O'Brien,2019-02-07 Installed at Plymouth Massachusetts in 1921 to commemorate the tercentenary of the landing of the Pilgrims Cyrus Dallin s statue Massasoit was intended to memorialize the Pokanoket Massasoit leader as a welcoming diplomat and participant in the mythical first Thanksgiving But after the statue s unveiling Massasoit began to move and proliferate in ways one would not expect of generally stationary monuments tethered to place The plaster model was donated to the artist s home state of Utah and prominently displayed in the state capitol half a century later it was caught up in a surprising case of fraud in the fine arts market Versions of the statue now stand on Brigham Young University s campus at an

urban intersection in Kansas City Missouri and in countless homes around the world in the form of souvenir statuettes As Lisa Blee and Jean M O'Brien show in this thought provoking book the surprising story of this monumental statue reveals much about the process of creating commodifying and reinforcing the historical memory of Indigenous people Dallin's statue set alongside the historical memory of the actual Massasoit and his mythic collaboration with the Pilgrims shows otherwise hidden dimensions of American memorial culture an elasticity of historical imagination a tight knit relationship between consumption and commemoration and the twin impulses to sanitize and grapple with the meaning of settler colonialism

Whitney Martinko, 2020-05-15 A detailed study of early historical preservation efforts between the 1780s and the 1850s In Historic Real Estate Whitney Martinko shows how Americans in the fledgling United States pointed to evidence of the past in the world around them and debated whether and how to preserve historic structures as permanent features of the new nation's landscape From Indigenous mounds in the Ohio Valley to Independence Hall in Philadelphia from Benjamin Franklin's childhood home in Boston to St Philip's Episcopal Church in Charleston South Carolina from Dutch colonial manors of the Hudson Valley to Henry Clay's Kentucky estate early advocates of preservation strove not only to place boundaries on competitive real estate markets but also to determine what should not be for sale how consumers should behave and how certain types of labor should be valued Before historic preservation existed as we know it today many Americans articulated eclectic and sometimes contradictory definitions of architectural preservation to work out practical strategies for defining the relationship between public good and private profit In arguing for the preservation of houses of worship and Indigenous

earthworks for example some invoked the public interest of their stewards to strengthen corporate control of these collective spaces Meanwhile businessmen and political partisans adopted preservation of commercial sites to create opportunities for and limits on individual profit in a growing marketplace of goods And owners of old houses and ancestral estates developed methods of preservation to reconcile competing demands for the seclusion of and access to American homes to shape the ways that capitalism affected family economies In these ways individuals harnessed preservation to garner political economic and social profit from the performance of public service Ultimately Martinko argues by portraying the problems of the real estate market as social rather than economic advocates of preservation affirmed a capitalist system of land development by promising to make it moral **Library Literacy Program** ,1993
