Atlantic Africa and the Spanish Caribbean, 1570-1640 David Wheat, 2016-03-09 This work resituates the Spanish Caribbean as an extension of the Luso African Atlantic world from the late sixteenth to the mid seventeenth century when the union of the Spanish and Portuguese crowns facilitated a surge in the transatlantic slave trade After the catastrophic decline of Amerindian populations on the islands two major African provenance zones first Upper Guinea and then Angola contributed forced migrant populations with distinct experiences to the Caribbean They played a dynamic role in the social formation of early Spanish colonial society in the fortified port cities of Cartagena de Indias Havana Santo Domingo and Panama City and their semirural hinterlands David Wheat is the first scholar to establish this early phase of the Africanization of the Spanish Caribbean two centuries before the rise of large scale sugar plantations With African migrants and their descendants comprising demographic majorities in core areas of Spanish settlement Luso Africans Afro Iberians Latinized Africans and free people of color acted more as colonists or settlers than as plantation slaves These ethnically mixed and economically diversified societies constituted a region of overlapping Iberian and African worlds while they made possible Spain's colonization of the Caribbean

**Communities on a Frontier in Conflict** Robert H. Jackson, 2018-10-09 In his historical satirical novel Candide Voltaire Francois Marie Arouet presented a fanciful vision of the Jesuit missions established among the Guaran in parts of what today are Argentina Paraguay and Brazil Some scholars have characterized the missions as having been a socialist utopia or an independent republic located on the fringes of Spanish territory in South America What was the reality This study presents a detailed analysis of one of the Jesuit missions Los Santos Mrtires del Jap

n and the story of the creation of mission communities on a frontier contested by Spain and Portugal during the seventeenth and eighteenth centuries It documents the historical realities of the Jesuit missions their patterns of development and the demographic consequences for the mission populations of military conflict     **Imperial Boredom** Jeffrey A. Auerbach, 2018 Imperial Boredom offers a radical reconsideration of the British Empire during its heyday in the nineteenth century Challenging the long established view that the empire was about adventure and excitement with heroic men and intrepid women eagerly spreading commerce and civilization around the globe this thoroughly researched engagingly written and lavishly illustrated account suggests instead that boredom was central to the experience of empire Combining individual stories of pain and perseverance with broader analysis Professor Auerbach considers what it was actually like to sail to Australia to serve as a soldier in South Africa or to accompany a colonial official to the hill stations of India He reveals that for numerous men and women from explorers to governors tourists to settlers the Victorian Empire was dull and disappointing Drawing on diaries letters memoirs and travelogues Imperial Boredom demonstrates that all across the empire men and women found the landscapes monotonous the physical and psychological distance from home debilitating the routines of everyday life wearisome and their work tedious and unfulfilling The empire's early years may have been about wonder and marvel but the Victorian Empire was a far less exciting project Many books about the British Empire focus on what happened this book concentrates on how people felt     **Whiggish International Law** Christopher R. Rossi, 2019-03-25 International law's turn to history in the Americas receives invigorated refreshment with Christopher Rossi's adaptation of the insightful and interdisciplinary teachings of the English School and Cambridge contextualists to problems of hemispheric methodology and historiography Rossi sheds new light on abridgments of history and the propensity to construct and legitimize whiggish understandings of international law based on simplified tropes of liberal and postcolonial treatments of the Monroe Doctrine Central to his story is the retelling of the Monroe Doctrine by its supreme early twentieth century interlocutor Elihu Root and other like minded internationalists Rossi's revival of whiggish international law cautions against the contemporary tendency to re read history with both eyes cast on the ideological present as a justification for misperceived historical sequencing     **Riot!** Jake Frederick, 2016-08-01 An exploration of the Totonac native community of Papantla Veracruz during the last half of the eighteenth century Told through the lens of violent revolt this is the first book length study devoted to Papantla during the colonial era The book tells the story of a native community confronting significant disruption of its agricultural tradition and the violence that change provoked Papantla's story is told in the form of an investigation into the political social and ethnic experience of an agrarian community The Bourbon monopolisation of tobacco in 1764 disturbed a fragile balance and pushed long term native frustrations to the point of violence Through the stories of four uprisings Jake Frederick examines the Totonacs increasingly difficult economic environment their view of justice and their political tactics Riot argues that for the native community of Papantla the nature of colonial rule was even in

the waning decades of the colonial era a process of negotiation rather than subjugation The second half of the eighteenth century saw an increase in collective violence across the Spanish American colonies as communities reacted to the strains imposed by the various Bourbon reforms Riot provides a much needed exploration of what the colony wide policy reforms of Bourbon Spain meant on the ground in rural communities in New Spain The narrative of each uprising draws the reader into the crisis as it unfolds providing an entree into an analysis of the event The focus on the community provides a new understanding of the demographics of this rural community including an account of the as yet unexamined black population of Papantla

**The Creation of the British Atlantic World** Elizabeth Mancke, Carole Shammas, 2015-10-15 Was the British Atlantic shaped more by imperial rivalries or by the actions of subnational groups with a variety of economic social and religious agendas The Creation of the British Atlantic World analyzes the interrelationship between these competing explanations for the development of the British Atlantic by examining migration patterns on both the macro and micro level It also scrutinizes the roles played by trade religion ethnicity and class in linking Atlantic borders and the increasingly complicated legal intellectual and emotional relationship between the British sovereign and colonial charterholders Contributors include Joyce E Chaplin John E Crowley David Barry Gaspar April Lee Hatfield James Horn Ray A Kea Elizabeth Mancke Philip D Morgan William M Offutt Robert Olwell Carole Shammas Wolfgang Splitter Mark L Thompson Karin Wulf Avi Hu Zakai
