

The background of the book cover is a painting of a long, brightly lit porch. On the left, a white balustrade with decorative balusters runs along the edge. The floor is made of light-colored wooden planks. On the right side of the porch, several dark wooden rocking chairs are arranged in a row, receding into the distance. The scene is bathed in warm, golden light, suggesting late afternoon or early morning. The overall style is that of a classic oil painting.

Merton Coulter, 2002-09-09 Few men in the history of Georgia have come down to the present in hearsay and folklore as profusely and as controversially as has James Monroe Smith who became a millionaire farmer around the turn of the twentieth century He was born near Washington Georgia in 1839 and died on his plantation a few miles from Athens in 1915 Smith s plantation Smithonia was measured in terms of square miles He developed an empire of farming and allied interests among which was a railroad to connect his plantation with other rail lines He served terms in the state legislature in both the house and the senate and in 1906 ran unsuccessfully for governor The colorful career of Smith a bachelor did not end with his death but was kept alive in numerous claims and counter claims in the settling of his estate E Merton Coulter seeks to separate fact from fiction in his

account of Smith's varied activities and the final dissolution of his wealth *Psychology and Selfhood in the Segregated South* Anne C. Rose, 2009 In the American South at the turn of the twentieth century the legal segregation of the races and psychological sciences focused on selfhood emerged simultaneously The two developments presented conflicting views of human nature American psychiatry and **Matzoh Ball Gumbo** Marcie Cohen Ferris, 2012-01-01 From the colonial era to the present Marcie Cohen Ferris examines the expressive power of food throughout southern Jewish history She demonstrates with delight and detail how southern Jews reinvented culinary traditions as they adapted to the customs landscape and racial codes of the American South Richly illustrated this culinary tour of the historic Jewish South is an evocative mixture of history and foodways including more than thirty recipes to try at home *The Americans: The Democratic Experience* Daniel J. Boorstin, 2010-11-03 Winner of the Pulitzer Prize A study of the last 100 years of American history **Rural Worlds Lost** Jack Temple Kirby, 1986-12-01 Immediately following the Civil War and for many years thereafter southerners proclaimed a New South implying not only the end of slavery but also the beginning of a new era of growth industrialization and prosperity Time has shown that those declarations at least in terms of progress and prosperity were premature by several decades Life for an Alabama tenant farmer in 1920 did not differ significantly from the life his grandfather led fifty years earlier In fact the South remained primarily a land of poor farming folks until the 1940s Only then and after World War II did the real New South of industrial growth and urban development begin to emerge Jack Temple Kirby's massive and engaging study examines the rural southern world of the first half of this century its collapse and the resulting modernization of southern society The American South was the last region of the Western world to undergo this process and *Rural Worlds Lost* is the first book to so thoroughly assess the profound changes modernization has wrought Kirby painstakingly charts the structural changes in agriculture that have occurred in the South and the effects these changes have had on people both at work and in the community He is quick to note that there is not just one South but many emphasizing the South's diversity not only in terms of race but also in terms of crop type and topography and the resultant cultural differences of various areas of the region He also skillfully compares southern life and institutions with those in other parts of the country noting discrepancies and similarities Perhaps even more significant however is Kirby's focus on the lives and communities of ordinary people and how they have been transformed by the effects of modernization By using the oral histories collected by WPA interviewers Kirby shows firsthand how rural southerners lived in the 1930s and what forces shaped their views on life He assesses the impact of cash upon traditional rural economies the revolutionary effects of New Deal programs on the rich and poor and the forms and cultural results of migration Kirby also treats home life recording attitudes toward marriage and sex health maintenance and class relationships not to mention sports and leisure moonshining and the southerner's longstanding love hate relationship with the mule *Rural Worlds Lost* based on exceptionally extensive research in archives throughout the South and in federal agricultural censuses definitively charts the enormous changes that

have taken place in the South in this century Writing about Kirby s previous book *Media Made Dixie* Time Magazine noted Kirby s scholarship of rare lucidity That same high level of scholarship as well as an undeniable affection for the region is abundantly evident in this new path breaking book *Three American Frontiers* Thomas D. Clark,2014-07-15 The casual and the serious of American history fiddlers yarn spinners and riverboat gamblers politicians educators and social reformers have all concerned Thomas D Clark celebrated historian of the Western frontier and the changing South *Three American Frontiers* a volume of his selected writings draws from works produced throughout Clark s long career as a writer teacher and lecturer on the frontier West social change in the South and the cutting edge of historical research An avid researcher and a tenacious collector of original materials Clark looks to the everyday items like the record book of a country store the file of a small town newspaper or the diary of a young Gold Rusher for aids to the analysis of larger trends in history Holman Hamilton conveys Clark s unique approach to his material and his enthusiasm for the common man in America s past **The Cotton Kings** Bruce E. Baker,Barbara Hahn,2016 *The Cotton Kings* is a colorful account of the men who fought to control the price of cotton on unregulated exchanges in New York and New Orleans Dishonest brokers used bad information to raise and lower prices make or break fortunes regardless of supply and demand Eventually federal regulation stamped out corruption on the exchanges helping millions of farmers and textile manufacturers **Beyond Piggly Wiggly** Lisa C. Tolbert,2023-08-01 Patented in 1917 Piggly Wiggly was by far the most influential self service store of the early twentieth century Before 1940 it was the only self service chain with a national distribution network but it was neither the first nor the only version *Beyond Piggly Wiggly* reveals the importance of Piggly Wiggly in the invention of self service and goes beyond the history of a single firm to explore the role of small business entrepreneurs who invented the first self service stores in a grassroots social process During the 1920s and 1930s a minority of enterprising grocers experimented with a wide variety of sometimes wacky design ideas for automating shopping They created specialized stores designed as enclosed retail systems that went far beyond open display techniques to construct unique physical and psychological advantages for automating salesmanship *Beyond Piggly Wiggly* offers the first perspective on the national scale of experimentation and connects the southern Jim Crow origins of self service to the national history of this mass retailing method Empirical analysis of store arrangements demonstrates how small stores that have previously been overlooked or undervalued as quaint anomalies were integral to the creation of supermarkets Ultimately self service was more than a business decision it was a fundamentally new social practice **The Pursuit of a Dream** Janet Sharp Hermann,2011-03-10 Winner of the Robert F Kennedy Book Award the McLemore Prize of the Mississippi Historical Society and the Silver Medal of the Commonwealth Club of California Originally published in 1981 this fascinating history set in the Reconstruction South is a testament to African American resilience fortitude and independence It tells of three attempts to create an ideal community on the river bottom lands at Davis Bend south of Vicksburg There Joseph Davis s effort to establish a cooperative community among the slaves on

his plantation was doomed to fail as long as they remained in bondage During the Civil War the Yankees tried with limited success to organize the freedmen into a model community without trusting them to manage their own affairs After the war the intrepid Benjamin Montgomery and his family bought the land from Davis and established a very prosperous colony of their fellow freedmen Their success at Davis Bend occurred when blacks were accorded the opportunity to pursue the American dream relatively free from the discrimination that prevailed in most of society It is a story worthy of celebration Janet Sharp Hermann writes here of two men Joseph Davis the slaveholder and brother of the president of the Confederacy and Benjamin Montgomery an educated freedman In 1866 Montgomery began the experiment at Davis Bend *The Politics of Despair* Tracy Campbell, 2021-11-21 Shortly after 1900 tens of thousands of tobacco growers throughout Kentucky and Tennessee convulsed the region for nearly a decade in a revolt against the monopolistic practices of the American Tobacco Company Though the revolt known as the Tobacco Wars remains one of the more remarkable insurgencies of rural America it is also one of the more misunderstood In this first major account of the uprising in over half a century Tracy Campbell tells the story of these embattled farmers and casts a provocative new light on the issues that fueled the Tobacco Wars When tobacco prices fell below the cost of production in the early 1900s farmers in western Kentucky and Tennessee faced with desperate economic circumstances formed cooperatives through which they could pool their crops and withhold tobacco from the market until a satisfactory price was offered Campbell recounts the organizational underpinnings of the notorious Black Patch War and the forces that drove farmers to seek violent solutions to their economic ills Campbell then expands the story to the burley region where a simultaneous movement was under way In 1908 over thirty thousand burley growers undertook the only successful large scale agricultural strike in American history Campbell brings this drama to life and describes the emotional day when the farmers achieved their unprecedented victory over the powerful Tobacco Trust The Tobacco Wars represented one of the last desperate gasps from the countryside before the onset of agribusiness drove millions of farmers and their families away for good *The Politics of Despair* thus stands as a unique reminder of a tradition of protest that has perhaps been irretrievably lost This book will interest not only rural and labor historians and students of the American South but anyone concerned with the profound issues surrounding the decline of rural America Pageants, Parlors, & Pretty Women Blain Roberts, 2014 *Pageants Parlors and Pretty Women Race and Beauty in the Twentieth Century South* **Faulkner and Material Culture** Joseph R. Urgo, Ann J. Abadie, 2009-09-18 Photographs of hewn coffins in every William Faulkner novel and short story worldly material abounds The essays in *Faulkner and Material Culture* provide a fresh understanding of the things Faulkner brought from the world around him to the one he created Charles S. Aiken surveys Faulkner's representation of terrain and concludes contrary to established criticism that to Faulkner Yoknapatawpha was not a microcosm of the South but a very particular and quite specifically located place Jay Watson works with literary theory philosophy the history of woodworking and furniture making and social and intellectual history to explore

how Light in August is tied intimately to the region's logging and woodworking industries. Other essays in the volume include Kevin Railey's on the consumer goods that appear in *Flags in the Dust*. Miles Orvell discusses the Confederate Soldier monuments installed in small towns throughout the South and how such monuments enter Faulkner's work. Katherine Henninger analyzes Faulkner's fictional representation of photographs and the function of photography within his fiction, particularly in *The Sound and the Fury*. Light in August and Absalom Absalom.

Up South in the Ozarks Brooks Blevins, 2022-12-15 The Ozarks is a place that defies easy categorization. Sprawling across much of Missouri and Arkansas and smaller parts of Oklahoma and Kansas, it is caught on the margins of America's larger cultural regions: part southern, part midwestern, and maybe even a little bit western. For generations, Ozarkers have been more likely than most other Americans to live near or below the poverty line, a situation that has often subjected them to unflattering stereotypes. In short, the Ozarks has been a marginal place populated by marginalized people. Historian Brooks Blevins has spent his life studying and writing about the people of his native regions: the South and the Ozarks. He has been in the vanguard of a new and vibrant Ozarks Studies movement that has worked to refract the stories of Ozarkers through a more realistic and less exotic lens. In *Up South in the Ozarks: Dispatches from the Margins*, Blevins introduces us, with humor and fairness, to mostly unseen lives of the past and present: southern gospel singing schools and ballad collectors, migratory cotton pickers and backroad country storekeepers, fireworks peddlers and impoverished diarists. Part historical and part journalistic, Blevins's essays combine the scholarly sensibilities of a respected historian with the insights of someone raised in rural hill country. His stories of marginalized characters often defy stereotype. They entertain as much as they educate. And most of them originate in the same place: Blevins does up south in the Ozarks.

After Redemption John M. Giggie, 2007-11-21 *After Redemption* fills in a missing chapter in the history of African American life after freedom. It takes on the widely overlooked period between the end of Reconstruction and World War I to examine the sacred world of ex-slaves and their descendants living in the region more densely settled than any other by blacks living in this era: the Mississippi and Arkansas Delta. Drawing on a rich range of local memoirs, newspaper accounts, photographs, early blues music, and recently unearthed Works Project Administration records, John Giggie challenges the conventional view that this era marked the low point in the modern evolution of African American religion and culture. Set against a backdrop of escalating racial violence in a region more densely populated by African Americans than any other at the time, he illuminates how blacks adapted to the defining features of the post-Reconstruction South, including the growth of segregation, train travel, consumer capitalism, and fraternal orders, and in the process dramatically altered their spiritual ideas and institutions. Masterfully analyzing these disparate elements, Giggie's study situates the African American experience in the broadest context of southern religious and American history and sheds new light on the complexity of black religion and its role in confronting Jim Crow.
