History And-- Ralph Cohen,Michael S. Roth,1995 Recent trends in the humanities and social sciences have forced on academia what many might call a crisis of history Conventional assumptions about coherence and meaning in history are being challenged by questions concerning the relevance of history and attempts to refigure its content and mode of representation The publication of *History and* appears at a critical moment in our efforts to understand the importance of history as it relates to a wide range of scholarly disciplines History and brings together some of its most thoughtful scholars to better understand not only how our disciplines are connected to professional historiography but how our attempts to understand cultures are connected to our pasts *The Psychology Industry Under a Microscope!* David B. Stein,2012 The Psychology Industry Under a Microscope explores why psychology treatment efficacy rates are so poor why psychological testing is unreliable and why diagnosis is uncertain He also explores the weaknesses inherent in 115 APA accredited doctoral programs and what changes may help improve the effectiveness of the psychology clinician He introduces a cognitive behavioral diagnostic system that is far more cohesive and sensible than the piecemeal and confusing system currently in place This book introduces an easy to understand and innovative visual model that integrates all of clinical psychology and far surpasses any previous attempts at developing models The author also challenges the recent resurgence of the disease model for diagnosis as well as the politics and economics that lie behind its current popularity The reader may feel challenged by this book but will find it difficult to refute its content This thought provoking book is essential for any clinician or teacher *Black & White* Steven Guarnaccia,Susan Hochbaum,2002-03 This gorgeous gift book collects amazing images and examples from mother nature and man made culture from penguins on ice floes to nuns on ice skates Includes hundreds of photos clever commentary and a chic design **The Search for Certainty** W.W.
