Piedras Negras Archaeology 1931-1939:

Piedras Negras Archaeology, 1931-1939 Linton Satterthwaite, Mary Butler, John Alden Mason, 2005-03-04 Situated on the banks of the Usumacinta River in northwestern Guatemala Piedras Negras is an important Maya site known for its carved monuments and panels Between 1931 and 1938 the University Museum conducted research at Piedras Negras excavating the site core producing an excellent site map and documenting architectural developments to an unprecedented standard Project member Tatiana Proskouriakoff revolutionized Maya historiography with her architectural reconstructions and visionary synthesis of the position and dating of texts and monuments at the site Innovative excavation methods included test pitting probing in more modest structures and the identification of new building types such as sweat baths More importantly the Piedras Negras project developed the logistical and methodological criteria that are now standard in the field Fewer than a dozen copies of the preliminary papers were issued between 1933 and 1936 the later descriptive and interpretive essays of the architecture series have likewise become rare Piedras Negras Archaeology 1931-1939 reintroduces to the scholarly community and public these pioneering works meticulously scanned and edited from the fragile originals with all the maps tables line art and photographs from the initial reports and an interpretive essay and index for modern readers University Museum Monograph 122 **Engaging Ancient Maya Sculpture at Piedras Negras, Guatemala** Megan E.

O'Neil, 2014-02-25 Now shrouded in Guatemalan jungle the ancient Maya city of Piedras Negras flourished between the sixth and ninth centuries when its rulers erected monumental limestone sculptures carved with hieroglyphic texts and images of themselves and family members advisers and captives In *Engaging Ancient Maya Sculpture at Piedras Negras Guatemala* Megan E. O'Neil offers new ways to understand these stelae altars and panels by exploring how ancient Maya people interacted with them These monuments considered sacred were one of the community's important forms of cultural and religious expression Stelae may have held the essence of rulers they commemorated and the objects remained loci for reverence of those rulers after they died Using a variety of evidence O'Neil examines how the forms compositions and contexts of the sculptures invited people to engage with them and the figures they embodied looks at these monuments not as inert bearers of images but as palpable presences that existed in real space at specific historical moments Her analysis brings to the fore the material and affective force of these powerful objects that were seen touched and manipulated in the past O'Neil investigates the monuments not only at the moment of their creation but also in later years and shows how they changed over time She argues that the relationships among sculptures of different generations were performed in processions through which ancient Maya people integrated historical dialogues and ancestral commemoration into the landscape With the help of more than 160 illustrations O'Neil reveals these sculptures continuing life histories which in the past century have included their fragmentation and transformation into commodities sold on the international art market Shedding light on modern day transposition and display of these ancient monuments O'Neil's study contributes to ongoing

discussions of cultural patrimony **Stone Trees Transplanted? Central Mexican Stelae of the Epiclassic and Early Postclassic and the Question of Maya 'Influence'** Keith Jordan, 2014-10-10 Stelae dating to the Epiclassic and Early Postclassic from Tula Xochicalco and other sites in Central Mexico have been cited as evidence of Classic Maya influence on Central Mexican art during these periods This book re evaluates these claims via detailed comparative analysis of the Central Mexican stelae and their claimed Maya counterparts **Ritual, Violence, and the Fall of the Classic Maya Kings** Gyles Iannone, Brett A. Houk, Sonja A. Schwake, 2018-11-05

Maya kings who failed to ensure the prosperity of their kingdoms were subject to various forms of termination including the ritual defacing and destruction of monuments and even violent death This is the first comprehensive volume to focus on the varied responses to the failure of Classic period dynasties in the southern lowlands The contributors offer new insights into the Maya collapse evaluating the trope of the scapegoat king and the demise of the traditional institution of kingship in the early ninth century AD a time of intense environmental economic social political and even ideological change A volume in the series Maya Studies edited by Diane Z Chase and Arlen F Chase

Tikal David L. Lentz, Nicholas P. Dunning, Vernon L. Scarborough, 2015-02-23 The primary theoretical question addressed in this book focuses on the lingering concern of how the ancient Maya in the northern Pet n Basin were able to sustain large populations in the midst of a tropical forest environment during the Late Classic period This book asks how agricultural intensification was achieved and how essential resources such as water and forest products were managed in both upland areas and seasonal wetlands or bajos All of these activities were essential components of an initially sustainable land use strategy that eventually failed to meet the demands of an escalating population This spiraling disconnect with sound ecological principles undoubtedly contributed to the Maya collapse The book s findings provide insights that broaden the understanding of the rise of social complexity the expansion of the political economy specifically and in general terms the trajectory of cultural evolution of the ancient Maya civilization *Human Adaptation in Ancient Mesoamerica* Nancy Gonlin, Kirk D. French, 2015-12-01 This volume explores the dynamics of human adaptation to social political ideological economic and environmental factors in Mesoamerica and includes a wide array of topics such as the hydrological engineering behind Teotihuacan s layout the complexities of agriculture and sustainability in the Maya lowlands and the nuanced history of abandonment among different lineages and households in Maya centers The authors aptly demonstrate how culture is the mechanism that allows people to adapt to a changing world and they address how ecological factors particularly land and water intersect with nonmaterial and material manifestations of cultural complexity Contributors further illustrate the continuing utility of the cultural ecological perspective in framing research on adaptations of ancient civilizations This book celebrates the work of Dr David Webster an influential Penn State archaeologist and anthropologist of the Maya region and highlights human adaptation in Mesoamerica through the scientific lenses of anthropological archaeology and cultural ecology Contributors include Elliot M Abrams Christopher J Duffy Susan Toby Evans Kirk D French AnnCorinne Freter Nancy

Archaeology's Visual Culture Roger Balm, 2015-12-14 Archaeology's Visual Culture explores archaeology through the lens of visual culture theory The insistent visuality of archaeology is a key stimulus for the imaginative and creative interpretation of our encounters with the past Balm investigates the nature of this projection of the visual revealing an embedded subjectivity in the imagery of archaeology and acknowledging the multiplicity of meanings that cohere around artifacts archaeological sites and museum displays Using a wide range of case studies the book highlights how archaeologists can view objects and the consequences that ensue from these ways of seeing Throughout the book Balm considers the potential for documentary images and visual material held in archives to perform cultural work within and between groups of specialists With primary sources ranging from the mid nineteenth to the early twenty first century this volume also maps the intellectual and social connections between archaeologists and their peers Geographical settings include Britain Cyprus Mesoamerica the Middle East and the United States and the sites of visual encounter are no less diverse ranging from excavation reports in salvage archaeology to instrumentally derived data sets and remote sensing imagery By forensically examining selected visual records from published accounts and archival sources enduring tropes of representation become apparent that transcend issues of style and reflect fundamental visual sensibilities within the discipline of archaeology

The Monuments of Piedras Negras, an Ancient Maya City Flora S. Clancy, 2009 The stunning imagery created at Piedras Negras was produced for cultural and ceremonial purposes but Maya expert Clancy argues that its enduring artistic value cannot be ignored

The Bioarchaeology of Socio-Sexual Lives Pamela L. Geller, 2016-07-28 This volume uses bioarchaeological remains to examine the complexities and diversity of past socio sexual lives This book does not begin with the presumption that certain aspects of sex gender and sexuality are universal and longstanding Rather the case studies within extend from Neolithic Europe to pre Columbian Mesoamerica to the nineteenth century United States highlight the importance of culturally and historically contextualizing socio sexual beliefs and practices The Bioarchaeology of Socio Sexual Lives highlights a major shortcoming in many scholarly and popular presentations of past socio sexual lives They reveal little about the ancient or historic group under study and much about Western society's modern state of heteronormative affairs To interrogate commonsensical thinking about socio sexual identities and interactions this volume draws from critical feminist and queer studies Reciprocally bioarchaeological studies extend social theorizing about sex gender and sexuality that emphasizes the modern conceptual and discursive Ultimately The Bioarchaeology of Socio Sexual Lives invites readers to think more deeply about humanity's diversity the naturalization of culture and the past's presentation in mass media communications

Substance of the Ancient Maya Andrew K. Scherer, Thomas G. Garrison, 2024-12-01
Substance of the Ancient Maya Kingdoms and Communities Objects and Beings collects twelve essays by top scholars that

highlight what is new in research pertaining to the ancient Maya. Subjects range from updated political histories of major kingdoms in the southern Maya Lowlands to explorations of the nature of Maya writing and materiality. These essays were inspired by the scholarship of Stephen Houston and celebrate his transdisciplinary commitment to research in anthropological archaeology, epigraphy, and art history. The contributions in this volume are organized into two sections that respectively reflect different scales from which to approach the substance of the ancient Maya: from hand-held objects to entire kingdoms. This dichotomy reflects the breadth of questions central to current research on the Maya. It also illustrates how certain themes, such as the relationship between the living and the realm of the supernatural, are fundamental to both thinking by and about the Maya at all scales. A diversity of methods is not only embodied by this assemblage of essays but is also spread equally across the two sections of the book, illustrating that archaeologists, epigraphers, geographers, and art historians can equally contribute to the substance of kingdoms and communities as they can to objects and beings. Collectively, these contributions show how the objects and beings that composed the Classic Maya world were both literal and sacred substances that mediated relations not only among living people but with gods and ancestors. A final chapter by Stephen Houston reflects on unfinished projects of the ancient Maya as a metaphor for all of the work yet to be done to move forward in our studies of the past.

A Maya Universe in Stone Stephen Houston, 2021-12-28. The first study devoted to a single sculptor in ancient America as understood through four unprovenanced masterworks traced to a small sector of Guatemala. In 1950, Dana Lamb, an explorer of some notoriety, stumbled on a Maya ruin in the tropical forests of

northern Guatemala Lamb failed to record the location of the site he called Laxtunich turning his find into the mystery at the center of this book The lintels he discovered there long since looted are probably of a set with two others that are among the masterworks of Maya sculpture from the Classic period Using fieldwork physical evidence and Lamb s expedition notes the authors identify a small area with archaeological sites where the carvings were likely produced Remarkably the vividly colored lintels replete with dynastic and cosmic information can be assigned to a carver Mayuy who sculpted his name on two of them To an extent nearly unique in ancient America Mayuy can be studied over time as his style developed and his artistic ambition grew An in depth analysis of Laxtunich Lintel 1 examines how Mayuy grafted celestial seasonal and divine identities onto a local magnate and his overlord from the kingdom of Yaxchilan Mexico This volume contextualizes the lintels and points the way to their reprovencance and as an ultimate aim repatriation to Guatemala

"Striking Images, Iconoclasm Past and Present " Stacy Boldrick,2017-07-05 All cultures make and break images Striking Images Iconoclasm Past and Present explores how and why people have made and modified images and other cultural material from pre history into the 21st century With its impressive chronological sweep and disciplinary breadth this is the first book about iconoclasm the breaking of images and the transformation of broader sets of signs that includes contributions from archaeologists curators and museum conservators as well as historians of art literature and religious studies The chapters examine themes critical to the study of iconoclasm violence punishment memory intentionality ruins and relics and their survival The conclusion shows how cross disciplinary debate amongst the contributors informed Tate Britain s Art under Attack exhibition 2013 and addresses the challenges iconoclasm presents to the modern museum By juxtaposing objects and places usually considered in isolation Striking Images raises provocative questions about our understandings of cross cultural differences and the value of representational objects from the broken swords of pre historical bog graves to the Bamiyan Buddhas and contemporary art Are any such objects ever finished or are they simply subject to constant transformation In dialogue with each other the essays consider this question and expand the field of iconoclasm and cultural studies

An Inconstant Landscape Thomas G. Garrison,Stephen Houston,2019-01-15 Presenting the results of six years of archaeological survey and excavation in and around the Maya kingdom of El Zotz An Inconstant Landscape paints a complex picture of a dynamic landscape over the course of almost 2 000 years of occupation El Zotz was a dynastic seat of the Classic period in Guatemala Located between the renowned sites of Tikal and El Per Waka it existed as a small kingdom with powerful neighbors and serves today as a test case of political debility and strength during the height of dynastic struggles among the Classic Maya In this volume contributors address the challenges faced by smaller polities on the peripheries of powerful kingdoms and ask how subordination was experienced and independent policy asserted Leading experts provide cutting edge analysis in varied topics and detailed discussion of the development of this major site and the region more broadly The first half of the volume contains a historical narrative of the cultural sequence of El Zotz tracing the changes in

occupation and landscape use across time the second half provides deep technical analyses of material evidence including soils ceramics stone tools and bone The ever changing inconstant landscapes of peripheral kingdoms like El Zotz reveal much about their more dominant and better known neighbors An Inconstant Landscape offers a comprehensive multidisciplinary view of this important but under studied site an essential context for the study of the Classic Maya in Guatemala and a premier reference on the subject of peripheral kingdoms at the height of Maya civilization Contributors Timothy Beach Nicholas Carter Ewa Czapiewska Halliday Alyce de Carteret William Delgado Colin Doyle James Doyle Laura Gomez Jose Luis Garrido Lopez Yeny Myshell Gutierrez Castillo Zachary Hruby Melanie Kingsley Sheryl Luzzadder Beach Cassandra Mesick Braun Sarah Newman Rony Piedrasanta Edwin Román and Andrew K Scherer **Historical Dictionary of Mesoamerica** Walter Robert Thurmond Witschey, Clifford T. Brown, 2012 Mesoamerica is one of six major areas of the world where humans independently changed their culture from a nomadic hunter gatherer lifestyle into settled communities cities and civilization In addition to China twice the Indus Valley the Fertile Crescent of southwest Asia Egypt and Peru Mesoamerica was home to exciting and irreversible changes in human culture called the Neolithic Revolution The changes included domestication of plants and animals leading to agriculture husbandry and eventually sedentary village life These developments set the stage for the growth of cities social stratification craft specialization warfare writing mathematics and astronomy or what we call the rise of civilization These changes forever transformed humankind The Historical Dictionary of Mesoamerica covers the history of Mesoamerica through a chronology an introductory essay an extensive bibliography and over 900 cross referenced dictionary entries covering the major peoples places ideas and events related to Mesoamerica This book is an excellent access point for students researchers and anyone wanting to know more about Mesoamerica Cultural Negotiations David L. Browman, 2020-02-17 This meticulously researched reference work documents the role of women who contributed to the development of Americanist archaeology from 1865 to 1940 Between the Civil War and World War II many women went into anthropology and archaeology fields that at the beginning of this period welcomed and made room for amateurs of both genders But over time the increasingly professional structure of these fields diminished or even obscured the contributions of women due to their lack of access to prestigious academic employment and publishing opportunities As a result a woman archaeologist during this period often published her research under her husband's name or as a junior author with her husband In Cultural Negotiations archaeologist David L Browman has scoured the archaeological literature and archival records of several institutions to bring the stories of more than two hundred women in Americanist archaeology to light through detailed biographies that discuss their contributions and publications This work highlights how the social and cultural construction of archaeology as a field marginalized women and will serve as an invaluable reference to those researchers who continue to uncover the history of women in the sciences Encyclopedia of the Ancient Maya Walter R. T. Witschey, 2015-12-24 Encyclopedia of the Ancient Maya provides an A to Z overview of the ancient Maya culture from its
