**What Do Pictures Want?** W. J. T. Mitchell, 2013-12-23 Why do we have such extraordinarily powerful responses toward the images and pictures we see in everyday life Why do we behave as if pictures were alive possessing the power to influence us to demand things from us to persuade us seduce us or even lead us astray According to W J T Mitchell we need to reckon with images not just as inert objects that convey meaning but as animated beings with desires needs appetites demands and drives of their own *What Do Pictures Want* explores this idea and highlights Mitchell's innovative and profoundly influential thinking on picture theory and the lives and loves of images Ranging across the visual arts literature and mass media Mitchell applies characteristically brilliant and wry analyses to Byzantine icons and cyberpunk films racial stereotypes and public monuments ancient idols and modern clones offensive images and found objects American photography and aboriginal painting Opening new vistas in iconology and the emergent field of visual culture he also considers the importance of Dolly the Sheep who as a clone fulfills the ancient dream of creating a living image and the destruction of the World Trade Center on 9/11 which among other things signifies a new and virulent form of iconoclasm *What Do Pictures Want* offers an immensely rich and suggestive account of the interplay between the visible and the

Jeremy Taylor, 1883 **The Reformation of the Image** Joseph Leo Koerner, 2004-05-03 With his 95 Theses Martin Luther advanced the radical notion that all Christians could enjoy a direct personal relationship with God shattering years of Catholic tradition and obviating the need for intermediaries like priests and saints between the individual believer and God The text of the Bible the Word of God itself Luther argued revealed the only true path to salvation not priestly ritual and saintly iconography But if words not iconic images showed the way to salvation why didn't religious imagery during the Reformation disappear along with indulgences The answer according to Joseph Leo Koerner lies in the paradoxical nature of Protestant religious imagery itself which is at once both iconic and iconoclastic Koerner masterfully demonstrates this point not only with a multitude of Lutheran images many never before published but also with a close reading of a single pivotal

work Lucas Cranach the Elder's altarpiece for the City Church in Wittenberg, Luther's parish. As Koerner shows, Cranach, breaking all the conventions of traditional Catholic iconography, created an entirely new aesthetic for the new Protestant ethos. In the Crucifixion scene of the altarpiece, for instance, Christ is alone and stripped of all his usual attendants: no Virgin Mary, no John the Baptist, no Mary Magdalene, with nothing separating him from Luther preaching the Word and his parishioners. And while the Holy Spirit is nowhere to be seen, representation of the divine being impossible, it is nonetheless dramatically present as the force animating Christ's drapery. According to Koerner, it is this iconoclasm that animates the best Reformation art. Insightful and breathtakingly original, *The Reformation of the Image* compellingly shows how visual art became indispensable to a religious movement built on words.
