Picturing Paradise:

Picturing Paradise Elizabeth Edwards, 1995 *Paradise* Robert Colby, 2006 It was more than 150 years ago that Uncle Billy Leonard took refuge from the hellish heat in the shade beneath a Ponderosa pine breathing in relief to his companions Boys this has got to be Paradise Or so the story goes Yet it is no fiction that the settlement grew to be more than just a stop on the way from Oroville or Chico to the gold country Although Paradise was surrounded by mines it had little gold itself Disappointed miners made a living cutting timber working at one of the sawmills or hacking out homesteads in the foothill forests Diamond Match Company built a railroad to its sawmill locating the depot a mile west of town in what was sometimes called New Paradise For generations before houses began to replace its orchards Paradise was an apple growing center home to harvest festivals that are echoed in today s annual Johnny Appleseed Days **Picturing Empire** James R. Ryan, 2013-06-01 Coinciding with the extraordinary expansion of Britain s overseas empire under Queen Victoria the invention of photography allowed millions to see what they thought were realistic and unbiased pictures of distant peoples and places This supposed accuracy also helped to legitimate Victorian geography s illuminations of the darkest recesses of the globe with the light of scientific mapping techniques But as James R Ryan argues in *Picturing Empire* Victorian photographs reveal as much about the imaginative landscapes of imperial culture as they do about the real subjects captured within their frames Ryan considers the role of photography in the exploration and domestication of foreign landscapes in imperial warfare in the survey and classification of racial types in hunting with the camera and in teaching imperial geography to British schoolchildren Ryan s careful exposure of the reciprocal relation between photographic image and imperial imagination will interest all those concerned with the cultural history of the British Empire *Picture Paradise* Gael Newton, National Gallery of Australia, 2008 *Picture Paradise* chronicles the transmission and adoption of new developments in photography from Europe to the Asia Pacific region It is the first survey of the early photography from this diverse region covering India and Sri Lanka Southeast and East Asia Australia New Zealand and the Pacific Islands to the West Coast of North America It includes pioneer local photographers as well as European photographers working in the region and reveals the rich heritage and the many outstanding achievements of the first century of photography in the Asia Pacific region *Picture Paradise* features over seventy photographs and albums ranging from gem like daguerreotype portraits through to the revolution in the mass production of views and portraits on paper made possible by the wet plate and dry plate glass negative positive process and on to the modern era of small format film cameras and photojournalism **Pictures from Paradise** Melanie Archer, Mariel Brown, 2012 *Pictures from Paradise* examines the ways in which contemporary art photography has evolved within the English speaking Caribbean rising beyond depictions of idyllic scenes to tackle more complex social racial political and gender issues Within the past few years regional artists have provided an increasingly searching image of the Caribbean and the people who inhabit it The only publication on contemporary Caribbean

Lal, Doug Munro, 2024-02-29 The second generation of Pacific historians who began their careers in the 1970s and 1980s is gradually fading from the academic scene They have made fundamental contributions to the field of Pacific history enduring in their impact and the identity of the discipline is now firmly established This volume is not so much about their individual research but rather their improbable journeys into Pacific history why and how they came to it in the first place Almost without exception they did not choose Pacific history but rather stumbled into the field through serendipity They came from forays into African Indian East Asian French British imperial and other fields and were enticed into Pacific history through chance or the efforts of kindly mentors All this is evident in the values and understandings they bring to the subject The one commonality that binds them is a love of the islands that have been the center of their lifetime work Many distinguished Pacific historians of the last four to five decades are represented in this collection Serendipity presents fourteen autobiographical chapters in which the contributors trace their paths as Pacific historians They offer their sources of inspiration supporters and publications that shaped them as historians With a significant focus on the importance of teaching and mentoring that they both received and provided their writing not only illuminates their lives but the state of Pacific history as an academic field The experiences of the contributors are moving replete with sorrows and regrets as well as of achievements and satisfactions Part of these careers were spent working in areas other than scholarship such as high school teaching consultancies volunteering teaching
