**Documentary Culture and the Making of Medieval English Literature** Emily Steiner, 2003-05-29 Emily Steiner describes the rich intersections between legal documents and English literature in the fourteenth and fifteenth centuries She argues that documentary culture including charters testaments patents and seals enabled writers to think in new ways about the conditions of textual production in late medieval England

**Lydgate Matters** L. Cooper, A. Denny-Brown, 2007-12-25 This collection re evaluates the work of fifteenth century poet John Lydgate in light of medieval material culture Top scholars in the field unite here with critical newcomers to offer fresh perspectives on the function of poetry on the cusp of the modern age and in particular on the way that poetry speaks to the heightened relevance of material goods and possessions to the formation of late medieval identity and literary taste Advancing in provocative ways the emerging fields of fifteenth century literary and cultural study the volume as a whole explores the role of the aesthetic not only in late medieval society but also in our own

inwardness and the idea of truth within along with the methods developed in three religions to attain it such as prayer and meditation

**Allegorical Quests from Deguileville to Spenser** Marco Nievergelt, 2012 An examination of sixteenth century quest narratives focussing on their conscious use of a medieval tradition to hold a mirror up to contemporary culture Offers the first full study of the allegorical knightly quest tradition from the Middle Ages to the Renaissance Richly satisfying as impressive in the detail of its scholarship as in the elegance of its critical formulations It seamlessly moves between different literary traditions and across conventional period boundaries In Dr Nievergelt's treatment of this theme the successive retellings of the tale of the knight's quest come to stand as an emblem of shifting values and norms both religious and worldly and of our repeated failures to realise those ideals Dr Alex Davis Department of English University of St Andrews

The literary motif of the allegorical knightly quest appears repeatedly in the literature of the late medieval early modern period notably in Spenser but has hitherto been little examined Here in his examination of a number of sixteenth century English allegorical chivalric quest narratives focussing on Spenser's *Faerie Queene* but including important lesser known works such as Stephen Bateman's *Travayled Pylgrime* and William Goodyear's *Voyage of the Wandering Knight* the author argues that the tradition begins with the French writer Guillaume de Deguileville His seminal *Plerinage de la vie humaine* was composed c 1331-1355 it was widely adapted translated rewritten and printed over the next centuries Dr Nievergelt goes on to demonstrate how this essentially medieval literary form could be adapted to articulate reflections on changing patterns of identity society and religion during the early modern period and how it becomes a vehicle of self exploration and self fashioning during a period of profound cultural crisis Dr Marco Nievergelt is Lecturer Maître Assitant and SNF Swiss National Science Foundation Research Fellow in the English Department at the Université de Lausanne

**Reading Piers Plowman** Emily Steiner, 2013-05-09 Reading *Piers Plowman* is an indispensable scholarly guide to a magnificent and notoriously difficult medieval poem With *Piers Plowman* the fourteenth century poet William Langland proved that English verse could be at once spiritually electrifying and intellectually rigorous capable of imagining society in its totality while at the same time exploring heady ideas about language theology and culture In her study of *Piers Plowman* Emily Steiner explores how Langland's ambitious poetics emerged in dialogue with contemporary ideas for example about political counsel and gender the ethics of poverty Christian and pagan learning lordship and servitude and the long history of Christianity Lucid and comprehensive Steiner's study teaches us to stay alert to the poem's stunning effects while still making sense of its literary and historical contexts

*Nature Speaks* Kellie Robertson, 2017-03-09 *Nature Speaks* recovers the common ground shared between physics what used to be known as natural philosophy and fiction writing as ways of representing the natural world In doing so it traces how nature gained an authoritative voice in the late medieval period only to lose it at the outset of modernity

**Imaginary Worlds in Medieval Books** M. Rust, 2016-04-30 This book presents a series of narratives that reflect the compelling and sometimes dangerous allure of the world of books and the world in books in late medieval Britain

Walter argues for the recuperation of its material everyday aspect Walter's original study draws on two rich archives one comprising Middle English theology Langland Julian of Norwich Lydgate Chaucer and pastoral writings the other broadly medical and surgical including learned encyclopaedias and vernacular translations and treatises Challenging several critical orthodoxies about the centrality of sight the hierarchy of the senses and the separation of religious from medical discourses the book reveals the centrality of the mouth taste and touch to human modes of knowing and to Christian identity
