Pilgrims And Sacred Sites In China:

Pilgrims and Sacred Sites in China Susan Naquin, Chün-Fang Yü, 2023-11-15 Until now China has been scarcely represented in the burgeoning comparative literature on pilgrimage This volume remedies that omission discussing the interaction between pilgrims and sacred sites from the tenth century to the present From the perspectives of literature art history religion politics and anthropology the essays focus on China's most famous pilgrimage mountains as well as lesser known sites Until now China has been scarcely represented in the burgeoning comparative literature on pilgrimage This volume remedies that omission discussing the interaction between pilgrims and sacred sites from the tenth century to the present From the perspective

Sacred Earth Martin Gray, 2007 Twenty years of photographs by photographer and anthropologist Martin Gray Accompanying each photograph is commentary that takes us into the history mythology and spiritual magnetism of the particular place Jacket

Taiwanese Pilgrimage to China D. Hatfield, 2009-12-21 This book examines the pilgrimages to China from Taiwan in the late 1980s and early 1990s and offers a wide ranging account of urban planning statements arguments about ritual propriety and the material culture of pilgrimage Taiwanese Pilgrimage to China argues that as Taiwanese pilgrims and their Chinese hosts translated values produced in ritual contexts into the terms of economic and political reform they became complicit in a shared project of composing historical truth With its attention to pilgrimages at a possible center of geopolitical conflict Taiwanese Pilgrimage to China provides an account of how shared frameworks for action grow and advances anthropological understandings of conflict resolution

Buddhist Tourism in Asia Courtney Bruntz, Brooke Schedneck, 2020-03-31 This innovative collaborative work the first to focus on Buddhist tourism explores how Buddhists government organizations business corporations and individuals in Asia participate in re imaginings of Buddhism through tourism Contributors from religious studies anthropology and art history examine sacred places and religious monuments as they have been shaped and reshaped by socioeconomic and cultural trends in the region Following an introduction that offers the first theoretical understanding of tourism from a Buddhist studies perspective early chapters discuss the ways Buddhists and non Buddhists imagine concepts and places related to the religion Case studies highlight Buddhist peace in India Buddhist heavens and hells in Singapore Thai temple space and the future Buddha Maitreya in China Buddhist tourism's connections to the state market and new technologies are explored in chapters on Indian package tours for pilgrims thematic Buddhist tourism in Cambodia the technological innovations of Buddhist temples in China and the promotion of pilgrimage sites in Japan Contributors then situate the financial concerns of Chinese temples speed dating in temples in Japan and the diffuse and pervasive nature of Buddhism for tourism promotion in Ladakh India How have tourist routes groups sites and practices associated with Buddhism come to be possible and what are the effects In what ways do travelers derive meaning from Buddhist places How do Buddhist sites fortify national cultural or religious identities The comparative research in South Southeast and East Asia presented here draws attention to the intertwining of the sacred and

the financial and how local and national sites are situated within global networks Together these findings generate a compelling comparative investigation of Buddhist spaces identities and practices Daoism Handbook Livia Kohn,2000-01-01 This handbook provides key information on the Daoist tradition in an easily accessible yet highly readable format It contains a coherent collection of thirty articles by major scholars in the field and presents the latest level of research available today A highly useful resource for both scholars and students *Early Chinese Religion* John Lagerwey,Pengzhi Lü,2009-10-30 After the Warring States treated in Part One of this set there is no more fecund era in Chinese religious and cultural history than the period of division 220-589 AD During it Buddhism conquered China Daoism grew into a mature religion with independent institutions and together with Confucianism these three teachings having each won its share of state recognition and support formed a united front against shamanism While all four religions are covered Buddhism and Daoism receive special attention in a series of parallel chapters on their pantheons rituals sacred geography community organization canon formation impact on literature and recent archaeological discoveries This multi disciplinary approach without ignoring philosophical and theological issues brings into sharp focus the social and historical matrices of Chinese religion **Early Chinese Religion, Part Two: The Period of Division (220-589 AD) (2 vols.)** John Lagerwey,Pengzhi Lü,2009-11-23 After the Warring States treated in Part One of this set there is no more fecund era in Chinese religious and cultural history than the period of division 220-589 AD During it Buddhism conquered China Daoism grew into a mature religion with independent institutions and together with Confucianism these three teachings having each won its share of state recognition and support formed a united front against shamanism While all four religions are covered Buddhism and Daoism receive special attention in a series of parallel chapters on their pantheons rituals sacred geography community organization canon formation impact on literature and recent archaeological discoveries This multi disciplinary approach without ignoring philosophical and theological issues brings into sharp focus the social and historical matrices of Chinese religion **The Transnational Cult of Mount Wutai** ,2020-11-23 The Transnational Cult of Mount Wutai explores the pan East Asian significance of sacred Mount Wutai from the Northern Dynasties to the present day Offering novel readings of comparatively familiar visual and textual sources and in many cases examining unstudied or understudied noncanonical materials the papers collected here illuminate the roles that both local actors and individuals dwelling far beyond Mount Wutai s borders have played in its making and remaking as a holy place for more than fifteen hundred years The work aims to contribute to our understanding of the ways that sacred geography is made and remade in new places and times Identity Reflections Brian R. Dott,2020-05-11 The social structure of contemporary Korea contains strong echoes of the hierarchical principles and patterns governing stratification in the Chos n dynasty 1392-1910 namely birth and one s position in the bureaucracy At the beginning of Korea s modern era the bureaucracy continued to exert great influence but developments undermined instead of reinforced aristocratic dominance Furthermore these changes elevated the secondary

status groups of the Chosŏn dynasty those who had belonged to hereditary endogamous tiers of government and society between the aristocracy and the commoners specialists in foreign languages law medicine and accounting the clerks who ran local administrative districts the children and descendants of concubines the local elites of the northern provinces and military officials These groups had languished in subordinate positions in both the bureaucratic and social hierarchies for hundreds of years under an ethos and organization that based predominantly on family lineage consigned them to a permanent place below the Chosŏn aristocracy As the author shows the political disruptions of the late nineteenth and early twentieth centuries however rewarded talent instead of birth In turn these groups newfound standing as part of the governing elite allowed them to break into and often dominate the cultural literary and artistic spheres as well as politics education and business Mount Tai in northeastern China has long been a sacred site Indeed it epitomizes China's religious and social diversity Throughout history it has been a magnet for both women and men from all classes emperors aristocrats officials literati and villagers For much of the past millennium however the vast majority of pilgrims were illiterate peasants who came to pray for their deceased ancestors as well as for sons good fortune and health Each of these social groups approached Mount Tai with different expectations Each group's or individual's view of the world interpersonal relationships and ultimate goals or dreams in a word its identity was reflected in its interactions with this sacred site This book examines the behavior of those who made the pilgrimage to Mount Tai and their interpretations of its sacrality and history as a means of better understanding their identities and mentalities It is the first to trace the social landscape of Mount Tai to examine the mindsets not just of prosperous male literati but also of women and illiterate pilgrims and to combine evidence from fiction poetry travel literature and official records with the findings of studies of material culture and anthropology

The Formation of Regional Religious Systems in Greater China Jiang Wu, 2022-04-21 The rise of Spatial Humanities has spurred a digital revolution in the field of Chinese studies especially in the study of religion Based on years of data compilation and analysis of religious sites this book explores the formation of Regional Religious Systems RRS in Greater China in unprecedented scope and depth It addresses quantitatively the enduring historical and contemporary issues of China's deep rooted regionalism and spatially variegated cultural and religious landscape A range of topics are explored theoretical discussions of the concept of RRS case studies of regional and local religious institutions the formation of local cults and pilgrimage network and the spread of religious networks to overseas Chinese communities and the Bon religion in Tibet The book also considers long standing challenges of researching with spatial data for humanities and social science research such as data collection integration spatial analysis and map creation This book will be of interest to students and scholars in Religious Studies Cultural Studies Chinese Studies Digital Humanities Human Geography and Sociology

Christian Heretics in Late Imperial China Lars Peter Laamann, 2013-05-13 Following the prohibition of missionary activity after 1724 China's Christians were effectively cut off from all foreign theological guidance The ensuing isolation forced China

s Christian communities to become self reliant in perpetuating the basic principles of their faith Left to their own devices the missionary seed developed into a panoply of indigenous traditions with Christian ancestry as the common denominator Christianity thus underwent the same process of inculturation as previous religious traditions in China such as Buddhism and Judaism As the guardian of orthodox morality the prosecuting state sought to exercise all pervading control over popular thoughts and social functions Filling the gap within the discourse of Christianity in China and also as part of the wider analysis of religion in late Imperial China this study presents the campaigns against Christians during this period as part and parcel of the campaign against heresy and heretical movements in general

The Market and Temple Fairs of Rural China Gene Cooper, 2013-02-01 During the early communist period of the 1950s temple fairs in China were both suppressed and secularized Temples were closed down by the secular regime and their activities classified as feudal superstition and this process only intensified during the Cultural Revolution when even the surviving secular fairs devoted exclusively to trade with no religious content of any kind were suppressed However once China embarked on its path of free market reform and openness secular commodity exchange fairs were again authorized and sometimes encouraged in the name of political economy as a means of stimulating rural commodity circulation and commerce This book reveals how once these secular temple less temple fairs were in place they came to serve not only as venues for the proliferation of a great variety of popular cultural performance genres but also as sites where a revival or recycling of popular religious symbols already underway in many parts of China found familiar and fertile ground in which to spread Taking this shift in the Chinese state s attitudes and policy towards temple fairs as its starting point The Market and Temple Fairs of Rural China shows how state led economic reforms in the early 1980s created a revival in secular commodity exchange fairs which were granted both the geographic and metaphoric space to function In turn this book presents a comprehensive analysis of the temple fair phenomenon examining its economic popular cultural popular religious and political dimensions and demonstrates the multifaceted significance of the fairs which have played a crucial role in expanding the boundaries of contemporary acceptable popular discourse and expression Based upon extensive fieldwork this unique book will be of great interest to students and scholars of Chinese religion Chinese culture Chinese history and anthropology

The Market and Temple Fairs of Rural China Eugene Cooper, 2013 During the early communist period of the 1950s temple fairs in China were suppressed however once China embarked on its path of free market reform secular commodity exchange fairs were again authorized and sometimes encouraged as a means of stimulating rural commerce This book reveals how once these secular temple less temple fairs were in place they came to serve not only as venues for the proliferation of popular cultural performance genres but also as sites for the revival of popular religious symbols Examining its economic popular cultural popular religious and political dimensions this book presents a comprehensive analysis of the temple fair phenomenon

from an explicitly historical perspective **New Pathways in Pilgrimage Studies** Dionigi Albera, John Eade, 2016-11-18 Although there has been a massive increase in the volume of pilgrimage research and publications traditional Anglophone scholarship has been dominated by research in Western Europe and North America In their previous edited volume *International Perspectives on Pilgrimage Studies* Routledge 2015 Albera and Eade sought to expand the theoretical disciplinary and geographical perspectives of Anglophone pilgrimage studies This new collection of essays builds on this earlier work by moving away from Eurasia and focusing on areas of the world where non Christian pilgrimages abound Individual chapters examine the practice of ziyarāt in the Maghreb and South Asia Hindu pilgrimage in India and different pilgrimage traditions across Malaysia and China before turning towards the Pacific islands Australia South Africa and Latin America where Christian pilgrimages co exist and sometimes interweave with indigenous traditions This book also demonstrates the impact of political and economic processes on religious pilgrimages and discusses the important development of secular pilgrimage and tourism where relevant Highly interdisciplinary international and innovative in its approach *New Pathways in Pilgrimage Studies* Global Perspectives will be of interest to those working in religious studies pilgrimage studies anthropology cultural geography and folklore studies **The Sacred Routes of Uyghur History** Rian Thum, 2014-10-13 For 250 years the Turkic Muslims of Altishahr who now call themselves Uyghurs have cultivated a sense of history and identity that challenges Beijing's national narrative The roots of this history run deeper than recent conflicts Rian Thum says to a time when manuscripts and pilgrimage along the Silk Road dominated understandings of the past

Building a Sacred Mountain Wei-Cheng Lin, 2014 Departing from traditional architectural scholarship Lin's interdisciplinary approach goes beyond the analysis of forms and structures to show how the built environment can work in tandem with practices and discourses to provide a space for encountering the divine **Nomads on Pilgrimage** Isabelle Charleux, 2015-06-29 *Nomads on Pilgrimage* Mongols on Wutaishan China 1800-1940 is a social history of the Mongols pilgrimages to Wutaishan in late imperial and Republican times In this period of economic crisis and rise of nationalism and anticlericalism in Mongolia and China this great Buddhist mountain of China became a unique place of intercultural exchanges mutual borrowings and competition between different ethnic groups Based on a variety of written and visual sources including a rich corpus of more than 340 Mongolian stone inscriptions it documents why and how Wutaishan became one of the holiest sites for Mongols who eventually reshaped its physical and spiritual landscape by their rites and strategies of appropriation *Host Communities and Pilgrimage Tourism* Ricardo Nicolas Prozano, Joseph M. Cheer, Xosé Manuel Santos, 2023-04-25 This book delves into topics on pilgrimage travel and communities from a variety of perspectives through academic research based on the Middle East Northeast Asia the Indian subcontinent and Europe where sacred sites have become of great importance for both international and domestic tourism In particular Europe and Asia possess a high volume of world renowned pilgrimage sites that are currently being developed as tourism destinations in their respective countries

such as Santiago de Compostela Spain Lourdes France and Koyasan Japan This book includes studies on these two continents that harbor both a great history of pilgrimage tradition as well as tourism development related to religious travel The book importantly covers the role of the community in religious tourism as well as the impact on the locals which is comparatively an unexplored area Whilst pilgrimage is seen as an effective tool to revitalize local economies this book also reveals the different challenges to achieving this goal Realizing the importance of the interrelationship of community and pilgrimage travel as well as the lack of studies on it this book seeks to address this research gap through 14 chapters divided into two parts Communities and Constestation and Pilgrimage Shaping Communities To ensure diverse perspectives case studies from different Eurasian countries written by authors with expertise in the study of pilgrimage and religious travel are included Readers can expect to gain new perspectives by having a deeper comprehension of the community side of pilgrimage travel in Eurasia and thus an integral understanding of contemporary pilgrimage Pilgrims, Patrons, and Place Phyllis Granoff, Koichi Shinohara, 2011-11-01 UBC Press is pleased to announce a new series in Asian religions Pilgrims Patrons and Place a Buddha Dharma Kyokai Foundation Book on Buddhism and Comparative Literature is the first book in this series Click here to see other titles in this series This book brings together essays by anthropologists scholars of religion and art historians on the subject of sacred place and sacred biography in Asia The chapters span a broad geographical area that includes India Nepal Thailand Indonesia and China and explore issues from the classical and medieval period to the present They show how sacred places have a plurality of meanings for all religious communities and how in their construction secular politics private religious experience and sectarian rivalry can all intersect The contributors explore some of the most fundamental challenges that religious groups face as they expand from their homeland or confront the demands of modernity In every case the biography of a saint or founding figure proves to be central to the formation of religious identity Sacred place becomes a means of concretizing the ever expanding sphere of the saint s influence While some chapters deal with well known religious movements and sites others discuss little known groups and help to enrich our understanding of the diversity of religious belief in Asia The book will be of interest not only to scholars of Asian religion and hagiography but to others who seek to understand the ways in which religious groups accommodate to the challenges of new environments and new times
