Why Air Forces Fail Robin Higham,Stephen J. Harris,2006-02-17 According to Robin
Higham and Stephen J Harris Flight has been part of the human dream for aeons and its military application has likely been
the dark side of that dream for almost as long In the twentieth century this dream and its dark side unfolded as the air forces
of the world went to war bringing destruction and reassessment with each failure Why Air Forces Fail examines the complex
often deep seated reasons for the catastrophic failures of the air forces of various nations Higham and Harris divide the air
forces into three categories of defeat forces that never had a chance to win such as Poland and France forces that started out
victorious but were ultimately defeated such as Germany and Japan and finally those that were defeated in their early efforts
yet rose to victory such as the air forces of Britain and the United States The contributing authors examine the complex
causes of defeats of the Russian Polish French British Italian German Argentine and American air services In all cases the
failures stemmed from deep usually prewar factors that were shaped by the political economic military and social

circumstances in the countries Defeat also stemmed from the anticipation of future wars early wartime actions and the precarious relationship between the doctrine of the military leadership and its execution in the field Anthony Christopher Cain s chapter on France s air force l Arm e de l Air attributes France s loss to Germany in June 1940 to a lack of preparation and investment in the air force One major problem was the failure to centralize planning or coordinate a strategy between land and air forces which was compounded by aborted alliances between France and countries in eastern Europe especially Poland and Czechoslovakia In addition the lack of incentives for design innovation in air technologies led to clashes between airplane manufacturers laborers and the government a struggle that resulted in France s airplanes being outnumbered by Germany s more than three to one by 1940 Complemented by reading lists and suggestions for further research Why Air Forces Fail provides groundbreaking studies of the causes of air force defeats **Taranto** David Hobbs,2020-11-30 If you only read one book on the development of the Fleet Air Arm and Naval air warfare in the Mediterranean during World War 2 then this should be it Military Historical Society After the Italian declaration of war in June 1940 the Royal Navy found itself facing a larger and better equipped Italian surface fleet large Italian and German air forces equipped with modern aircraft and both Italian and German submarines Its own aircraft were a critical element of an unprecedented fight on over and under the sea surface The best known action was the crippling of the Italian fleet at Taranto which demonstrated how aircraft carriers and their aircraft had replaced the dominance of battleships but every subsequent operation is covered from the perspective of naval aviation Some of these like Matapan or the defense of the Pedestal convoy to Malta are famous but others in support of land campaigns and in the Aegean after the Italian surrender are less well recorded In all these the ingenuity and innovation of the Fleet Air Arm shines through Taranto pointed the way to what the Japanese would achieve at Pearl Harbor while air cover for the Salerno landings demonstrated the effectiveness of carrier borne fighters in amphibious operations a tactic adopted by the US Navy The author s years of archival research together with his experience as a carrier pilot allow him to describe and analyze the operations of naval aircraft in the Mediterranean with unprecedented authority This provides the book with novel insights into many familiar facets of the Mediterranean war while for the first time doing full justice to the Fleet Air Arm s lesser known achievements A full and fascinating story Clash of Steel **Air University Library Index to Military Periodicals** ,1992 **World Military Leaders** Mark Grossman,2007 Articles profiling important military leaders are arranged in A to Z format *Hutchinson's Pictorial History of the War* ,1942-11
