Cheer,Xosé Manuel Santos,2023-04-25 This book delves into topics on pilgrimage travel and communities from a variety of
perspectives through academic research based on the Middle East Northeast Asia the Indian subcontinent and Europe where
sacred sites have become of great importance for both international and domestic tourism In particular Europe and Asia
possess a high volume of world renowned pilgrimage sites that are currently being developed as tourism destinations in their
respective countries such as Santiago de Compostela Spain Lourdes France and Koyasan Japan This book includes studies on
these two continents that harbor both a great history of pilgrimage tradition as well as tourism development related to
religious travel The book importantly covers the role of the community in religious tourism as well as the impact on the locals
which is comparatively an unexplored area Whilst pilgrimage is seen as an effective tool to revitalize local economies this
book also reveals the different challenges to achieving this goal Realizing the importance of the interrelationship of
community and pilgrimage travel as well as the lack of studies on it this book seeks to address this research gap through 14
chapters divided into two parts Communities and Constestation and Pilgrimage Shaping Communities To ensure diverse
perspectives case studies from different Eurasian countries written by authors with expertise in the study of pilgrimage and
religious travel are included Readers can expect to gain new perspectives by having a deeper comprehension of the
community side of pilgrimage travel in Eurasia and thus an integral understanding of contemporary pilgrimage **Writing**
