Piecewise Linear Concordances And Isotopies:

Piecewise Linear Concordances and Isotopies Kenneth C. Millett, 1974 The geometrical techniques in piecewise linear topology are extended to the situation where one has a projection which must be preserved These include general position sunny collapsing and engulfing They are employed to study the relative homotopy groups of the simplicial spaces of concordances and isotopies and consequently give a proof of a parameterized version of Hudson's concordance implies isotopy theorem

Piecewise Linear Topology John F. P. Hudson, 1969 *A Multiple Disjunction Lemma for Smooth Concordance Embeddings* Thomas Gehret Goodwillie, 1990 Requiring background in basic differential topology this book is aimed at researchers interested in the homotopy type of spaces of smooth embeddings and spaces of diffeomorphisms The author provides a proof of a useful connectivity estimate in the theory of concordances or pseudo isotopies generalizing Morlet's result from triads to n -ads The method of proof is a differentiable general position technique analogous to piecewise linear sunny collapsing
