Picture Tube Imperialism The Impact Of Us Television On Latin America

Thomas F. O'Brien

Picture Tube Imperialism The Impact Of Us Television On Latin America:

Picture-tube Imperialism? Alan Wells,1972 Latin American Television John Sinclair,1998-12-17 Latin American Television makes English speakers aware of the dimensions operation and significance of the globalization of television in the Spanish speaking world Second only in scale to the market for English language programming the Spanish language market embraces not just most nations of South and Central America but also Spain and even the United States the sixth largest Spanish speaking country in the world This intercontinental space is connected physically by satellite communication and culturally by a common language and heritage which binds it as both a geolinguistic region and an imagined community which certain media corporations Latin American and North American seek to exploit A similar phenomenon with regard to Brazil and the Portuguese speaking world is also examined with special attention to its comparable features and points of exchange with the Spanish speaking world The book chronicles and analyses the development and structure of the globalization of these markets as a Latin world Molding the Hearts and Minds John A. Britton,1994 In this work 17 essays by leading scholars examine how education has influenced the history of Latin America from the restricted schools of the early 19th century to today s bureaucracy Latin American Broadcasting Fox de Cardona Fox,1997 The conflicts and compromises that accompanied the introduction and growth of radio and television in Latin America are explored in this comparative historical analysis of the role of foreign influence on Latin American broadcasting Documented are stories of how radio and television broadcasting developed in Argentina Brazil Chile Colombia Mexico Peru Uruguay and Venezuela from the early 20th century to the present **Empire of Pictures** Sönke Kunkel,2015-12-01 In Cold War historiography the 1960s are often described as a decade of mounting diplomatic tensions and international social unrest At the same time they were a period of global media revolution communication satellites compressed time and space television spread around the world and images circulated through print media in expanding ways Examining how U S policymakers exploited these changes this book offers groundbreaking international research into the visual media battles that shaped America s Cold War from West Germany and India to Tanzania and Argentina *Internationalizing "International Communication"* Chin-Chuan Lee,2015-01-13 A critical intervention in international communications in which an array of eminent scholars challenge the Western dominated conceptions of the field *The Encyclopaedia of Educational Media Communications & Technology* NA NA,2015-12-25 Research in Education ,1973 Resources in Education ,1973 **Transnational Enterprises** Krishna Kumar,2019-06-04 This book represents the first attempt to conceptualize the social and cultural impact of transnational enterprises on host nations and to provide empirical and analytical material on the subject Well known social scientists focus on three critical areas social inequalities knowledge systems and lifestyles and values Collectively they advance The Publishers Weekly ,1972 *Global Transformations* David Held,1999 In this book the authors set forth a new model of globalization that lays claims to supersede existing models and then use this model to assess the way the processes of

globalization have operated in different historic periods in respect to political organization military globalization trade finance corporate productivity migration culture and the environment Each of these topics is covered in a chapter which contrasts the contemporary nature of globalization with that of earlier epochs In mapping the shape and political consequences of globalization the authors concentrate on six states in advanced capitalist societies SIACS the United States the United Kingdom Sweden France Germany and Japan For comparative purposes other states particularly those with developing economics are referred to and discussed where relevant The book concludes by systematically describing and assessing contemporary globalization and appraising the implications of globalization for the sovereignty and autonomy of SIACS It also confronts directly the political fatalism that surrounds much discussion of globalization with a normative agenda that elaborates the possibilities for democratizing and civilizing the unfolding global transformation

Consumerism in World History Peter N. Stearns, 2025-02-26 The third edition of *Consumerism in World History* explores the nature of consumerism and its evolution with particular emphasis on the modern consumer revolution and its global scope The book deals with crucial interpretive issues such as whether consumerism is a natural human expression or involves other causes the relationship between consumer apparatus such as shops and advertising and human needs and the interplay between Western and other regional forms of consumerism It covers major historical moments and changes including the consumer revolution in Western society beginning in the 17th century and regional cultural patterns from the 19th century onward This is a substantially revised edition with updated suggested readings rewritten sections on premodern consumerism in agricultural societies and globalization and consumerism and expanded coverage of major regions like India and Latin America This volume is essential reading for all students of world history and will be of great value to those in business history and environmental history

Globalization in World History Peter N. Stearns, 2023-11-03 In this fully revised fourth edition this book treats globalization from several vantage points showing how these help grasp the nature of globalization both in the past and today The revisions include greater attention to the complications of racism after 1500 and nationalism after 1850 further analysis of reactions against globalization after World War I and in the 21st century more discussion of student exchanges and fuller treatment of developments since 2008 including the role of the Covid 19 pandemic in contemporary globalization Four major chronological phases are explored in the centuries after 1000 CE after 1500 after 1850 and since the mid 20th century Discussion of each phase includes relevant debates over the nature and extent of the innovations involved particularly in terms of transportation communications technologies and trade patterns The phase approach also facilitates analysis of the range of interactions enmeshed in globalization beyond trade and migration including disease exchange impacts on culture and consumer tastes and for the modern periods policy coordination and international organizations Finally the book deals with different regional positions and reactions in each of the major phases This includes not only imbalances of power and economic benefit but also regional styles in dealing with the range of global relationships

This volume is essential reading for undergraduate and postgraduate students of world history economic history and political economy

United States Penetration of Brazil Jan Knippers Black,2016-11-11 In this book a foreign affairs analyst takes a hard look at the influence that U S officials and organizations brought to bear between 1960 and 1976 on the armed forces and police large corporations political parties news media and regional development agencies of Brazil *Hollywood Meme* Iain Robert Smith,2016-10-27 Acknowledgements Introduction 1 Tracing The Hollywood Meme Towards a Comparative Model of Transnational Adaptation 2 Hollywood and the Popular Cinema of Turkey 3 Hollywood and the Popular Cinema of the Philippines 4 Hollywood and the Popular Cinema of India Conclusion Bibliography Index *Latin American Journalism* Michael B. Salwen,Bruce Garrison,2013-11-05 Produced to fill a gap in current knowledge about the state of journalism in Latin America this timely book chronicles how recent changes toward democratization and privatization in the region have influenced mass media industries and the practice of journalism Written as a tribute to earlier books about the development and status of Latin American news organizations this text provides a readable overview of journalism in the area Unlike those in previous works these chapters are divided by issues and subject matter instead of by nations and regions Each chapter concludes with a spotlight case study to illustrate the reading material These features along with several easy to follow tables topical examples suitable for class discussions and a variety of sources including original interviews with media professionals all combine to form the most up to date book currently available on this constantly changing subject

Media and Modernity John B. Thompson,2013-07-03 This wide ranging and innovative book develops an original theory of the media and their impact on the modern world from the emergence of printing to the most recent developments in the media industries *Discourse as Cultural Struggle* Shi-xu,2006-11-01 Discourse as Cultural Struggle challenges the cultural imbalance in current research traditions and argues for a culturalist perspective in facilitating better intercultural exchange amidst accelerated processes of globalization It is the first engagement with discourses in non mainstream cultures Covering a wide range of issues in public professional media and intercultural communication the twelve original essays here tackle culturally pressing issues by aligning viewpoints from various geopolitical contexts This is a thought provoking book for scholars and researchers of language and communication studies who seek innovative approaches in their fields of interest Here is a book that takes diversity seriously and lifts it to the level of an epistemic paradigm What we know is culturally constituted and discursively articulated this relativism is converted into an absolutism due to historical power relations and we find ourselves a curious situation in which anything that suggests diversity at fundamental levels of thought becomes a serious theoretical problem This book addresses this absurdity and in the context of globalization the exercise is to be welcomed Jan Blommaert University of London This volume opens up new and innovative perspectives for all interested in discourse analysis cross cultural communication and social change It links and relates approaches which originate more in the West with those stemming from the East Thus a challenging debate is finally made possible which ultimately could and

should lead to more collaborative research and even more importantly to better and mutual understanding Ruth Wodak
Lancaster University This fine volume enters the large field of Discourse Studies by insisting that cultural knowledge of
discourses is essential and thus necessary for our understanding of how discourse shapes human communities and relations
among them It is a rich collection of conceptual and case studies a fine addition to our literatures and worthy of our careful
study Donal Carbaugh University of Massachusetts at Amherst *The Century of U.S. Capitalism in Latin America* Thomas
F. O'Brien, 1999 Traces the development of U S business interests in Latin America from the early 19th century to the present
