together the essays of *Land of Stark Contrasts* chart intriguing ways forward for future initiatives to address the root causes of homelessness. In this way they are essential reading for practical theologians, congregational leaders and faith based nonprofit organizers exploring how to combine spiritual and material care for homeless individuals and other vulnerable populations. Social workers, nonprofit managers and policy specialists seeking to understand how to partner better with faith based organizations will also find the chapters in this volume an invaluable resource. Contributors include James V. Spickard, Manuel Mejido Costoya and Margaret Breen, Michael R. Fisher Jr, Laura Stivers, Lauren Valk, Lawson Bruce, Granville Miller, Nancy A. Khalil, John A. Coleman, S.J., Jeremy Phillip Brown, Paul Houston, Blankenship, Mar, a Teresa D. Vila, Roberto Mata and Sathianathan Clarke. Co-published with Seattle University's Center for Religious Wisdom and World Affairs.

The Oxford Handbook of the Sociology of Religion Peter Clarke, 2011-02-04 The *Oxford Handbook of the Sociology of Religion* draws on the expertise of an international team of scholars providing both an entry point into the sociological study and understanding of religion and an in-depth survey into its changing forms and content in the contemporary world. The role and impact of religion and spirituality on the politics, culture, education and health in the modern world is rigorously discussed and debated. The study of the sociology of religion forges interdisciplinary links to explore aspects of continuity and change in the contemporary interface between society and religion. Using a combination of theoretical, methodological and content-led approaches, the fifty-seven contributors collectively emphasise the complex relationships between religion and aspects of life, from scientific research to law, ecology to art, music to cognitive science, crime to institutional health care and more. The developing character of religion, irreligion and atheism and the impact of religious diversity on social cohesion are explored. An overview of current scholarship in the field is provided in each themed chapter with an emphasis on encouraging new thinking and reflection on familiar and emergent themes to stimulate further debate and scholarship. The resulting essay collection provides an invaluable resource for research and teaching in this diverse discipline.

Impacts of Faith-Based Decision Making on the Individual-Level Legislative Process:

Emerging Research and Opportunities Drenner, Karla, 2017-04-07 Increased diversity and shifting social identities have created significant effects on contemporary legislative systems These shifts have altered how legislative bodies conduct implement and pass various policies and bills Impacts of Faith Based Decision Making on the Individual Level Legislative Process Emerging Research and Opportunities is an innovative source of scholarly material on the religious influences of modern society on marital law Including perspectives on topics such as same sex marriage religious values and bill sponsorship this book is ideally designed for researchers academics professionals graduate students and policy makers interested in the latest developments on legislative decision making *The Megachurch and the Mainline* Stephen Ellingson, 2008-09-15 Religious traditions provide the stories and rituals that define the core values of church members Yet modern life in America can make those customs seem undesirable even impractical As a result many congregations refashion church traditions so they may remain powerful and salient How do these transformations occur How do clergy and worshipers negotiate which aspects should be preserved or discarded Focusing on the innovations of several mainline Protestant churches in the San Francisco Bay Area Stephen Ellingson's *The Megachurch and the Mainline* provides new understandings of the transformation of spiritual traditions For Ellingson these particular congregations typify a new type of Lutheranism one which combines the evangelical approaches that are embodied in the growing legion of megachurches with American society's emphasis on pragmatism and consumerism Here Ellingson provides vivid descriptions of congregations as they sacrifice hymns in favor of rock music and scrap traditional white robes and stoles for Hawaiian shirts while also making readers aware of the long history of similar attempts to Americanize the Lutheran tradition This is an important examination of a religion in flux one that speaks to the growing popularity of evangelicalism in America **Public Theology for a Global Society** Deidre King Hainsworth, Scott R. Paeth, 2010 In these essays honoring ethicist Max Stackhouse leading Christian scholars consider the historical roots and ongoing resources of public theology as a vital element in the church's engagement with global issues *Public Theology for a Global Society* explores the concept of public theology and the challenge of relating theological claims to a larger social and political context The range of essays included here allows readers to understand public theology as both theological practice and public speech and to consider the potential and limits of public theology in ecumenical and international networks The essays begin by introducing the reader to the development of public theology as an area of study and to the historical interrelationship of religious legal and professional categories The later essays engage the reader with emerging problems in public theology as religious communities encounter shifting publics that are being transformed by globalization and sweeping political and technological changes The breadth and scholarship of *Public Theology for a Global Society* make this volume a fitting tribute to Stackhouse a central figure in Christian ethics and pioneer in the church's study of globalization *Faith, Hope, and Sustainability* Cybelle T. Shattuck, 2021-06-01 *Faith Hope and Sustainability* explores the experiences of fifteen faith communities striving to care for the earth and live more

sustainably A church in Maine partners with fishermen to create the first community supported fishery so they can make a living without overfishing A Jewish congregation in Illinois raises extra funds to construct a green synagogue that expresses their religious mission to heal the world Benedictine sisters in Wisconsin adopt caring for the earth as part of their mission and begin restoring one hundred acres of prairie reviving their community in the process Presbyterians in Virginia dismayed by air pollution in Shenandoah National Park take courage from their conviction that God does not call us to do little things and advocate for improved national air pollution policies Stories such as these highlight the variety of environmental actions that people of faith are enacting through congregational venues Beyond simply narrating inspiring stories however this book compares these case studies to explore in detail the processes through which the communities took action In addition to examining why faith communities engage in earth care Cybelle T Shattuck explores how they put intention into action and how the congregational context affects what they do She introduces an analytical framework focusing on four domains of activity champions faith leaders congregations and organizations to explicate the full range of factors that influence how initiatives develop and whether sustainability becomes embedded in these religious organizations Both the framework and the information on process presented in this book will be highly useful to scholars and to people of faith interested in implementing an earth care ethic through sustainability programs

Faith-Based Influences on Legislative Decision Making: Emerging Research and Opportunities Drenner, Karla L., 2021-11-19 In recent years state legislatures in the United States have been transformed based on the social identities of their membership At its most fundamental level the debate over LGBTQ rights always has been a debate over the right of LGBTQ people to exist While the role faith plays in legislative decision making is rooted within government functions careful examination and change must be conducted to protect the humanity of those at risk through these influences Faith Based Influences on Legislative Decision Making Emerging Research and Opportunities explores the balance between religious freedoms of legislators and the human rights of members of the LGBTQ community Examining the politics and institutional forces brought to bear on LGBTQ claims for visibility recognition and dignity this book is organized into three sections each of which uses a distinct institutional lens historical legal and religious The author attempts to demonstrate that while the clash of cultures between these groups is real it is not simple The faith worldviews of each share common structural features but often reach extremely different conclusions Covering topics such as marriage equality religious liberty and court cases this book is an essential resource for students and educators in political science policymakers legislators historians sociologists researchers universities administrations community leaders and academicians
