Pietro Testa, 1612-1650 Elizabeth Cropper, Charles Dempsey, 1988 Shown at the Philadelphia Museum of Art November 5 December 31 1988 and the Arthur M Sackler Museum Harvard University Art Museums Cambridge January 21 March 19 1989 T p verso **Pietro Testa, 1612-1650** E. Cropper, Philadelphia Museum of Art, *Prints and Printmaking* Antony Griffiths, 1996 Introductory text that touches on the basics of various printmaking techniques and briefly describes the history of each The Artist as Reader Heiko Damm, Michael Thimann, Claus Zittel, 2012-12-07 Based on the history of knowledge the contributions to this volume elucidate various aspects of how in the early modern period artists education knowledge reading and libraries were related to the ways in which they presented themselves Mariette and the Science of the Connoisseur in Eighteenth-Century Europe Kristel Smentek, 2017-07-05 Celebrated connoisseur drawings collector print dealer book publisher and authority on the art of antiquity Pierre Jean Mariette 1694 1774 was a pivotal figure in the eighteenth century European art world Focusing on the trajectory of Mariette s career this book examines the material practices and social networks through which connoisseurs forged the idea of art as an object of empirical and historical analysis Drawing on significant unpublished archival material as well as on histories of science publishing collecting and display this book shows how Mariette and his colleagues practices of classification and interpretation of the graphic arts gave rise to new conceptions of artistic authorship and to a history of art that transcended the biographies of individual artists To follow Mariette s career through the eighteenth century is to see that art was consolidated as a specialized category of intellectual inquiry and that style emerged as its structuring analytic device in the overlapping spaces of the collector s cabinet the connoisseur s portfolio and the dealer s shop **The Fountain of Latona** Thomas F. Hedin, 2022-07-12 Ovid tells the story of Latona the mother by Jupiter of Apollo and Diana In her flight from the jealous Juno she arrives faint and parched on the coast of Asia Minor Kneeling to sip from a pond Latona is met by the local peasants who not only deny her effort but muddy the water in pure malice Enraged Latona calls a curse down upon the stingy peasants turning them to frogs In his masterful study Thomas F Hedin reveals how and why a fountain of this strange legend was installed in the heart of Versailles in the 1660s the inaugural decade of Louis XIV s patronage there The natural supply of water was scarce and unwieldy and it took the genius of the king s hydraulic engineers working in partnership with the landscape architect Andr Le N tre to exploit it If Ovid s peasants were punished for their stubborn denial of water so too the obstacles of coarse nature at Versailles were conquered the aquatic iconography of the fountain was equivalent to the aquatic reality of the gardens Latona was designed by Charles Le Brun the most powerful artist at the court of Louis XIV and carried out by Gaspard and Balthazar Marsy The 1660s were rich in artistic theory in France and the artists of the fountain delivered substantial lectures at the Acad mie royale de peinture et de sculpture on subjects of central concern to their current work What they professed was what they were visualizing in the gardens As such the fountain is an insider s guide to the leading artistic ideals of the

moment Louis XIV was viewed as the reincarnation of Apollo the god of creativity the inspiration of artists and scientists Hedin's original argument is that Latona was a double declaration a glorification of the king and a proud manifesto by artists
