Speculative Landscapes Ross Barrett, 2022-08-23 *Speculative Landscapes* offers the first comprehensive account of American artists' financial involvements in and creative responses to the nineteenth-century real estate economy. Examining the dealings of five painters who participated actively in this economy: Daniel Huntington, John Quidor, Eastman Johnson, Martin Johnson Heade, and Winslow Homer, Ross Barrett argues that the experience of property investment exposed artists to new ways of seeing and representing land, inspiring them to develop innovative figural landscape and marine paintings that radically reworked visual conventions. This approach moved beyond just aesthetics, however, and the book traces how artists creatively interrogated the economic, environmental, and cultural dynamics of American real estate capitalism. In doing so, *Speculative Landscapes* reveals how the provocative experience of land investment spurred painters to produce uniquely insightful critiques of the emerging real estate economy, critiques that uncovered its fiscal perils and social costs and imagined spaces outside the regime of private property.

Juan C. Abel, Thomas Harrison Cummings, Wilfred A. French, A. H. Beardsley, 1922 **Mobility and Identity in US Genre Painting** Lacey Baradel, 2020-12-31 This book examines the portrayal of themes of boundary crossing, itinerancy, relocation, and displacement in US genre paintings during the second half of the long nineteenth century, c. 1860-1910. Through four diachronic case studies, the book reveals how the high-stakes politics of mobility and identity during this period informed the production and reception of works of art by Eastman Johnson (1824-1906), Enoch Wood Perry Jr. (1831-1915), Thomas Hovenden (1840-95), and John Sloan (1871-1951). It also complicates art history's canonical understandings of genre painting as a category that seeks to reinforce social hierarchies and emphasize more rooted connections to place by instead privileging portrayals of social flux and geographic instability. The book will be of interest to scholars working in art history, literature, American studies, and cultural geography.
