Review Gilbert Leonard Grant,1956 *These Precious Days* Ann Patchett,2021-11-23 The beloved New York Times bestselling author reflects on home family friendships and writing in this deeply personal collection of essays The elegance of Patchett s prose is seductive and inviting with Patchett as a guide readers will really get to grips with the power of struggles failures and triumphs alike Publisher s Weekly Any story that starts will also end As a writer Ann Patchett knows what the outcome of her fiction will be Life however often takes turns we do not see coming Patchett ponders this truth in these wise essays that afford a fresh and intimate look into her mind and heart At the center of *These Precious Days* is the title essay a surprising and moving meditation on an unexpected friendship that explores what it means to be seen to find someone with whom you can be your best and most complete self When Patchett chose an early galley of actor and producer Tom Hanks short story collection to read one night before bed she had no idea that this single choice would be life changing It would introduce her to a remarkable woman Tom s brilliant assistant Sooki with whom she would form a profound bond that held monumental consequences for them both A literary alchemist Patchett plumbs the depths of her experiences to create gold engaging and moving pieces that are both self portrait and landscape each vibrant with emotion and rich in insight Turning her writer s eye on her own experiences she transforms the private into the universal providing us all a way to look at our own worlds anew and reminds how fleeting and enigmatic life can be From the enchantments of Kate DiCamillo s children s books author of *The Beatryce Prophecy* to youthful memories of Paris the cherished life gifts given by her three fathers to the unexpected influence of Charles Schultz s Snoopy the expansive vision of Eudora Welty to the importance of knitting Patchett connects life and art as she illuminates what matters most Infused with the author s grace wit and warmth the pieces in *These Precious Days* resonate deep in the soul leaving an indelible mark and demonstrate why Ann Patchett is one of the most celebrated writers of our time *Sophie's World* Jostein Gaarder,1994 The protagonists are Sophie Amundsen a 14 year old girl and Alberto Knox her philosophy teacher The novel chronicles their metaphysical relationship as they study Western philosophy from its beginnings to the present A bestseller in Norway **Alex & Me** Irene Pepperberg,2013 A moving tribute that beautifully evokes the struggles the initial triumphs the setbacks the unexpected and often stunning achievements while uncovering cognitive abilities in Alex that no one believed were possible Publishers Weekly On September 6 2007 an African Grey parrot named Alex died prematurely at age thirty one His last words to his owner Irene Pepperberg were You be good I love you What would normally be a quiet very private event was in Alex s case headline news Over the thirty years they had worked together Alex and Irene had become famous two pioneers who opened an unprecedented window into the hidden yet vast world of animal minds Alex s brain was the size of a shelled walnut and when Irene and Alex first met birds were not believed to possess any potential for language consciousness or anything remotely comparable to human intelligence Yet over the years Alex proved many things He could add He could sound out words He understood concepts like bigger smaller more fewer and none He was capable of thought and intention Together Alex and Irene

uncovered a startling reality We live in a world populated by thinking conscious creatures The fame that resulted was extraordinary Yet there was a side to their relationship that never made the papers They were emotionally connected to one another They shared a deep bond far beyond science Alex missed Irene when she was away He was jealous when she paid attention to other parrots or even people He liked to show her who was boss He loved to dance He sometimes became bored by the repetition of his tests and played jokes on her Sometimes they sniped at each other Yet nearly every day they each said I love you Alex and Irene stayed together through thick and thin despite sneers from experts extraordinary financial sacrifices and a nomadic existence from one university to another The story of their thirty year adventure is equally a landmark of scientific achievement and of an unforgettable human animal bond *Three Junes* Julia Glass,2002-09-03
