Pinocchio Rubian Writing:

Profanations Giorgio Agamben, 2020-10-20 The Italian philosopher Giorgio Agamben has always been an original reader of texts understanding their many rich and multiple historical aesthetic and political meanings and effects In *Profanations* Agamben has assembled for the first time some of his most pivotal essays on photography the novel and film A meditation on memory and oblivion on what is lost and what remains *Profanations* proves yet again that Agamben is one of the most provocative writers of our times In ten essays Agamben rethinks approaches to a series of literary and philosophical problems the relation between genius ego and theories of subjectivity the problem of messianic time as explicated in both images and lived experience parody as a literary paradigm the potential of magic to provide an ethical canon The range of topics and themes addressed here attest to the very creativity of Agamben's singular mode of thought and his persistent pursuit to grasp the act of witnessing sometimes futile sometimes earth shattering the talking cricket in *Pinocchio* helps in Kafka's novels pictorial representations of the Last Judgment of anonymous female faces and of Orson Wells's infamous object of obsession *Rosebud* In *Praise of Profanity* the central essay of this small but dense book confronts the question of profanity as the crucial political task of the moment An act of resistance to every form of separation the concept of profanation as both the return to common usage and sacrifice reorients perceptions of how power consumption and use interweave to produce an urgent political modality and desire to profane the unprofanable In short Agamben provides not only a new and potent theoretical model but also a writerly style that itself forges inescapable links between literature politics and philosophy
