Roman Poets in Modern Guise Theodore Ziolkowski, 2020 Identifies and explores Roman modes of poetry as received by twentieth and twenty first century Anglo American German and French poets Ovid and the Moderns Theodore Ziolkowski, 2005 The reasons for the conspicuous popularity of Ovid his life as well as his works at the turn of the new millennium bear investigation This book speaks of the new bodies assumed in the twentieth century by the poems and tales to which Ovid gave their classic form including prominently the account of his own life which has been hailed by many writers of our time as the archetype of exile I intend to suggest some of the reasons for Ovid's appeal to different writers and different generations from the Preface Theodore Ziolkowski approaches Ovid's Latin poetry as a comparatist not as a classicist and maintains that the contextualization of individual works helps place them in a larger tradition Covering the period 1912-2002 Ovid and the Moderns deals with the reception of Ovid and of Ovid's works in literature After beginning with a discussion of Giorgio de Chirico's Ariadne paintings of 1912 and the Hofmannsthal Strauss opera Ariadne auf Naxos Ziolkowski considers European literary landmarks from the High Modernism of Joyce Kafka Mandelstam and Pound by way of the mid century exiles to postmodernism and the century's end when a surge of interest in Ovid was fueled by a new generation of translations One of Ziolkowski's conclusions is that the popularity of Ovid alternates in a regular rhythm and for definable reasons with that of Virgil

Classicism of the Twenties Theodore Ziolkowski, 2015-01-08 This title defines the theory and practice of classicism as practised in the 1920s by a number of composers writers and artists setting it off against other movements of the period that are customarily grouped together under the general heading of modernism It argues that classicism is a more precise term than neo classicism during this period since every classicism from antiquity to the present shares certain common qualities as well as characteristics of its own time

Visual Antisemitism in Central Europe Imagery of Hatred deals with visual manifestations of antisemitism in Central Europe from the Middle Ages to the present day The publication which presents heretofore largely unknown materials seeks responses from diverse perspectives to the question of the role of visuality in the development of antisemitic moods and political agendas that encouraged hatred towards Jews The scope of visual anti Judaism and antisemitism always was and still is very wide from stereotypical depictions that can conceal an underlying message through humorous content to clearly formulated assaults that aim to escalate animosity towards an imaginary collective enemy The goal in both these cases is the exclusion of Jews from the majority society imagined as a monolithic whole and the reification of a dividing line between us and them With its wide thematic and methodological range this book offers a comprehensive image of the phenomenon of visual anti Judaism and antisemitism and provides rich comparative material for the entire Central European region

Spenser and Ovid Syrithe Pugh, 2017-03-02 In *Spenser and Ovid* Syrithe Pugh gives the first sustained account of Ovid's presence in the Spenser canon uncovering new evidence to reveal the thematic and formal debts many of Spenser's poems owe to Ovid particularly when considered in the light of an informed understanding of all of Ovid's work Pugh's reading presents a challenge to New Historicist assumptions as she contests both the traditional insistence on Virgil as Spenser's prime classical model and the idea it has perpetuated of Spenser as Elizabeth I's imperial propagandist In fact Pugh locates Ovid's importance to Spenser precisely in his counter Virgilian world view with its high valuation of faithful love concern for individual freedom distrust of imperial rule and the poet's claim to vatic authority in opposition to political power Her study

spans Spenser's career from the inaugural *Shepheardes Calender* to what was probably his last poem *The Mutabilitie Cantos* and embraces his work in the genres of pastoral love poetry and epic romance
