Burton, 1879 **The Literary Market** Geoffrey Turnovsky, 2011-07-07 A central theme in the history of Old Regime authorship highlights the opportunities offered by a growing book trade to writers seeking to free themselves from patrons and live by the pen Accounts of this passage from patronage to market have explored in far greater detail the opportunities themselves the rising sums paid by publishers and the progression of laws protecting literary property than how and why writers would have seized on them no doubt because the choice to do so has seemed an obvious or natural one for writers assumed to prefer economic self sufficiency over elite protection In *The Literary Market* Geoffrey Turnovsky claims that there was nothing obvious or natural about the choice Writers had been involved in commercial book publication since the earliest days of the printing press yet had not necessarily linked these activities with their freedom to think and write The association of autonomy and professionalism was forged not given Analyzing the literary market as a key articulation of the association Turnovsky explores how in eighteenth century polemics a rhetoric of commercial authorship came to signify independence for intellectuals He finds the roots of the connection not in the claims of entrepreneurial writers to rights and income but in a world to which that of the modern author has been contrasted the aristocratic culture of the seventeenth century Aristocratic culture he argues generated a disparaging view of the professional author as one defined by activities tainting him or her as greedy and arrogant and therefore unworthy of protection and socially isolated *The Literary Market* examines the story of the birth of the author in terms of the revalorization of this negative trope in Enlightenment era debates about the radically changing role of writers in society *Absolutism and the Scientific Revolution, 1600-1720* Christopher Baker, 2002-09-30 This book the sixth volume in *The Great Cultural Eras of the Western World* series provides information on more than 400 individuals who created and played a role in the era s intellectual and cultural activity The book s focus is on cultural figures those whose inventions and discoveries contributed to the scientific revolution those whose line of reasoning contributed to secularism groundbreaking artists like Rembrandt lesser known painters and contributors to

art and music As the momentum of the Renaissance peaked in 1600 the Western World was poised to move from the Early Modern to the Modern Era The Thirty Years War ended in 1648 and religion was no longer a cause for military conflict Europe grew more secularized Organized scientific research led to groundbreaking discoveries such as the earth's magnetic field Kepler's first two laws of motion and the slide rule In the arts Baroque painting music and literature evolved A new Europe was emerging This book is a useful basic reference for students and laymen with entries specifically designed for ready reference

**Revisiting Revenge Tragedy** Adam Hansen, Marco Prandoni, Cornelis van der Haven, 2024-12-02 Revisiting Revenge Tragedy explores one of the most popular and influential genres of early modern theatre Revenge tragedies resonated with audiences and authors because of their explicit and often horrific depictions of political instability religious violence and affective distress In innovative and provocative ways this book situates the political religious and affective dimensions of such plays within the transnational dynamics of their inception and dissemination across a conflicted Europe raising questions for us now about authority tyranny and justice Moreover detailed case studies demonstrate how depicting revenge questioned or evinced sometimes radical sexual cultural and political identities and positions Contributors include Karoline Johanna Baumann Sarah I Fengler Anne Graham Adam Hansen Tom Laureys Vanessa Lim Marco Prandoni Cornelis van der Haven Tim Vergeer Helen Watanabe O Kelly and Dinah Wouters

**Women on Stage in Stuart Drama** Sophie Tomlinson, 2005 Publisher description

[Racine's Roman Tragedies](#), 2022-01-17 In two of his most famous plays Britannicus and Bérénice Racine depicts the tragedies of characters trapped by the ideals desires and cruelties of ancient Rome This international collection of essays deploys cutting edge research to illuminate the plays and their contexts For Racine Rome is more than a location it is a set of values and traditions a space of opportunity and oppression The contributors to this volume examine Racine's stagecraft his exploration of time and space sound and silence and the ways in which he develops his own distinctive understanding of tragedy The reception of his plays by contemporaries and subsequent generations also features In Racine's hands Rome becomes a state of mind haunted by both past and future This book's dedicatee Richard Parish passed away on January 1st 2022 just before publication We would like to dedicate this collection of essays to his memory

**Imagery and Ideology** William J. Berg, 2007 Literature is ostensibly a sequential and thus temporal medium and painting a static and spatial one yet writers like George Sand and Emile Zola have attempted repeatedly to represent visual and spatial phenomena in literary texts just as painters like Eugene Delacroix and Claude Monet have sought consistently to capture effects of time and movement on canvas The incorporation of elements from one

artistic medium into another creates a dynamic interplay of image and ideology both between art forms and within individual texts and paintings which constitutes the crux of this book Each chapter involves the detailed analysis of a text and a painting related through topic theme and technique By juxtaposing the works of ten major writers and ten painters of comparable stature the book explores the various modalities and layers of meaning in nineteenth century French art both verbal and visual and proposes ways of reading the ambivalent artifacts of modernity

Illustrated Imagining Contagion in Early Modern Europe Claire L. Carlin, 2005-10-14 The ideological underpinnings of early modern theories of contagion are dissected in this volume by an integrated team of literary scholars cultural historians historians of medicine and art historians Even today the spread of disease inspires moralizing discourse and the ostracism of groups thought responsible for contagion the fear of illness and the desire to make sense of it are demonstrated in the current preoccupation with HIV SARS mad cow disease West Nile virus and avian flu to cite but a few contemporary examples

Imagining Contagion in Early Modern Europe explores the nature of understanding when humanity is faced with threats to its well being if not to its very survival

Seventeenth-Century French Writers Françoise Jaouën, 2003 Essays on French writers of the seventeenth century or Classical century What best defines the literature of this period are political order and the growing awareness of literature as a separate domain in need of rules and regulations Discusses the political turmoil during this period as well as the Reformation and the Counter Reformation encouraging research on ancient texts methods of research and the standardization of the French language

Revisiting the Jewish Question Elisabeth Roudinesco, 2014-03-10 What does it mean to be Jewish What is an anti Semite Why does the enigmatic identity of the men who founded the first monotheistic religion arouse such passions We need to return to the Jewish question We need first to distinguish between the anti Judaism of medieval times which persecuted the Jews and the anti Judaism of the Enlightenment which emancipated them while being critical of their religion It is a mistake to confuse the two and see everyone from Voltaire to Hitler as anti Semitic in the same way Then we need to focus on the development of anti Semitism in Europe especially Vienna and Paris where the Zionist idea was born Finally we need to investigate the reception of Zionism both in the Arab countries and within the Diaspora

Re examining the Jewish question in the light of these distinctions and investigations Roudinesco shows that there is a permanent tension between the figures of the universal Jew and the territorial Jew Freud and Jung split partly over this issue which gained added intensity after the creation of the State of Israel in 1948 and the Eichmann trial in 1961 Finally Roudinesco turns to the Holocaust deniers who started to suggest that the Jews had invented the genocide that befell their people and to the increasing number of intellectual and literary figures who have been accused of anti Semitism This thorough re examination of the Jewish question will be of interest to students and scholars of modern history and contemporary thought and to a wide readership interested in anti Semitism and the history of the Jews

**Jacques-Louis David** Jacques Louis David, 2006 Well known specialists in art history gender studies French literature and aesthetics

address a wide range of issues and problems pertaining to the intersection of art and culture that have profound implications for artistic and historical developments in late eighteenth and early nineteenth century France and Europe The essays present new historical archival and interpretative material from diverse methodological vantage points in clear and lucid prose that makes the volume particularly accessible to a broader public interested in learning more about the artist and his time The text is complemented by seventeen black and white plates and fifty five figures Jacket     **Intersections** North American Society for Seventeenth-Century French Literature. Menippean Satire Reconsidered Howard D. Weinbrot, 2005-11-16 Publisher description     **French Education** Ralph Albanese, Mortimer Guiney, 2008-01-01 The major changes in French linguistic and literary education are intimately linked to the debate over French cultural identity Addressing that topic from a range of disciplinary perspectives this commemorative volume on French education in France in the ex colonies and in America aims to sensitize scholars of French studies to unexplored aspects of the institutional history of our discipline BOOK JACKET     *Corneille's Irony* Nina C.
