Pindars Art Its Tradition And Aims:

Pindar's Verbal Art James Bradley Wells, 2009 Wells argues that the victory song is a traditional art form that appealed to a popular audience and served exclusive elite interests through the inclusive appeal of entertainment popular instruction and laughter Wells offers a new take on old Pindaric questions genre unity of the victory song tradition and epinician performance Pindar's Art John Kevin Newman, 1984 **Pindar's Art** John Kevin Newman, Frances Stickney Newman, 1984 Commentaries on Pindar Willem Jacob Verdenius, 1987 This volume contains word for word commentaries on Pindar's Olympian Odes 3 7 12 14 Emphasis is placed on the explanations of peculiarities of grammar and idiom but due attention is paid to figures of style and problems of poetic structure The interpretations proposed by the author many of them which are new are documented as fully but at the same time as concisely as possible This documentation which includes a critical examination of other views has been made more easily accessible by detailed indexes The poems discussed do not have special similarities or interrelationships On the other hand they may be considered representative of the poet's art From this point of view the present selection may serve as an introduction to the study of Pindar's work Vol II will contain commentaries on Olympians 1 10 11 Nemean 11 and Isthmian 2 A third volume on Pythians 1 8 10 is intended to conclude the series Reading the Victory Ode Peter Agócs, Chris Carey, Richard Rawles, 2012-08-09 A collection of papers by international experts on one of the most paradoxical and influential poetic genres of classical antiquity Classical Epic Tradition John Kevin Newman, 2003-04-01 The literary epic and critical theories about the epic tradition are traced from Aristotle and Callimachus through Apollonius Virgil and their successors such as Chaucer and Milton to Eisenstein Tolstoy and Thomas Mann Newman's revisionist critique will challenge all scholars students and general readers of the classics comparative literature and western literary traditions **Pindar and the Construction of Syracusan Monarchy in the Fifth Century B.C.** Kathryn A. Morgan, 2015-02-02 This groundbreaking book attempts a fully contextualized reading of the poetry written by Pindar for Hieron of Syracuse in the 470s BC It argues that the victory odes and other occasional songs composed by Pindar for the Sicilian tyrant were part of an extensive cultural program that included athletic competition coinage architecture sanctuary dedication city foundation and much more In the tumultuous years following the Persian invasion of Greece in 480 elite Greek leaders and their cities struggled to capitalize on the Greek victory and to define themselves as free peoples who triumphed over the threat of Persian monarchy Pindar's victory odes are an important contribution to Hieron's goal of panhellenic pre-eminence redescribing contemporary tyranny as an instantiation of golden age kingship and consonant with best Greek tradition In a delicate process of cultural legitimation the poet's praise deploys athletic victories as a sign of more general pre-eminence Three initial chapters set the stage by presenting the history and culture of Syracuse under the Deinomenid tyrants exploring issues of performance and patronage and juxtaposing Hieron to rival Greek leaders on the mainland Subsequent chapters examine in turn all Pindar's preserved poetry for Hieron and

members of his court and contextualizes this poetry by comparing it to the songs written for Hieron by Pindar's poetic contemporary Bacchylides. These odes develop a specifically tyrannical mythology in which a hero from the past enjoys unusual closeness with the gods only to bring ruin on him or herself by failing to manage this closeness appropriately. Such negative exemplars counterbalance Hieron's good fortune and present the dangers against which he must and does protect himself by regal virtue. The readings that emerge are marked by exceptional integration of literary interpretation with the political/historical context.

Carnivalizing Difference Peter I. Barta, Paul Allen Miller, Charles Platter, David Shepherd, 2013-06-17 It has seemed at times that there is no neutral territory between those who see Bakhtin as the practitioner of a kind of neo-Marxist or at least materialist deconstruction and those who look at the same texts and see a defender of traditional liberal humanist values and classical conceptions of order—a conservative in the true sense of the term. Arising from a conference under the same title held at Texas Tech University, *Carnivalizing Difference* seeks to explore the actual and possible relationships between Bakhtinian theory and cultural practice. The introduction explores the changing configurations of our understanding of Bakhtin's work in the context of recent theory and outlines how that understanding can inform and be informed by culture both ancient and modern. Eleven articles spanning a wide range of periods and cultural forms then address these issues in detail, revealing the ways in which Bakhtinian thought illuminates, sometimes obfuscates but always challenges.

Commentaries on Pindar W.J. Verdenius, 2018-07-17 This volume contains word-for-word commentaries on Pindar's Olympian Odes 3, 7, 12, 14. Emphasis is placed on the explanations of peculiarities of grammar and idiom, but due attention is paid to figures of style and problems of poetic structure. The interpretations proposed by the author, many of them which are new, are documented as fully but at the same time as concisely as possible. This documentation, which includes a critical examination of other views, has been made more easily accessible by detailed indexes. The poems discussed do not have special similarities or interrelationships. On the other hand, they may be considered representative of the poet's art. From this point of view, the present selection may serve as an introduction to the study of Pindar's work. Vol. II will contain commentaries on Olympians 1, 10, 11, Nemean 11, and Isthmian 2. A third volume on Pythians 1, 8, 10 is intended to conclude the series.

First Person Futures in Pindar Ilja Leonard Pfeijffer, 1999 This book is about passages where Pindar uses the future tense with reference to himself or to his song. It addresses the question as to exactly what the function is of the future tense in those passages. This is a vexed problem which has played a major role in Pindaric criticism for the last decades and which has recently gained relevance for the interpretation of other authors as well. This book offers a detailed examination of all the relevant passages in Pindar as well as a generous amount of examples from other authors. It takes a firm stand against the communis opinio that first person futures in Pindar merely express a present intention, the so-called encomiastic or performative future. It demonstrates that the reference to a future moment is relevant in every single instance of a future verb in Pindar and concludes that there is no such thing as an encomiastic future. Inhalt

Futures with a text internal reference Futures referring to a later moment in the ode Fictional futures Generic futures Futures with a specific text external reference The case of Olympian XI First person futures in Theocritus second Idyll magical texts Franz Steiner 1999 *Three Aeginetan Odes of Pindar* Pfeijffer, 2018-07-17 A study of three epinicia of Pindar which have in common that they celebrate victories of Aeginetan athletes and that they respond to the contemporary political situation in Aegina and to circumstances of the victory The primary objective of this book is to provide an interpretation of each of the three odes as meaningful coherent works of the literary art For each ode it provides a commentary in which problems of text and interpretation are discussed in detail a structural and metrical analysis and an interpretative essay in which the observations of detail are brought together in order to provide an answer to the question as to how the ode at hand could have functioned as a coherent meaningful epinicion The introduction addresses questions of method and provides a description of Pindar's style

Winged Words Piero Boitani, 2007-05-15 Flight has always fascinated human minds but until a century ago it remained a dream the exclusive domain of birds gods and mythological heroes From the myths of the ancients to the poetry of Pindar and Yeats *Winged Words* traces the imprint of the human impulse to fly from premodern times to the age of terrorism in both literature and history Piero Boitani begins his analysis with an account of the way the myths of Pegasus and Icarus have persisted from classical to twentieth century politics and literature He then takes up the figure of Hermes the roles of halcyons and eagles in classical biblical and later literatures and literary response to Pieter Brueghel's *The Fall of Icarus* Honing in on modern figures and concerns Boitani also offers a fascinating discussion of author pilot Antoine de Saint Exupéry and concludes with a meditation on the flight of the hijacked airliners on 9/11 Throughout *Winged Word* brings a remarkable range of men of action politicians theologians writers and artists into dialogue with each other Shakespeare with T.S. Eliot Horace with Ovid Leonardo with Milton Leopardi with Mallarmé Saint Exupéry with Faulkner and Rilke and the Ulysses of Homer with the Ulysses of Dante Ultimately by showing how writers and fliers have looked to the ancients for inspiration Boitani testifies to the modern relevance of poetry and the classics

Pindar's Pythian Twelve: A Linguistic Commentary and a Comparative Study Laura Massetti, 2024-04-15 Pindar's Pythian Twelve is the only choral lyric epinicion in our possession composed for the winner of a non athletic competition Often regarded as an ode of straightforward interpretation close analysis of the text reveals that it presents several challenges to modern readers This book offers an updated translation of the text and an investigation of the main interpretative issues of the epinicion with the aid of historical linguistics By identifying devices which Pindar might have inherited from earlier periods of poetic language the study provides insights into the thematic aspects of the ode as well as on Pindar's compositional technique

The Poetics of Victory in the Greek West Nigel James Nicholson, 2016 By setting epinician in dialogue with the colorful stories about athletes that circulated in the same period *The Poetics of Victory in the Greek West* offers a new and compelling account of the Deinomenids self promotion and of the complex communities within and around the Deinomenid empire
