officially recognized or condemned by power brokers Rich in case studies from sacred centers throughout the world the contributions pay close attention to the ways in which pilgrims central authorities site managers locals and other stakeholders on the ground appropriate negotiate shape contest or circumvent the powerful forces of the sacred Delving beyond the officially sacred this collective examination of pilgrimages both well established and new religious and secular authorized and not presents a compelling look at the interplay of secular powers and the transcendent forces of the sacred at these hyper meaningful sites Providing a blueprint for how work in the anthropology and geography of religion and the fields of pilgrimage and religious tourism may move forward Pilgrimage beyond the Officially Sacred will be of great interest to an interdisciplinary field of scholars The chapters were originally published as a special issue in *Tourism Geographies*
