Young,1932      **The Fragmented Metropolis** Robert M. Fogelson,1993-06-09 The most detailed study ever published of Los Angeles most critical period An invaluable aid to my understanding of this city David Brodsky author of L A Freeway      **Earning Power** Eileen Wallis,2010-03-01 The half century between 1880 and 1930 saw rampant growth in many American cities and an equally rapid movement of women into the work force In Los Angeles the city not only grew from a dusty cow town to a major American metropolis but also offered its residents myriad new opportunities and challenges *Earning Power* examines the role that women played in this growth as they attempted to make their financial way in a rapidly changing world Los Angeles during these years was one of the most ethnically diverse and gender balanced American cities Moreover its accelerated urban growth generated a great deal of economic social and political instability In *Earning Power* author Eileen V Wallis examines how women negotiated issues of gender race ethnicity and class to gain access to professions and skilled work in Los Angeles She also discusses the contributions they made to the region s history as political and social players employers and employees and as members of families Wallis reveals how the lives of women in the urban West differed in many ways from those of their sisters in more established eastern cities She finds that the experiences of women workers force us to reconsider many assumptions about the nature of Los Angeles s economy as well as about the ways women participated in it The book also considers how Angelenos responded to the larger national social debate about women s work and the ways that American society would have to change in order to accommodate working women *Earning Power* is a major contribution to our understanding of labor in the urban West during this transformative period and of the crucial role that women played in shaping western cities economies society and politics      *Street Meeting* Mark Wild,2008-06-02 This insightful analysis of ethnoracial contact and social networks among immigrants and racial groups in the central districts of Los Angeles is the product of new thinking Wild s conclusions are fresh and sound Tom Sitton coeditor of *Metropolis in the Making* Los Angeles in the 1920s This stimulating and exciting book is a work of synthesis that draws on dozens of previous theses and studies as well as reminiscences oral histories testimony and other first person accounts The result is an original and persuasive interpretation of the West s most important city Carl Abbott author of *The Metropolitan Frontier Cities in the Modern American West*      *The Provisional City* Dana Cuff,2000 A look at urban transformation through the architecture and land development of large scale residential projects      *The Pilgrims of Russian-town* Pauline Vislick Young,1932      *East Los Angeles* Richardo Romo,2010-07-05 This is the story of the largest Mexican American community in the United States the city within a city known as East Los Angeles How did this barrio of over one million men and women occupying an area greater than

Manhattan or Washington D C come to be Although promoted early in this century as a workers paradise Los Angeles fared poorly in attracting European immigrants and American blue collar workers Wages were low and these workers were understandably reluctant to come to a city which was also troubled by labor strife Mexicans made up the difference arriving in the city in massive numbers Who these Mexicans were and the conditions that caused them to leave their own country are revealed in East Los Angeles The author examines how they adjusted to life in one of the fastest growing cities in the United States how they fared in this country s labor market and the problems of segregation and prejudice they confronted Ricardo Romo is associate professor of history at the University of Texas at Austin     The Pilgrims of Russian-town Pauline V.

Young,1932     *Heretics and Colonizers* Nicholas B. Breyfogle,2011-08-11 In *Heretics and Colonizers* Nicholas B Breyfogle explores the dynamic intersection of Russian borderland colonization and popular religious culture He reconstructs the story of the religious sectarians Dukhobors Molokans and Subbotniks who settled either voluntarily or by force in the newly conquered lands of Transcaucasia in the nineteenth century By ordering this migration in 1830 Nicholas I attempted at once to cleanse Russian Orthodoxy of heresies and to populate the newly annexed lands with ethnic Slavs who would shoulder the burden of imperial construction Breyfogle focuses throughout on the lives of the peasant settlers their interactions with the peoples and environment of the South Caucasus and their evolving relations with Russian state power He draws on a wide variety of archival sources including a large collection of previously unexamined letters memoirs and other documents produced by the sectarians that allow him unprecedented insight into the experiences of colonization and religious life Although the settlers suffered greatly in their early years in hostile surroundings they in time proved to be not only model Russian colonists but also among the most prosperous of the Empire s peasants Banished to the empire s periphery the sectarians ironically came to play indispensable roles in the tsarist imperial agenda The book culminates with the dramatic events of the Dukhobor pacifist rebellion a movement that shocked the tsarist government and received international attention In the early twentieth century as the Russian state sought to replace the sectarians with Orthodox settlers thousands of Molokans and Dukhobors immigrated to North America where their descendants remain to this day     **Los Angeles** Anton Wagner,2022-07-12 For the first time Anton Wagner s groundbreaking 1935 book that launched the study of Los Angeles as an urban metropolis is available in English No book on the emergence of Los Angeles today a metropolis of more than four million people has been more influential or elusive than this volume by Anton Wagner Originally published in German in 1935 as *Los Angeles Werden Leben und Gestalt der Zweimillionenstadt in S dkalifornien* it is one of the earliest geographical investigations of a city understood as a series of layered landscapes Wagner demonstrated that despite its geographical disadvantages Los Angeles grew rapidly into a dominant urban region bolstered by agriculture real estate development transportation infrastructure tourism the oil and automobile industries and the film business Although widely reviewed upon its initial publication his book was largely forgotten until reintroduced by architectural historian Reyner

Banham in his 1971 classic *Los Angeles The Architecture of Four Ecologies* This definitive translation is annotated by Edward Dimendberg and preceded by his substantial introduction which traces Wagner's biography and intellectual formation in 1930s Germany and contextualizes his work among that of other geographers It is an essential work for students scholars and curious readers interested in urban geography and the rise of Los Angeles as a global metropolis This fine new translation by Timothy Grundy of Anton Wagner's *Los Angeles* with Edward Dimendberg's lucidly probing introduction constitutes a major contribution to urban history and our understanding of one of the world's most enigmatic and significant cities Thomas S Hines Research Professor of History and Architecture and Urban Design UCLA Edward Dimendberg has done a remarkable job bringing Anton Wagner's classic study of Los Angeles to a wider readership This landmark publication will enable many strands of urban scholarship to enter into dialogue for the first time Matthew Gandy Professor of Geography University of Cambridge and author of *Natura Urbana Ecological Constellations in Urban Space* 2022 Anton Wagner was a prescient and troubling historical figure Nearly a century ago with his camera in hand he walked Los Angeles in fervent exploration of metropolitan growth This beautiful and expert book takes Wagner every bit as seriously as he took Los Angeles William Deverell Director Huntington USC Institute on California and the West Anton Wagner's geographic and ethnographic history of the urbanization of Los Angeles has long been unavailable to English speaking readers This early study accompanied by Edward Dimendberg's comprehensive introduction will be of interest to all who like Reyner Banham admire its impressive scholarship and firsthand account of a city and ecology already in the throes of dynamic transformation Joan Ockman Vincent Scully Visiting Professor of Architectural History Yale School of Architecture Encompassing copious photographs insightful commentary and thorough reconstruction of Wagner's life and times this new translation of Anton Wagner's *Los Angeles* provides the missing link in scholarship about the metropolis during the early twentieth century Its continuing relevance and controversial edge will appeal to urban researchers and college students beyond Southern California Michael Dear Professor Emeritus of City Regional Planning University of California Berkeley Scholars of Los Angeles or any city must rejoice at this first proper English language publication of Wagner's brilliant if problematic urban studies masterpiece The edition is made accessible and relevant by Edward Dimendberg's indispensable prefatory material and contextualization Roger Keil Professor of Environmental and Urban Change York University Finally translating this fascinating book into English fills an important gap in our historical knowledge of Los Angeles and its interpretation Edward Dimendberg's invaluable introduction situates Anton Wagner in a comprehensive intellectual context Of more than merely historical interest this in depth picture of Los Angeles in 1933 is essential reading for anyone interested in cities Margaret Crawford Professor of Architecture University of California Berkeley This key text from 1935 for understanding Los Angeles urbanism is finally available in an excellent English translation by Timothy Grundy Revelatory introductory essays by Anthony Vidler and Edward Dimendberg explain how German geographer and later Nazi Party member Anton Wagner was able to

map and conceptualize the radical originality of this archetypal American metropolis in ways that deeply influenced Reyner Banham and so many subsequent writers on the city Robert Fishman Taubman College of Architecture and Planning University of Michigan Expertly annotated by Edward Dimendberg Anton Wagner's book on the growth of Los Angeles which first appeared in German in 1935 is a landmark study in the history of urbanization At the same time it can be read as an example of transnational and comparative history in which an observer from one country commented on developments in another This volume will interest historians of the modern city both in America and in Germany Andrew Lees Distinguished Professor of History Emeritus Rutgers University Blending his wide knowledge and his acute wit Edward Dimendberg has meticulously reconstructed the genesis of a forgotten doctoral thesis which had remained unread for more than eighty years despite its acknowledgement by Reyner Banham This pioneering scholarly study of the Southern Californian metropolis is now available for the first time in English inscribed with subtlety in both its German and its American contexts on the basis of thorough investigations Jean Louis Cohen Sheldon H Solow Professor in the History of Architecture Institute of Fine Arts New York University This is the odyssey of a book written and published in 1930s Nazi Germany forgotten after the war and rediscovered by Reyner Banham in the 70s Los Angeles is a seminal text of modern architectural history and confronts readers in the present with the paradox of an unknown classic Wolfgang Schivelbusch author of *The Railway Journey* Finally a translation of Anton Wagner's *Los Angeles* with extensive notes and a superb and deeply researched introduction by Edward Dimendberg has arrived It turns out that it was worth the wait This volume is not only an important historic document but a still unrivaled portrait of a great city Robert Brueggemann Distinguished Professor Emeritus of Art History Architecture and Urban Planning at the University of Illinois at Chicago and author of *Sprawl A Compact History* Scholars of Los Angeles can rejoice that Anton Wagner's legendary study of early 1930s Los Angeles is at last available in a masterful translation with a luminous introduction by Edward Dimendberg that captures Wagner's analytical brilliance as well as his troubling politics and racial views An essential addition to any library of Southern California Louis S Warren W Turrentine Jackson Professor of Western U S History University of California Davis Anton Wagner's study provides an invaluable and frequently perceptive window into the evolution of Los Angeles during the early twentieth century showing how human agency transformed regional resources into a booming major city The translation is immensely enhanced by Edward Dimendberg's skillful provision of context including fascinating intellectual history Stephen Bell Professor of Geography and History UCLA *Los Angeles The Development Life and Structure of the City of Two Million in Southern California* has always had an elusive presence in the conversation about the explosive growth of the Southern California metropolis at the beginning of the twentieth century an arcane text known to exist but only accessible to very few This expert first translation in English almost ninety years after it originally appeared in German is prefaced by a complex and engaging introduction by Edward Dimendberg that situates the original study in a multidisciplinary conversation It elucidates the many ways this

landmark essay on Los Angeles's urban geography was not only filtered into subsequent scholarship on the city Reyner Banham's iconic Los Angeles *The Architecture of Four Ecologies* in particular but also how it resonates with contemporary debates about cities as complex social organisms This book will be essential reading not only for historians of Los Angeles but for those interested in the theorization of the modern metropolis more broadly That the volume editor addresses Wagner's problematic views on race and territorial conquest front and center within their historic context only adds to the significance of this undertaking Martino Stierli The Philip Johnson Chief Curator of Architecture and Design The Museum of Modern Art New York *Looking for Los Angeles* Charles G. Salas, Michael S. Roth, 2001 In *Looking for Los Angeles* 12 contributors present their responses to the world's newest major city A variety of perspectives and approaches are covered The text balances the importance of place with the importance of culture *The Pilgrims of Russian-town* Pauline (Vislick) Young, 1967 *Inside Science* Robert E. Kohler, 2019-02-27 Context and situation always matter in both human and animal lives Unique insights can be gleaned from conducting scientific studies from within human communities and animal habitats *Inside Science* is a novel treatment of this distinctive mode of fieldwork Robert E Kohler illuminates these resident practices through close analyses of classic studies of Trobriand Islanders Chicago hobos corner boys in Boston's North End Jane Goodall's chimpanzees of the Gombe Stream Reserve and more Intensive firsthand observation a preference for generalizing from observed particulars rather than from universal principles and an ultimate framing of their results in narrative form characterize these inside stories from the field Resident observing takes place across a range of sciences from anthropology and sociology to primatology wildlife ecology and beyond What makes it special Kohler argues is the direct access it affords scientists to the contexts in which their subjects live and act These scientists understand their subjects not by keeping their distance but by living among them and engaging with them in ways large and small This approach also demonstrates how science and everyday life often assumed to be different and separate ways of knowing are in fact overlapping aspects of the human experience This story driven exploration is perfect for historians sociologists and philosophers who want to know how scientists go about making robust knowledge of nature and society [Sociology of Religion](#) Joachim Wach, 2019-03-20 This book first published in 1947 presents the then new subject of sociology of religion in systematic and historical theology and in the science of religion in political theory and the social sciences in philosophy and psychology in philology and anthropology Its intention is to bridge the gulf between the study of religion and the social sciences an exercise that draws strongly upon cultural anthropology *Urban Lowlands* Steven T. Moga, 2024-04-05 Interrogates the connections between a city's physical landscape and the poverty and social problems that are often concentrated at its literal lowest points In *Urban Lowlands* Steven T Moga looks closely at the Harlem Flats in New York City Black Bottom in Nashville Swede Hollow in Saint Paul and the Flats in Los Angeles to interrogate the connections between a city's actual landscape and the poverty and social problems that are often concentrated at its literal lowest points Taking an interdisciplinary perspective on the history of US

urban development from the nineteenth to the mid twentieth century Moga reveals patterns of inequitable land use economic dispossession and social discrimination against immigrants and minorities In attending to the landscapes of neighborhoods typically considered slums Moga shows how physical and policy driven containment has shaped the lives of the urban poor while wealth and access to resources have been historically concentrated in elevated areas truly the heights Moga s innovative framework expands our understanding of how planning and economic segregation alike have molded the American city

*Pittsburgh Surveyed* Maurine Greenwald,Margo Anderson,1996-10-15 At the beginning of the century Pittsburgh was the center of one of the nation s most powerful industries iron and steel It was also the site of an unprecedented effort to study the effects of industry on one American city The Pittsburgh Survey 1909 1914 brought together statisticians social workers engineers lawyers physicians economists labor investigators city planners and photographers They documented Pittsburgh s degraded environment corrupt civic institutions and exploited labor force and made a compelling case in four books and two collections of articles for reforming corporate capitalism In its literary history and visual power breadth and depth the Pittsburgh Survey remains an undisputed classic of social science research Like the Lynds Middletown studies of the 1920s the Survey captured the nation s attention and Pittsburgh came to symbolize the problems and way of life of industrial America as a whole A landmark volume in its own right this book of thirteen essays examines the accuracy and impact of the Pittsburgh Survey both on social science as a discipline and on Pittsburgh itself It also places the Survey firmly in the context of the social reform movement of the early twentieth century

Sociology of Religion in America Anthony Blasi,2014-03-20 Sociology of Religion in America tells the story of the controversies involved in the development of a scientific specialty that often makes news in America The evidence it presents runs contrary to the many myths about the field Sometimes viewed by scholars as a backwater actual evidence from the 1890s to the 1980s shows that sociology of religion had a steady presence in sociology all along Seen as a force alien to religion by some it was actually in a mutually supportive relationship with religious organizations Examining dissertations dating from 1895 to 1959 and scientific articles from the 1960s to the 1980s Anthony J Blasi discovers who the major sociologists of religion were and what they did He traces the field s previously unknown tradition in community studies the exigencies of the research institutes and dramatic changes in the professional associations
