Maybe the Moon Armistead Maupin s first novel since ending his bestselling *Tales of the City* series is the audaciously original chronicle of Cadence Roth Hollywood actress singer iconoclast and former Guinness Book record holder as the world s shortest woman All of 31 inches tall Cady is a true survivor in a town where as she says you can die of encouragement Her early starring role as a lovable elf in an immensely popular American film proved a major disappointment since moviegoers never saw the face behind the stifling rubber suit she was required to wear Now after a decade of hollow promises from the Industry she is reduced to performing at birthday parties and bat mitzvahs as she waits for the miracle that will finally make her a star In a series of mordantly funny journal entries Maupin tracks his spunky heroine across the saffron hazed wasteland of Los Angeles from her all too infrequent meetings with agents and studio moguls to her regular harrowing encounters with

small children large dogs and human ignorance Then one day a lanky piano player saunters into Cady s life unleashing heady new emotions and she finds herself going for broke shooting the moon with a scheme so harebrained and daring that it just might succeed Her accomplice in the venture is her best friend Jeff a gay waiter who sees Cady s struggle for visibility as a natural extension of his own war against the Hollywood Closet As clear eyed as it is charming *Maybe the Moon* is a modern parable about the mythology of the movies and the toll it exacts from its participants on both sides of the screen It is a work that speaks to the resilience of the human spirit from a perspective rarely found in literature [Schnibbles Times Two](#) Carrie L.
