Pine, Stream & Prairie James Gray, 1945 **Pine, stream and prairie** James Gray, 1946 *Global Heartland* Peter Simons, 2025-03-25 Highlighting the critical role of midwestern farmers in the creation of the American Century Though often left out of the story of the making of the American Century the farmers of the Midwest were at its center fueling the nation's growing power in the midtwentieth century In *Global Heartland* Peter Simons explores how after decades of slipping to the margins of an urbanizing economy these farmers assumed renewed strategic and cultural importance as they produced essential sustenance for overseas troops and food rations for a domestic population During the mid 1900s once isolationist midwestern farmers came to see the continental interior not as an insulated space but as an environmentally rich landscape that mandated them to accept a larger stake in global affairs Simons traces this transformation from an older agrarian internationalism rooted in religion and ties to family abroad to illuminate the increasing influence of the U S agricultural community during the Cold War Examining regional political parties Lend Lease programs wartime mass media and farmer led relief programs and interspersing this history with vignettes revisiting the Mercy Wheat campaign of 1947 the postwar International Farm Youth Exchange and the Flying Farmers organization Simons offers an enlightening consideration of midwestern farmers involvement in America's international ascent Unique in its focus on farmers and their work rather than the more common attention to food or agricultural commodities *Global Heartland* complicates and expands ideas of the farm industry's role in American history **Catalog of Information on Water Data**, 1968 Someone To Lend a Helping Hand D. Shenk, 2014-04-08 By providing descriptions of the experiences of thirty rural Minnesota women often in their own words this timely and topical book examines the expectations beliefs and values of the women as they grow old in rural America A lifecourse perspective fosters a better understanding of the aging process in terms of an individual's life experiences within the context of a cultural environment To show how various elements shaped the women's lives in later years and to give the fullest possible descriptions the study combines both qualitative and quantitative research of the rural elderly in Minnesota Through their stories the women stress the cultural familial and personal issues that continue to be important to them as they age They explore the elements of continuity as well as those of change as a part of the lifecourse Also detailed are their insights and experiences concerning interactions with different formal and informal support networks as well as the more general topics **A Life on the Middle West's Never-Ending Frontier** Willard L. Boyd, 2019-05-15 University of Iowa legend Willard L. Sandy Boyd is a proud middle westerner His decades of service to the university began in 1954 when he arrived as a law professor He later became president of the University of Iowa from 1969 to 1981 and led the school through times that were fraught not just for the university but for the country During the intense polarization of the late sixties and early seventies Sandy's compassion and steady leadership ensured that dissent on campus would be honored and would not stop the university's educational mission He quickly became admired not simply for his professional

achievements but also for his personal integrity His memoir interspersed with personal wisdom gleaned over more than six decades of service and leadership encapsulates Sandy s shrewd yet optimistic view of the public university as an institution At every stage in his life in the U S Navy during World War II while practicing law or teaching and in leadership positions at Chicago s Field Museum and the University of Iowa Sandy relied on his principles of open disclosure inclusiveness and respect for differences to guide him on issues that matter This chronicle of Sandy s experiences throughout his life shows us the evolution both of the University of Iowa and of the nation writ large More importantly this book gives us a lens through which to examine our present situation whether debating free speech on campus the role of the arts and humanities in civil society or the importance of funding for educational and cultural institutions *Catalog of Information on Water Data* Geological Survey (U.S.).
