Catalogue of the Library of the U. S. Military Academy, West Point, N.Y.. United States Military Academy. Library, 1853 Milieux de Mémoire in Late Modernity Zuzanna Bogumil, Malgorzata Glowacka-Grajper, 2019 This book shows how vernacular communities commemorate their traumatic experiences of World War II It draws on four case studies Kalk w God w Michni w Jedwabne and Markowa to argue that it is still possible in the Polish countryside to discover milieux de m moire The state also uses local histories to bolster its moral capital **Patrons, Brokers, and Clients in Seventeenth-Century France** Sharon Kettering, 1986-06-12 A bold new study of politics and power in 17th century France this book argues that the French Crown centralized its power nationally by changing the way it delegated its royal patronage in the provinces During this period the royal government of Paris gradually extended its sphere of control by taking power away from the powerful and potentially disloyal provincial governors and nobility and instead putting it in the hands of provincial power brokers regional notables who cooperated with the Paris ministers in exchange for their patronage The new alliances between the Crown s ministers and loyal provincial elites functioned as political machines on behalf of the Crown leading to smoother regional national cooperation and foreshadowing the bureaucratic state that was to follow

Bulletin Cincinnati (Ohio), Public Library, 1886 **Julien-David Leroy and the Making of Architectural History** Christopher Drew Armstrong, 2013-04-15 This book examines the career and publications of the French architect Julien David Leroy 1724 1803 and his impact on architectural theory and pedagogy Despite not leaving any built work Leroy is a major international figure of eighteenth century architectural theory and culture Considering the place that Leroy occupied in various intellectual circles of the Enlightenment and Revolutionary period this book examines the sources for his ideas about architectural history and theory and defines his impact on subsequent architectural thought This book will be of key interest to graduate students and scholars of Enlightenment era architectural history *Outlines of the History of France from the Earliest Times to the Outbreak of the Revolution* Gustave Masson, M. Guizot, Robert Black, 2024-05-02 Reprint of the original first published in 1881 **Outlines of the History of France from the Earliest Times to the Outbreak of the Revolution** Guizot (M., François), 1882 **Local Politics in the French Wars of Religion** Mark W. Konnert, 2017-05-15 Drawing on the municipal archives of eleven French provincial towns as well as other related sources this book explores the links between local and national politics during the Wars of Religion of the later sixteenth century It argues that the response

of the French towns to the challenge of heresy and later the Catholic League was conditioned by local circumstances Whilst previous work has been published on the urban dimensions to the Wars of Religion few studies provide a study of an entire province allowing as this book does the opportunity to explicitly compare several towns After a detailed topographical introduction placing in context the towns of the region and describing their differing urban constitutions the following chapters deal with the crisis points of the Wars of Religion This book sits squarely in the forefront of one of the dominant themes in the historiography of early modern France the importance of the local community and local elites in political structures and political life As such it will prove fruitful reading for all scholars with an interest in early modern French urban and political culture Mémoires-journaux de Pierre de L'Estoile: 1610-1611. 1883 Pierre de L'Estoile,1889
