## **Pilot And The Passenger Essays On Literature Technology And Culture In The United States:**

**The Pilot and the Passenger** Leo Marx, 1989 Essays discuss the vernacular tradition the literary view of technology socialist criticism and works by Melville Frost and Twain

**Does Technology Drive History?** Merritt Roe Smith, Leo Marx, 1994-06-02 These thirteen essays explore a crucial historical question that has been notoriously hard to pin down To what extent and by what means does a society's technology determine its political social economic and cultural forms These thirteen essays explore a crucial historical question that has been notoriously hard to pin down To what extent and by what means does a society's technology determine its political social economic and cultural forms Karl Marx launched the modern debate on determinism with his provocative remark that the hand mill gives you society with the feudal lord the steam mill society with the industrial capitalist and a classic article by Robert Heilbroner reprinted here renewed the debate within the context of the history of technology This book clarifies the debate and carries it forward Marx's position has become embedded in our culture in the form of constant reminders as to how our fast changing technologies will alter our lives Yet historians who have looked closely at where technologies really come from generally support the proposition that technologies are not autonomous but are social products susceptible to democratic controls The issue is crucial for democratic theory These essays tackle it head on offering a deep look at all the shadings of determinism and assessing determinist models in a wide variety of historical contexts Contributors Bruce Bimber Richard W Bulliet Robert L Heilbroner Thomas P Hughes Leo Marx Thomas J Misa Peter C Perdue Philip Scranton Merritt Roe Smith Michael L Smith John M Staudenmaier Rosalind Williams

**Literature and Technology** Mark L. Greenberg, Lance Schachterle, 1992 Major authors investigated include Chaucer Blake Romaine Pynchon and Prigogine

**The Self Wired** Lisa Yaszek, 2013-12-16 First Published in 2002 Advanced technologies challenge conventional understandings of the human subject by transforming the body into a conduit between external forces and the internal psyche This title discusses the intense controversy about how to best understand and represent human subjectivity in a technology intensive era Yaszek provides an overview by linking specific modes of identity and agency to engagement with specific manifestations of technology itself

Willa Cather Laura Winters, 1993 Cather's artistic voice speaks for and through the landscapes she loved in life As several critics have noted Cather's mind works by opposition furiously spinning doubles of character experience temperament and place Locating the scenes she imagines in particular places she forces her readers to merge character and place in a way no other American writer has ever done Willa Cather's fiction is also suffused with the notion of exile Her characters often banished from a native or authentic landscape are restless pilgrims who long for home a comforting space a rest from the arduous journey In order to manage the condition of exile Cather's characters must transform secular spaces into sacred places In these sacred places existence suddenly makes sense order is created from chaos as the history of the earth and the history of the individual merge and are reconciled Indeed these sacred places with an aura of resolution and rightness in their very air

bring peace      **The Scandal of Susan Sontag** Barbara Ching, Jennifer A Wagner-Lawlor, 2009-11-03 Susan Sontag 1933-2004 spoke of the promiscuity of art and literature the willingness of great artists and writers to scandalize their spectators through critical frankness complexity and beauty Sontag's life and thought were no less promiscuous She wrote deeply and engagingly about a range of subjects theater sex politics novels torture and illness and courted celebrity and controversy both publicly and privately Throughout her career she not only earned adulation but also provoked scorn Her living was the embodiment of scandal In this collection Terry Castle Nancy K Miller Wayne Koestenbaum E Ann Kaplan and other leading scholars revisit Sontag's groundbreaking life and work Against Interpretation Notes on Camp Letter from Hanoi On Photography Illness as Metaphor I Etcetera and The Volcano Lover these works form the center of essays no less passionate and imaginative than Sontag herself Debating questions raised by the thinker's own images and identities including her sexuality these works question Sontag's status as a female intellectual and her parallel interest in ambitious and prophetic fictional women her ambivalence toward popular culture and her personal and professional scandals Paired with rare photographs and illustrations this timely anthology expands our understanding of Sontag's images and power      **A Companion to Mark Twain** Peter Messent, Louis J. Budd, 2015-08-17 This broad ranging companion brings together respected American and European critics and a number of up and coming scholars to provide an overview of Twain his background his writings and his place in American literary history One of the most broad ranging volumes to appear on Mark Twain in recent years Brings together respected Twain critics and a number of younger scholars in the field to provide an overview of this central figure in American literature Places special emphasis on the ways in which Twain's works remain both relevant and important for a twenty first century audience A concluding essay evaluates the changing landscape of Twain criticism      **Down with the Old Canoe: A Cultural History of the Titanic Disaster (Updated Edition)** Steven Biel, 2012-03-26 Brimming over with wit and insight Fresh and fascinating Dan Rather Everyone from suffragists to their opponents radicals reformers and capitalists critics of technology and modern life racists and xenophobes and champions of racial and ethnic equality editorial writers and folk singers preachers and poets found moral and cultural lessons in the sinking of the Titanic In a new edition that both commemorates the one hundredth anniversary of the disaster and elaborates in a revised afterword on the ship's continued impact on the public imagination evidenced by the Titanic mania evoked by James Cameron's 1997 film Steven Biel explores the Titanic in all its complexity and contradictions      **Men Alone** Jopi Nyman, 2022-02-28 This study examines masculinity and individualism in four American novels of the 1920s and 1930s usually regarded as belonging to the genre of hard boiled fiction The novels under study are Red Harvest by Dashiell Hammett The Postman Always Rings Twice by James M Cain They Shoot Horses Don't They by Horace McCoy and To Have and Have Not by Ernest Hemingway In this first full length study of gender in hard boiled fiction the genre is discussed as a representation of the ideologies of masculinity and individualism Hard boiled fiction is located in its historical and cultural

context and it is argued that the genre with its explicit emphasis on masculinity and masculine virtues attempts to reaffirm a masculine order. The study argues that this emphasis is a counter reaction to more general changes in the gender relations of the period. Indeed, hard-boiled fiction is argued to be an attempt to reconstruct a masculine identity based on anti-modern values generally accepted in the cultural context of the genre. *Fifty Years of Hemingway Criticism* Peter L. Hays, 2013-11-07. This is a collection of essays on the life and work of Ernest Hemingway by noted literary scholar Peter Hays. Collected together for the first time, these essays including seven previously unpublished works look at various aspects of Hemingway as author, man, and literary icon. **Arcadian Waters and Wanton Seas** Arne Neset, 2009. The nineteenth century was the great age of landscape painting in Europe and America. In an era of rapid industrialization and transformation, landscape pictures of natural scenes were what people wanted most to display in their homes. The most popular and marketable pictures often degenerating into kitsch, showed a wilderness with a pond or a lake in which obtrusive signs of industry and civilization had been edited out. Inspired by Romantic ideas of the uniqueness of the nation, pictorial and literary art was supposed to portray the soul of the nation and the spirit of place, a view commonly adopted by cultural and art historians on both sides of the Atlantic. *Arcadian Waters and Wanton Seas* argues that nationalistic or exceptionalist interpretations disregard deep-rooted iconological traditions in transatlantic culture. Depictions and ideas of nature go back to the classical ideas of Arcadia and Eden in which fountains, ponds, lakes, rivers, and finally the sea itself are central elements. Following their European colleagues, American artists typically portrayed the American Arcadia through the classical conventions. *Arcadian Waters and Wanton Seas* adopts the interdisciplinary and comparative methodological perspectives that characterize American studies. The book draws on art history, cultural history, literature, and the study of the production and use of visual images and will serve well as a textbook for courses on American studies or cultural history of the Western world. *Transnationalism and American Literature* Colleen G. Boggs, 2010-05-26. What is transnationalism and how does it affect American literature? This book examines nineteenth-century contexts of transnationalism, translation, and American literature. The discussion of transnationalism largely revolves around the question of what role nationalism plays in the spaces and temporalities of the transatlantic. Boggs demonstrates that the assumption that American literature has become transnational only recently, that there is such a thing as an era of transnationalism, marks a blindness to the intrinsic transatlanticism of American literature. Machine and Metaphor Jennifer Carol Cook, 2007. First Published in 2006. Routledge is an imprint of Taylor & Francis, an informa company. **Pastoral Cosmopolitanism in Edith Wharton's Fiction** Margarida Cadima, 2023-07-11. American novelist Edith Wharton (1862-1937) is best known today for her tales of the city and the experiences of patrician New Yorkers in the Gilded Age. This book pushes against the grain of critical orthodoxy by prioritizing other species of spaces in Wharton's work. For example, how do Wharton's narratives represent the organic profusion of external nature? Does the current scholarly fascination with the environmental humanities reveal previously

unexamined or overlooked facets of Wharton's craft I propose that what is most striking about her narrative practice is how she utilizes adapts and translates pastoral tropes conventions and concerns to twentieth century American actualities It is no accident that Wharton portrays characters returning to or exploring various natural localities such as private gardens public parks chic mountain resorts monumental ruins or country estate follies Such encounters and adventures prompt us to imagine new relationships with various geographies and the lifeforms that can be found there The book addresses a knowledge gap in Wharton and the environmental humanities especially recent debates in ecocriticism The excavation of Wharton's words and the background of her narratives with an eye to offering an ecocritical reading of her work is what the book focuses on

**Perspectives on Percival Everett** Keith B. Mitchell, Robin G. Vander, 2013-01-14 Percival Everett b 1956 writes novels short stories poetry and essays and is one of the most prolific acclaimed yet underexamined African American authors working today Although to date Everett has published eighteen novels three collections of short fiction three poetry collections and one children's book his work has not garnered the critical attention that it deserves Perhaps one of the most vexing problems scholars have had in trying to situate Everett's work is that they have found it difficult to place him and his work within a prescribed African American literary tradition Because he happens to be African American critics have expectations of so called authentic African American fiction however his work often thwarts these expectations In Perspectives on Percival Everett scholars engage all of his creative production On the one hand Everett is an African American novelist On the other hand he pursues subject matters that seemingly have little to do with African American culture The operative word here is seemingly for as these essays demonstrate Everett's works falls well within as well as outside of what most critics would deem the African American literary tradition These essays examine issues of identity authenticity and semiotics in addition to postmodernism and African American and American literary traditions issues essential to understanding his aesthetic and political concerns

**On Highway 61** Dennis McNally, 2015-10-13 On Highway 61 explores the historical context of the significant social dissent that was central to the cultural genesis of the sixties The book is going to search for the deeper roots of American cultural and musical evolution for the past 150 years by studying what the Western European culture learned from African American culture in a historical progression that reaches from the minstrel era to Bob Dylan The book begins with America's first great social critic Henry David Thoreau and his fundamental source of social philosophy his profound commitment to freedom to abolitionism and to African American culture Continuing with Mark Twain through whom we can observe the rise of minstrelsy which he embraced and his subversive satirical masterpiece Huckleberry Finn While familiar the book places them into a newly articulated historical reference that shines new light and reveals a progression that is much greater than the sum of its individual parts As the first post Civil War generation of black Americans came of age they introduced into the national culture a trio of musical forms ragtime blues and jazz that would with their derivations dominate popular music to this day Ragtime introduced syncopation and become

the cutting edge of the modern 20th century with popular dances The blues would combine with syncopation and improvisation and create jazz Maturing at the hands of Louis Armstrong it would soon attract a cluster of young white musicians who came to be known as the Austin High Gang who fell in love with black music and were inspired to play it themselves In the process they developed a liberating respect for the diversity of their city and country which they did not see as exotic but rather as art It was not long before these young white rebels were the masters of American pop music big band Swing As Bop succeeded Swing and Rhythm and Blues followed each had white followers like the Beat writers and the first young rock and rollers Even popular white genres like the country music of Jimmy Rodgers and the Carter Family reflected significant black influence In fact the theoretical separation of American music by race is not accurate This biracial fusion achieved an apotheosis in the early work of Bob Dylan born and raised at the northern end of the same Mississippi River and Highway 61 that had been the birthplace of much of the black music he would study As the book reveals the connection that began with Thoreau and continued for over 100 years was a cultural evolution where at first individuals and then larger portions of society absorbed the culture of those at the absolute bottom of the power structure the slaves and their descendants and realized that they themselves were not free      **Twain's Brand** Judith Yaross Lee,2012-12 A study of what made Mark Twain a pioneer of American comedy today      *The Decline of Nature* Gilbert F. LaFreniere,2012-07

**Prophets of Computing** Dick van Lente,2022-12-14 When electronic digital computers first appeared after World War II they appeared as a revolutionary force Business management the world of work administrative life the nation state and soon enough everyday life were expected to change dramatically with these machines use Ever since diverse prophecies of computing have continually emerged through to the present day As computing spread beyond the US and UK such prophecies emerged from strikingly different economic political and cultural conditions This volume explores how these expectations differed assesses unexpected commonalities and suggests ways to understand the divergences and convergences This book examines thirteen countries based on source material in ten different languages the effort of an international team of scholars In addition to analyses of debates political changes and popular speculations we also show a wide range of pictorial representations of the future with computers      *Reason to Believe* Hephzibah Roskelly,Kate Ronald,1998-01-01 Explores current theories of teaching and demonstrates that English studies can benefit from the work of nineteenth century American romanticism and pragmatism both of which affirm the possibility of growth and development The book argues eloquently for the importance of hope and relies extensively for its theoretical underpinnings on the influential writings of Cornel West and Paulo Freire
