

The background of the book cover is a painting of a long, covered porch. On the left, a white balustrade with decorative balusters runs along the edge. The floor is made of wide wooden planks, and the ceiling is a flat wooden surface. On the right side, several wooden rocking chairs are arranged in rows, facing away from the viewer. The lighting is warm and golden, suggesting late afternoon or early morning, with long shadows cast across the floor and ceiling.

Ayers,2007-09-07 Ranging from the Georgia coast to the Tennessee mountains from the power brokers to tenant farmers Ayers depicts a land of startling contrasts Ayers takes us from remote Southern towns revolutionized by the spread of the railroads to the statehouses where Democratic Redeemers swept away the legacy of Reconstruction from the small farmers trapped into growing nothing but cotton to the new industries of Birmingham from abuse and intimacy in the family to tumultuous public meetings of the prohibitionists He explores every aspect of society politics and the economy detailing the importance of each in the emerging New South Central to the entire story is the role of race relations from alliances and friendships between blacks and whites to the spread of Jim Crows laws and disfranchisement The teeming nineteenth century South comes to life in these pages *The Edible South* Marcie Cohen Ferris,2014-09-22 In *The Edible South* Marcie Cohen Ferris presents food as a new way to chronicle the American South s larger history Ferris tells a richly illustrated story of southern food and the struggles of whites blacks Native Americans and other people of the region to control the nourishment of their bodies and minds livelihoods lands and citizenship The experience of food serves as an evocative lens onto colonial settlements and antebellum plantations New South cities and civil rights era lunch counters chronic hunger and agricultural reform counterculture communes and iconic restaurants as Ferris reveals how food as cuisine and as commodity has expressed and shaped southern identity to the present day The region in which European settlers were greeted with unimaginable natural abundance was simultaneously the place where enslaved Africans vigilantly preserved cultural memory in cuisine and Native Americans held tight to kinship and food traditions despite mass expulsions Southern food Ferris argues is intimately connected to the politics of power The contradiction between the realities of fulsomeness and deprivation privilege and poverty in southern history resonates in the region s food traditions both beloved

and maligned **James Monroe Smith** E. Merton Coulter, 2002-09-09 Few men in the history of Georgia have come down to the present in hearsay and folklore as profusely and as controversially as has James Monroe Smith who became a millionaire farmer around the turn of the twentieth century He was born near Washington Georgia in 1839 and died on his plantation a few miles from Athens in 1915 Smith's plantation Smithonia was measured in terms of square miles He developed an empire of farming and allied interests among which was a railroad to connect his plantation with other rail lines He served terms in the state legislature in both the house and the senate and in 1906 ran unsuccessfully for governor The colorful career of Smith a bachelor did not end with his death but was kept alive in numerous claims and counter claims in the settling of his estate E Merton Coulter seeks to separate fact from fiction in his account of Smith's varied activities and the final dissolution of his wealth

**Psychology and Selfhood in the Segregated South** Anne C. Rose, 2009 In the American South at the turn of the twentieth century the legal segregation of the races and psychological sciences focused on selfhood emerged simultaneously The two developments presented conflicting views of human nature American psychiatry and Matzoh Ball Gumbo Marcie Cohen Ferris, 2012-01-01 From the colonial era to the present Marcie Cohen Ferris examines the expressive power of food throughout southern Jewish history She demonstrates with delight and detail how southern Jews reinvented culinary traditions as they adapted to the customs landscape and racial codes of the American South Richly illustrated this culinary tour of the historic Jewish South is an evocative mixture of history and foodways including more than thirty recipes to try at home

**Rural Worlds Lost** Jack Temple Kirby, 1986-12-01 Immediately following the Civil War and for many years thereafter southerners proclaimed a New South implying not only the end of slavery but also the beginning of a new era of growth industrialization and prosperity Time has shown that those declarations at least in terms of progress and prosperity were premature by several decades Life for an Alabama tenant farmer in 1920 did not differ significantly from the life his grandfather led fifty years earlier In fact the South remained primarily a land of poor farming folks until the 1940s Only then and after World War II did the real New South of industrial growth and urban development begin to emerge Jack Temple Kirby's massive and engaging study examines the rural southern world of the first half of this century its collapse and the resulting modernization of southern society The American South was the last region of the Western world to undergo this process and Rural Worlds Lost is the first book to so thoroughly assess the profound changes modernization has wrought Kirby painstakingly charts the structural changes in agriculture that have occurred in the South and the effects these changes have had on people both at work and in the community He is quick to note that there is not just one South but many emphasizing the South's diversity not only in terms

of race but also in terms of crop type and topography and the resultant cultural differences of various areas of the region He also skillfully compares southern life and institutions with those in other parts of the country noting discrepancies and similarities Perhaps even more significant however is Kirby s focus on the lives and communities of ordinary people and how they have been transformed by the effects of modernization By using the oral histories collected by WPA interviewers Kirby shows firsthand how rural southerners lived in the 1930s and what forces shaped their views on life He assesses the impact of cash upon traditional rural economies the revolutionary effects of New Deal programs on the rich and poor and the forms and cultural results of migration Kirby also treats home life recording attitudes toward marriage and sex health maintenance and class relationships not to mention sports and leisure moonshining and the southerner s longstanding love hate relationship with the mule Rural Worlds Lost based on exceptionally extensive research in archives throughout the South and in federal agricultural censuses definitively charts the enormous changes that have taken place in the South in this century Writing about Kirby s previous book Media Made Dixie Time Magazine noted Kirby s scholarship of rare lucidity That same high level of scholarship as well as an undeniable affection for the region is abundantly evident in this new path breaking book

The Cotton Kings Bruce E. Baker,Barbara Hahn,2016 The Cotton Kings is a colorful account of the men who fought to control the price of cotton on unregulated exchanges in New York and New Orleans Dishonest brokers used bad information to raise and lower prices make or break fortunes regardless of supply and demand Eventually federal regulation stamped out corruption on the exchanges helping millions of farmers and textile manufacturers

**The Pursuit of a Dream** Janet Sharp Hermann,2011-03-10 Winner of the Robert F Kennedy Book Award the McLemore Prize of the Mississippi Historical Society and the Silver Medal of the Commonwealth Club of California Originally published in 1981 this fascinating history set in the Reconstruction South is a testament to African American resilience fortitude and independence It tells of three attempts to create an ideal community on the river bottom lands at Davis Bend south of Vicksburg There Joseph Davis s effort to establish a cooperative community among the slaves on his plantation was doomed to fail as long as they remained in bondage During the Civil War the Yankees tried with limited success to organize the freedmen into a model community without trusting them to manage their own affairs After the war

the intrepid Benjamin Montgomery and his family bought the land from Davis and established a very prosperous colony of their fellow freedmen Their success at Davis Bend occurred when blacks were accorded the opportunity to pursue the American dream relatively free from the discrimination that prevailed in most of society It is a story worthy of celebration Janet Sharp Hermann writes here of two men Joseph Davis the slaveholder and brother of the president of the Confederacy and Benjamin Montgomery an educated freedman In 1866 Montgomery began the experiment at Davis Bend **The Politics of Despair** Tracy Campbell,2021-11-21 Shortly after 1900 tens of thousands of tobacco growers throughout Kentucky and Tennessee convulsed the region for nearly a decade in a revolt against the monopolistic practices of the American Tobacco Company Though the revolt known as the Tobacco Wars remains one of the more remarkable insurgencies of rural America it is also one of the more misunderstood In this first major account of the uprising in over half a century Tracy Campbell tells the story of these embattled farmers and casts a provocative new light on the issues that fueled the Tobacco Wars When tobacco prices fell below the cost of production in the early 1900s farmers in western Kentucky and Tennessee faced with desperate economic circumstances formed cooperatives through which they could pool their crops and withhold tobacco from the market until a satisfactory price was offered Campbell recounts the organizational underpinnings of the notorious Black Patch War and the forces that drove farmers to seek violent solutions to their economic ills Campbell then expands the story to the burley region where a simultaneous movement was under way In 1908 over thirty thousand burley growers undertook the only successful large scale agricultural strike in American history Campbell brings this drama to life and describes the emotional day when the farmers achieved their unprecedented victory over the powerful Tobacco Trust The Tobacco Wars represented one of the last desperate gasps from the countryside before the onset of agribusiness drove millions of farmers and their families away for good The Politics of Despair thus stands as a unique reminder of a tradition of protest that has perhaps been irretrievably lost This book will interest not only rural and labor historians and students of the American South but anyone concerned with the profound issues surrounding the decline of rural America
