**Books Ireland**, 2000     *A Companion to Old and Middle English Literature* Laura Lambdin, Robert Thomas

Lambdin, 2002-06-30 Old and Middle English literature can be obscure and challenging. So too can the vast body of criticism it has elicited. Yet the masters of medieval literature often drew on similar texts since imitation was admired. For this reason, recent scholarship has often focused on the importance of genre. The genre in which a work was written can illuminate the author's intentions and the text's meaning. Read in light of a genre's parameters, a given work can be considered in relation to other works within the same category. This reference is a comprehensive overview of Old and Middle English literature. Chapters focus on particular genres such as Allegorical Verse, Balladry, Beast Fable, Chronicle, Debate, Poetry, Epic, and Heroic Lyric. Middle English Parody, Burlesque, Religious and Allegorical Verse, and Romance. Expert contributors define the primary characteristics of each genre and discuss relevant literary works. Chapters provide extensive reviews of scholarship and close with detailed bibliographies. A more thorough bibliography of major scholarly studies closes the book.     [Earthing the Myths](#)

Daragh Smyth, 2020-07-06 In Ireland, the link between place and myth is strong, and there is no more enlightening way to understand the rich tapestry of Irish mythology and its relationship to our true history than by reading the landscape. *Earthing the Myths* is an engaging and exhaustive county-by-county guide to the vast number of fascinating places in Ireland connected to myth, folklore, and early history. Covering the period 800 BC to AD 650, this book spans the Late Bronze Age, the Iron Age, and the early Christian period and explores the ways in which the land evolved and with it our catalogue of myths and legends. Smyth chronicles sites the length and breadth of the country where druids, fairies, goddesses, warriors, and kings all left their mark in tales both real and imagined. With over one thousand locations recorded from Rathlin Island to the Beara Peninsula, *Earthing the Myths* breathes life into places throughout Ireland that find their origins in our pre-Christian and pre-Gaelic past and shows that they still possess unique wisdom and vibrant energy.     ***Insula sanctorum et doctorum*** John

Healy, 1890     ***A Little Tour in Ireland*** Samuel Reynolds Hole, 1891     *The Fairy-faith in Celtic Countries* Walter Yeeling Evans-Wentz, 1911 In this study, which is first of all a folk-lore study, we pursue principally an anthropo-psychological method of interpreting the Celtic belief in fairies, though we do not hesitate now and then to call in the aid of philology, and we make good use of the evidence offered by mythologies, religions, metaphysics, and physical sciences.     [The New Annotated H.P.
