Pilots Flight Operating Instructions For P 39 Airacobra:

Bell P-39 Airacobra Pilot's Flight Operating Instructions United States Air Force, 2008-09 The P 39 Airacobra was designed by Bell's brilliant engineer Robert Woods. The plane featured a mid engine design intended to allow it to carry a lethal 37mm cannon in the nose. An all metal low wing design the P 39 was the first fighter to feature tricycle landing gear. The plane debuted in 1939 and proved impressive in tests. Yet the aircraft lacked a large fuel capacity that limited range and pilots learned that its performance dropped off markedly at altitudes above 17 000 feet. Despite this over 9 500 P 39s were built. Almost half were sent to the USSR where Soviet pilots flying low level attack missions achieved devastating results. Ace Alexander Pokryshkin flew the plane exclusively and scored nearly 60 kills. Originally printed by the USAAF and the RAF this handbook provides a fascinating glimpse inside the cockpit of this warbird. Originally classified Restricted the manual was declassified and is here reprinted in book form. **Pilot's Flight Operating Instructions for P-39 Airacobra** Michael S. Rice, 1973-12-01 Reproductions of the original documents issued to pilots and flight crews each containing a wealth of information on its subject aircraft. **Flying American Combat Aircraft of World War II** Robin D. Attack of the Airacobras Dmitriy Loza, 2002-01-31 During its titanic military struggle with Germany the Soviet Union received a major boost with the arrival and deployment of nearly 5 000 Bell P 39 Airacobra fighter planes courtesy of America s Lend Lease program The impact was dramatic as the Soviets quickly adapted the planes into a devastatingly lethal force Dmitriy Loza s account admirably translated and edited by James Gebhardt vividly re creates the battle campaigns of this odd coupling of capitalist planes and Marxist pilots and shines a bright light on a little known part of the air war on the Eastern Front The P 39 proved to be the right plane at the right time for a beleaguered Red Air Force Built for short range and relatively low altitudes the P 39 was equipped with a powerful engine and weapons that enabled it to outduel and eventually dominate the Luftwaffe from

the Caucasus foothills to Berlin Focusing on the combat operations and daily life of one unit the 9th Guards Fighter Division Loza refutes the myth that the P 39 was used mainly as a tank buster or flying artillery Instead its primary mission was to protect Red Army operations from aerial attacks by the enemy So despite the occasional strafing of trains truck convoys and troops most P 39 operations involved attacks on Luftwaffe bombers and dogfights with their fighter escorts Center stage in Loza s story are the P 39 pilots and ground crews themselves including remarkable Captain Aleksandr Pokryshkin and Major Gregoriy Rechkalov two of the Soviets top four aces In addition Loza details the organization and operations of the unit s noncombat personnel who refueled and maintained the aircraft cleaned and reloaded the guns packed the parachutes treated the wounded guarded the airfields and commanded the squadrons and regiments Based on interviews with Soviet veterans and extensive access to squadron histories and logbooks Loza provides a rare and insightful look at what it was like to live and fight in this victorious air unit **P-39/P-400 Airacobra vs A6M2/3 Zero-sen** Michael John Claringbould,2018-07-26
