Pilots Man Your Planes The History Of Naval Aviation:

Pilots, Man Your Planes! Wilbur H. Morrison, 1999 This is the complete history of Naval Aviation and of the men and women who fought for it from its obscure beginnings in 1910 through the Persian Gulf War and on to the present Morrison paints a fascinating retrospective of the successes and failures of a division of the military that has been immersed in politics and bureaucracy from its beginnings He describes the conflicts between Navy battleship diehards and the young turks who made up the Navy's early aviation branch and affected the course of tomorrow's aviation technology *United States Naval Aviation, 1919-1941* E.R. Johnson, 2014-01-10 Within six months of the devastating attack on Pearl Harbor the U S Navy had checked the Japanese military advance in the Pacific to the extent that the United States could return to its original Defeat Germany First strategy That the Navy was able to accomplish this feat with only six fleet aircraft carriers and little more than 1 000 combat aircraft was not sheer luck but the culmination of more than two decades of determined preparation This thorough study with detailed drawings and photographs explains and illustrates the trial and error process which went into developing the aircraft airships and ships of the interwar period The critical factors that shaped Naval Aviation after World War I naval treaties fleet tactics government programs leadership and organization as well as the emergence of Marine Corps and Coast Guard aviation are discussed in depth **United States Naval Aviation, 1910-1995** Roy A.

Grossnick, William J. Armstrong, 1997 **Carrier Warfare in the Pacific** E. T. Wooldridge, 1999-10-17 Capturing the times when lives and victory were in peril this book records the exploits of the men who fought in WWII in the air and on the sea including pilots and air crewmen of carrier squadrons officers and men of the ship's company and admirals and their staffs

First Blue Robert K. Wilcox, 2007-04-01 Robert K Wilcox's First Blue presents the remarkable story of a true hero of American aviation during World War II The U S Navy's Blue Angels are the most famous flight demonstration team in the world While millions of aviation enthusiasts see their shows every year the story of the man who formed the squadron has never been told He is Roy Marlin Butch Voris a World War II Ace and one of only two aviators ever to command the Blue Angels twice First Blue details the epic journey of an unassuming man whose strong character and desire to fly launched him into a life of drama heroism and accomplishment unique in his field Because he wanted to serve his country during World War II a young Butch Voris found himself flying fighter planes as part of the pitifully prepared and outmanned front in the early stages of the Pacific theater He was nearly killed there but went on to be a leader in one of the most fearsome naval air squadrons in the Pacific As a pilot Butch is unquestionably in the same class as more recognized aviator heroes such as Chuck Yeager and Pappy Boyington While his World War II experience alone could comprise a book Butch may be best known for his efforts in the creation of the naval air demonstration team the Blue Angels After the war Voris was personally chosen by Admiral Nimitz to start the Blue Angels and to lead them first in prop planes and later in jets The story of his efforts is as exciting as it is inspirational and it's told here in meticulous detail and with great humor Today the Blue Angels
